U. S. Helpless to Halt Sugar Plot

LAW FAILS TO BLOCK GOUGERS

Prices Continue to Soar Despite Activity of Government

GAMBLERS FREE TO RAKE IN PROFITS

U. S. Attorney Asks Data On Operations of Sugar Exchange

WASHINGTON, April 14.—The government is helpless to prevent the sugar gouge which is costing the American public a huge sum every day.

Government officials have evidence of the operations of sugar gamblers. They have a conspiracy law. They cannot bring the gambler under the law.

This is the exact situation today while sugar prices continue to climb. The trouble is that the existing law does not seem to cover such operations as the evidence in the hands of the government officials shows are being carried on.

Officials Silent This explains the reticence of officials, from President Harding down on the executive's plans for relieving the American people from the sugar robbery.

Continuing to gather records covering operations in sugar. In New York today members of the sugar exchange were called on by federal investigators for their records.

Would Change Law If it is found impossible to apply existing laws, and the present situation runs its course, with a consequent "clean up" of millions for the profiteers, the administration will consider the advisability of asking the next congress to tighten the conspiracy laws so that the government can break up situations like this one.

Right now, officials admitted to day there is nothing they can do except sit tight and watch, hoping the gougers will give them an opening for application of the law.

These government agencies have all gone into the sugar price situation without result: The federal trade commission. The department of justice. The United States senate. The tariff commission.

RANCH EMPLOYEE DIES AS LUNCH COMPLETED

Arrangements for the funeral of Joseph Schott, who died suddenly at the Coleman ranch, Anaheim, yesterday noon, just as he swallowed the last bite of his luncheon, were uncompleted today.

Schott, who was employed at the ranch, and who was said to have been rather well-to-do, had eaten his lunch beneath a tree. When he did not return to work after the noon hour, fellow employees sought him, and found him dead.

In an inquest last night at Backs, Terry and Campbell returned a verdict of death from natural causes, probably heart failure.

Heiress Weds Swiss Livery Stable Man In Secret Ceremony

MATHILDE NOW ON SCOTLAND HONEYMOON

LONDON, April 4.—Secretly married Thursday in a Lewisham registry office, Mathilde McCormick, Chicago heiress and Max Oser, Swiss riding master, and who are reported to have been secretly married Thursday and are now on their honeymoon in Scotland.

APRIL SNOW STORM TIES UP TRAFFIC

Pittsburgh and Philadelphia Report Drop in Temperature in Surprise Blizzard.

PITTSBURGH, Pa., April 14.—A snow and sleet storm brought out heavy coats and overshoes today.

PHILADELPHIA, April 14.—A mid-April snowstorm struck Philadelphia early today blanketing the city under two inches of snow. Street car and vehicular traffic was partly paralyzed by the storm.

At 8 o'clock large flakes were continuing to fall and the temperature dropped from 50 to 32 degrees in 12 hours.

STATE CLOSES ARGUMENT IN DEATH CASE

(By United Press Leased Wire) SAN DIEGO, Calif., April 14.—One of the most dramatic scenes in San Diego county courtroom history was enacted by District Attorney Chester C. Kempley, in closing his argument for conviction of Dr. Louis L. Jacobs on a charge of murdering Fritz Mann. The case goes to the jury Monday.

Summoning a brilliant burst of oratorical power, Kempley pointed to huge enlarged handwriting diagrams which the prosecution claims brand Jacobs as the man with the dancing girl when she was last alive and said: "Ladies and gentlemen of the jury, go out and do your duty. I don't tell you what your verdict shall be, but—"

Then turning and staring Jacobs straight in the face, the district attorney thundered: "I say to the defendant, Louis Jacobs, 'Jacobs, the handwriting is on the wall!'"

For a full minute the courtroom was silent under the spell. "Only once during the terrific condemnation did the handsome young defendant star; that was at the mention of the butterfly girl as 'the little baby daughter of Mrs. Mann, who is gone from this world forever.'"

The defendant clasped his hands around his knee and swallowed. But that was the only movement. He met the glitter of Kempley's eye with an eye equally as bold.

\$26,000

'LAKE FARM' VERDICT

SOLONS PLAN LAND TRADE ROAD TOUR IN NORTH

Great Pile of Bills Keeps Assembly In Session Over Week-End

(By United Press Leased Wire) SACRAMENTO, April 14.—The state assembly was today scheduled to convene for its second Saturday session, members of the lower house agreeing late yesterday that the press of measures before it demands extraordinary and immediate attention. The senate adjourned yesterday until Monday morning.

A bare majority will greet Speaker Merriam when the gavel falls, it was estimated last night. Despite the fact that no one was excused, several lower house members slipped out of the city yesterday, anxious to be away for the week-end.

Because of the anticipated small attendance, there was little likelihood of any important measures being discussed today. There are scores of minor bills on the bill, however, and it is in hopes of clearing up many of these that the conscientious solons will gather.

Tomorrow members of both houses will tour the northern end of the Mother Lode state highway project. The party will travel in machines and arrive at Coloma in time for luncheon at the foot of the famous Marshall monument.

A measure is now before the legislature, authorizing the paving of the road over which the solons will travel tomorrow.

Yesterday afternoon the legislators enjoyed a short jaunt to Davis and the farm school of the state university. Members of the faculty guided the guests over the property, stopping at the new dairy plant for a dairy lunch of farm products.

Sidelights On What Is Occupying Minds And Time of Solons

A measure by Senator Inman is now before the upper house making it a felony to offer money to a possible candidate to influence him to seek office. The bill also provides a similar penalty for the candidate's acceptance of such a subsidy.

"Iron bars do not make a prison" in the opinion of Assemblymen Badaracco, San Francisco, and Pedrotti, Los Angeles. A call of the house over some minor measure late yesterday resulted in the doors being locked just when these two solons grew restive and wished to leave. Quietly they slipped out through a window and made a more or less perilous journey along a narrow cornice, 50 feet in the air. Around the state house corner, unseen by their fellow lawmakers, Badaracco and Pedrotti slipped through an office window and down the stairs to freedom.

The assembly yesterday afternoon, following a short debate, passed the Hurley bill forcing physicians and other healers to have on their signs, stationery and advertisements the names of the colleges from which they graduated.

ALLEGED ABDUCTOR OF GIRL, 13, HELD

Charged with abducting a 13-year-old Anaheim girl, Lasario Chavez was held in the county jail here today, pending arraignment before Justice J. B. Cox.

He was arrested at Los Angeles yesterday by Probation Officer R. R. Miller.

WOMAN KILLED. BAUDETTE, Minn., April 5.—An explosion which killed Mrs. N. J. Stephan, injured her husband and destroyed their farm home may have been caused by a bomb concealed in a stick of firewood, the sheriff of Lake Woods county declared today.

Management a Necessity

If it is a sound theory and a successful practice to have a big business managed (?) by a board of directors, without an executive head (as the city of Santa Ana is now managed (?)) why is it that the Edison Co., the Southern Counties Gas Co., the Excelsior Creamery Co., the Fruit Exchange, the Walnut Growers' Association, all the banks—in fact ALL successful big businesses—why is it that they ALL employ managers at big salaries?

Mussolini Cabinet Is Facing Crisis As Populist Party Balks

ROME, April 14.—A sensation was caused in political circles today for the practical repudiation of Premier Mussolini by the populist convention. Resolutions substantially anti-fascist were adopted by the convention and Mussolini has taken such cognizance of the act that he has called a meeting of all popular members of the cabinet for next Tuesday at the quinal palace. It is feared a cabinet crisis is imminent.

FIVE SHOT IN STRUGGLE FOR HUGE PAYROLL

Bandits Fail in Daring Attempt to Rob Guards of \$12,000; Two of Gang Wounded.

DETROIT, Mich., April 14.—Five men were seriously wounded in a gun fight between employees of the Charles B. Bohn Foundry company and bandits who failed in an attempt to rob the company payroll car containing \$12,000 here today. William Bohn, employment manager, was shot through the neck and seriously injured. The other men wounded are William Weakley, assistant employment manager; Henry Sevarg, and two unidentified bandits. Bohn was driving the payroll car and when shot through the neck lost control, and the car dashed upon the curb. The bandits then drove away.

NAB SUSPECTS IN DEATH OF PATROLMAN

(By United Press Leased Wire) LOS ANGELES, April 14.—Two Mexicans suspected of having participated last night in the shooting of Elmer Estes, Colton policeman, were arrested this morning. They gave their names as Barmon Mungui and Juan Feris. Sheriff Shay of San Bernardino county, who is here, has sent for officers from Colton in order to attempt identification.

COLTON, Calif., April 14.—Posses of officers and citizens are believed to be closing in on the slayer of Police Officer Elmer Estes, who was shot down last night by one of three Mexicans he arrested, following the report that pistol shots had been exchanged shortly before daylight in the river bottoms near here.

Jesus Garcia, arrested at daylight in the dragnet thrown out, confessed he was one of the men Estes arrested, but said that he was not the slayer. Garcia said he did not know the murderer's name. Estes arrested the men, who were acting suspiciously. When the jail was reached the men became unruly. The officer tried to shove the trio through the door when one of them whirled, drew a gun and fired. Witnesses of the shooting attempted to go to Estes' aid but were threatened with revolvers.

Sheriff Shea of San Bernardino hastily organized a man hunt and with a posse from Riverside helping a capture is expected shortly.

JURORS ACQUIT WOMAN IN L. A. MURDER CASE

(By United Press Leased Wire) LOS ANGELES, April 14.—Mrs. Lillian Bross, of San Pedro, accused of the murder of her husband George Bross, was acquitted by the jury shortly after noon, after two hours deliberation.

Mrs. Bross immediately collapsed and had to be carried from the court room. Mrs. Bross shot her husband on the Long Beach highway. They had been motoring and had quarreled. Mrs. Bross alleged her husband had started to beat and choke her, and threatened to kill her.

AGED WOMAN DIES.

OLATHE, Kans., April 5.—Mrs. Elizabeth Hawkins, pioneer Johnson county woman, died at the home of her daughter, Mrs. Fred Ruttelius. She was 90 years old. Mrs. Hawkins was the first white child born in Davis county, Missouri, and came here from Gallatin at the close of the Civil war.

DENY PLEA TO LEAVE DISTRICT

France, Belgium Plan to Apply Screws Over Invaded Territory

IGNORE BRITISH IN LATEST PROPOSALS

New Plan Provides Germany Must Pay Entire Occupation Cost

(By United Press Leased Wire) NPARIS, April 14.—Great Britain with its objections to the Ruhr occupation is to be left outside the entente a little while longer while France and Belgium apply the screws and bring the venture to a successful and profitable conclusion.

This, according to reports in well informed circles, is the decision reached by Premiers Theunis and Poincare.

The Franco-Belgian conference terminated shortly after noon today. France and Belgium officially re-affirmed they will not evacuate the Ruhr except in such ratio as Germany fulfills the obligations of the Versailles treaty.

The prime ministers of France and Belgium have agreed the time is not ripe for healing the rupture in the entente. Owing to England's attitude, the Ruhr venture must be productive.

The population of the newly occupied district will feel the allied hand more heavily upon it from now on, it has been officially announced.

Pertinax, writing in the Echo de Paris, repeats official sentiment when he says:

"The hour is not yet at hand for a Franco-Belgian-British rapprochement for London is not sufficiently converted."

The final session of the conference between Theunis and Poincare began at 10 o'clock today, continuing and completing discussion of new measures of repression to be enforced in this occupied area.

The conference decided that Germany shall pay indirectly the cost of the occupation in the following manner:

Receipts from the sale of any surplus coal and metals not taken by France and Belgium shall be used to defray costs of exploitation and the occupation.

The remainder shall be credited to reparations.

BALL GAME OPENS EDISON HIGH-JINKS

High voltage baseball was in progress at the Santa Ana polytechnic high school grounds this afternoon, where the Vernon and Whittier clubs of the Southern California Edison company were contending for honors as the first feature of the celebration here today of completion of the new \$300,000 garage and warehouse at Santiago street and Washington avenue.

Dinner was to be served at the new building this evening to representatives of all Southern California Edison clubs who journeyed here to join in the celebration, according to W. L. Deimling, district manager of the company.

Following the dinner there was to be an entertaining vaudeville numbers, and a general dance.

"30" BULLETIN

DES MOINES, April 14.—After many attempts at amendment and substitution had been made, resolutions endorsing America's entrance into a world court was first voted down, and then reconsidered and passed by the National League of Women Voters convention here today.

A PROBLEM—Of course there is only one thing to do with the live-to-four decision of the Supreme Court declaring the minimum wage laws unconstitutional. That is to adopt an amendment making them constitutional. We did this with the income tax, and we are preparing to do it with child labor. Now we must add the minimum wage. It is a form of "recall of decisions," perhaps, but there is nothing new about it, and it is expressly provided for in the Constitution.

The immediate remedy, then, is obvious enough. But the frequency with which it has to be applied is significant. For a long time the theory was that the American Constitution was flexible enough to keep pace, by judicial interpretation, with changing conditions. Though an eighteenth century document, it did manage, by this process, to get through the enormous social and industrial transformation of the nineteenth century. But now we have a situation in which either the Constitution is no longer stretchable to twentieth century conditions, or else we have a court which, by five to four, will not do it.

Either way, the consequence is the same. Evolution cannot stop, even if an ancient document has reached the limit of its elasticity. So, when the Supreme Court says a thing cannot constitutionally be done, we appeal from the Court to the people and enact that it shall be constitutional.

The trouble is that if we have to do this often, the old constitutional structure disappears. This has already happened in California. It will soon happen in the nation, if we begin amending the Constitution at every session of Congress and of the legislatures. With income tax, child labor, minimum wage, non-taxable securities and similar amendments, and with a superabundance already proposed relaxing the process of amendment itself, that time is nearly upon us.

We are in a way to get a hodge-podge Constitution, like California. Then the only remedy will be a Constitutional convention and an entirely new Constitution. And is there any likelihood that, even in this rich, twentieth century, we should select statesmen as adequate to the task as those who, in 1787, accomplished either the wisest or the most fortunate stroke of constructive government in the history of mankind?

LAW OF THE TURK—The Turks have passed a law to bastinado any one found violating their new prohibition regulations. We have not exactly enacted it into law, but apparently we sometimes carry it out in practice. Which is exceedingly reprehensible—exactly as reprehensible as "beating up" drunks, bums, I. W. W. agitators, or any other sort of unpopular citizens. The law should be enforced—all the laws. The law should not be enforced brutally or illegally—none of the laws. The important thing is to get it clear that this is neither more nor less true or important of one law than of another.

OFF FOR MEXICO—The writer of these "Comments" is just leaving for Mexico. After his return, he is planning a trip to the Orient and around the world, which will occupy the better part of the year. Naturally, it will be impossible to continue this column under these conditions, and the series, which has been running for a year, is therefore suspended with this installment.

The illusion of greatness, as to what it has been possible to accomplish during the year. Written necessarily as an incident of an extremely busy life, these paragraphs have not aspired to literary art. The hope was expressed at the beginning that they might be "about something" and could say what the writer thought.

It has been a great pleasure and a privilege to keep in daily touch with a wide circle of readers in many communities, and if among them are some who have found these desultory comments interesting or profitable, they have accomplished their purpose. If some day opportunity should present itself to renew acquaintances, the writer's best hope will be to find himself still alive among friends.

85 LOCAL FOLK TO ATTEND BIBLE MEET

Representatives of men's bible classes from all sections of Southern California will be in attendance at the second quarterly convention and banquet of the Southern California Federation of Men's Bible classes to be held at Highland Park next Thursday night, it was learned here today.

According to W. B. Martin, prominent church worker of this city, eighty-five boosters from Santa Ana and Orange will make the trip to Highland Park in special cars furnished by the Pacific Electric. Anaheim and El Modena will also send delegations.

The special train, leaving Fourth and Main streets, Santa Ana, at 4:30 p. m., Thursday, will return at 1 p. m. Only 600 seats are available at the banquet hall and all these have been reserved, Martin said.

# WAR OVER PROPOSED CITY CHARTER GROWS

## CHARTER GIVEN ANOTHER SHOT BY HEAD

Citing the opinion of Charles Hughes, former city manager of Oakland and former city manager of Long Beach, Attorney Horace C. Head of this city today fired another shot at the proposed city charter.

Head produced a five-page typewritten document entitled "Digest of Santa Ana Charter," which was prepared by Hughes, who is now an expert in the employ of the Southern California Edison company.

"Mr. Hughes," said Head, "was asked to review the charter, and to give his opinion concerning it." Head called particular attention to Hughes' statements grouped under the head of "conclusions."

"The charter as drawn is not a city managerial charter in any sense. The city manager, so called, is not really a city manager. The great majority of the departments of government usually placed under the city manager have been excluded from his control. He might be better called a director of public works for with the exception of the Fire Department which it seems has not been mentioned and would therefore no doubt be placed under his supervision, the other departments left would be strictly of public works nature."

"The departments of library, park and playgrounds, accounting, health, legal, social welfare and police have definitely been made independent of the manager. The only departments left to the manager are the street, engineering, water departments and fire department. Why a distinction is made between the police and fire departments is rather a mystery."

"It would appear from a reading of the charter that the mayor would have more real administrative authority than the manager. It might be well to call the mayor, manager, and the so called 'manager,' director of public works or just plain city engineer."

Hughes writes that the division of managerial duties would prove confusing and conflicting and in the end disastrous.

Burglar alarms which not only give loud warnings of the intruder, but also take a snapshot photograph of him, are being tested in Paris.

## COLD STORAGE PLANTS BUILT BY SANTA FE

Two immense ice and cold storage plants with a combined ice storage of 34,000 tons, 550-ton daily ice making capacity and costing the Santa Fe Railroad company \$1,300,000, are nearing completion at Bakersfield and Needles, Cal., and will be in service in time to handle the coming season's fruit and vegetable crops.

The plant at Bakersfield will be ready for service in a few weeks. It will have a capacity of 350 tons of ice per day and storage of 24,000 tons. The icing docks, facing double tracks, will be 2150 feet long and can accommodate two solid trains of refrigerator cars at one time. The Bakersfield improvements will cost half a million dollars.

The big plant at Needles is being rushed to completion, and it, too, will be in operation at the earliest possible moment. This plant will cost \$800,000 and will have a daily ice-making capacity of 200 tons and a storage capacity of 10,000 tons.

The Needles plant also will have a double ice dock, 2500 feet long, and can take care of two trains at one operation of fifty cars each. This eliminates the necessity for switching twelve to fifteen cars back and forth while the icing is carried on, and a train can get under headway again as quickly as the engines and crews are changed.

## Dorcas Society

Mrs. Ray T. Brown of East Pine street, was hostess Thursday to the members of the recently organized Dorcas society of the First Methodist Ladies' Aid Society.

The little organization within an organization, was planned primarily for the mothers of young children, that they might have a society to which their babies might also go and the recent meeting was marked by the presence of twelve tiny folk, who had just as happy a time as their twenty-seven elders.

The afternoon was spent in sewing for the Community hospital and ended with a merry social hour during which Mrs. Brown served refreshments. The society adjourned to meet in May with Mrs. Al. Hardin and Mrs. Bert C. Gridley, 823 North Garnsey street.

**TO AVERT FLOOD**  
NEW LONDON, Wis., April 14.—Annual floods in New London causing losses of thousands of dollars through inundation of part of the business district, will be averted hereafter through appropriation of \$75,000 by the New London council to construct a canal connecting the Embarras and Wolf river.

## ACTIVITIES OF BOTH SIDES GAIN AS ELECTION NEARING

Declaring that adoption of the proposed city charter would be one of the most progressive steps Santa Ana could take, Guy Gilbert, chairman of the drive committee for proponents of the charter, today announced that headquarters had been opened at his office, 413 North Main street, where persons desiring it may get information on the document.

His telephone number is 1935. "Our organization is 'ready to go,'" said Gilbert. "We will have at least forty machines available to voters who may desire transportation to the polls. In my opinion the percentage of registered voters casting ballots next Tuesday will be equal to that at the city election last Tuesday."

At the same time Horace Head, announced that the opposition headquarters is situated at the real estate office of Cole and Son, 301 North Sycamore. The telephone number is 1218.

Head was just as positive that voting of the charter would be a step backward as Gilbert was certain it would be a step forward.

"The proposed charter will offer no feature of city government that we cannot have under the state charter," Head said. "The state charter has not been found seriously wanting in any particular. It is not an untried instrument."

Dr. Elliott H. Rowland spoke at the West End Theater last night in behalf of the city charter, and was followed by Ben E. Tarver, speaking for the opposition.

Rowland urged voters to go to the polls, whether for or against the charter.

He pointed out that it is the creation of fifteen business men of Santa Ana, men who have lived here at least five years and men who are taxpayers and vitally interested in the progress of the city. "The freeholders studied the charters of a large number of other cities and then proceeded to frame a document that would best suit the needs of growing Santa Ana. It is more feasible to have laws directly concerning Santa Ana than to attempt to amend a state law and make it adaptable to our conditions and at the same time be applicable to other cities of the same size not bounding ahead at the rate this city is."

**Tells Strong Feature**  
Referring to the city manager, he pointed out that provision is made whereby four councilmen may employ a city manager and three discharge him. He stressed the point that in order to discharge a city manager, it is not necessary to prefer charges and hold a hearing. He declared that this is one of the strongest features in the

## Art Appreciation

With a new staff of officers elected at the recent meeting of the Art Appreciation section of the Eboli club, business of the section will be administered throughout the coming year by Mrs. A. L. Sortor, leader; Mrs. L. M. Smith, assistant leader and Mrs. W. Dean Johnston, secretary.

The meeting, held at the home of Mrs. Sortor on South Birch street, yielded many entertaining features despite the failure of the speaker, Mrs. M. L. Sears of Pasadena, to appear. The informal program presented Miss Evelyn Nunn in a talk on "Women of Japan;" Mrs. John Clarkson in readings from Kipling; Miss Jennie Lasby in a talk on her Alaskan trip, and Mrs. B. D. Peterson in delightful piano improvisations.

Horses can be given a firm foothold on slippery surfaces by means of carpeted slippers, which are already on sale in the United States. Such deformities as bow-legs and knock-knees are becoming much less frequent owing to the spread of knowledge of hygiene among parents.

the business affairs of the city. It is my opinion that to vote in the charter would materially advance the efficiency and economy of the city's government."

## Athena Club

Members of the Athena club of the high school are anticipating a pleasant affair Tuesday when Joy Palmer Leitch, interpretative dancer, will present one of her latest creations, of which McDowell's beautiful "Rigodon" forms the background.

Miss Leitch won the decided approval of the critical young people of the high school when she appeared in dance numbers at the big event of the school year, the famous "Style Show." Her second appearance therefore is awaited with even greater interest.

The fact that she creates her own dances, choosing her costumes carefully and basing the movements on unusually beautiful piano compositions, serves to add to the effect of the performance.

Associated with Miss Leitch in her studio in the Greenleaf building is Madame Manuela Budrow, whose remarkable voice is second only to her ability as a musical composer. Madame Budrow, recently arrived in Santa Ana where she plans to educate her two attractive young people, both already popular members of the high school set, will conduct a music studio on Wednesdays and Saturdays. The remaining days of the week, Miss Leitch maintains the rooms as a dance studio.

## PADDOCK EXPLAINS JOURNEY TO FRANCE

KANSAS CITY, Mo., April 14.—"I am not defying the national A. A. U. but I am going to run in the University of Paris games next month." Charlie Paddock, fastest human, declared here last night.

Paddock is on his way to New York from where he will sail for Europe immediately.

"I am representing the University of Southern California and my expenses are being defrayed by the University of Paris. I am competing in a collegiate event, therefore the national A. A. U. has no jurisdiction over me. Any action it takes to prevent my participation in the games will be completely ignored," Paddock declared.

**NO OPERATION FOR HER**  
She Took Lydia E. Pinkham's Vegetable Compound and Escaped the Operation Doctor Advised

Louisville, Ky.—"I wish to thank you for what your medicine has done for me. I was in bed for eight or nine days every month and had a great deal of pain. The doctor said my only relief was an operation. I read of Lydia E. Pinkham's medicine and tried the Vegetable Compound and the Sanative Wash, and they surely did wonders for me. I feel fine all the time now, also am picking up in weight. I will tell any one that your medicines are wonderful, and you may publish my letter if you wish."—Mrs. Ed. BORNHAGEN, 1180 Ash St., Louisville, Ky.

Backache, nervousness, painful periods, irregularity, tired and run-down feelings, are symptoms of female troubles. Lydia E. Pinkham's Vegetable Compound should be taken whenever there is reason to fear such troubles. It contains nothing that can injure, and tends to tone up and strengthen the organs concerned, so that they may work in a healthy, normal manner. Let it help you as it has thousands of others. It is now selling almost all over the world.

## KFAW

The Register Radio  
Broadcasting Station

Owned and Operated by The Radio Den, Grand Central Market

**PROGRAMS**

4 to 4:30 p. m. daily, except Sunday, (340 meters). Late news bulletins, sporting news, and musical numbers.

4 to 4:30 p. m. Mondays and Thursdays (340 meters). Late news, sports and Agriograms.

6:30 to 7:30 p. m. Mondays and Thursdays, concert programs.

All phonograph records played daily at The Register concert furnished by Carl G. Struck. The excellent piano and an Edison phonograph were also furnished by Mr. Struck.

**NEWS BRIEFS**

Though the old board of education cannot, according to advice of counsel, adjourn sine die until the new board is officially notified of its election by order of the board of trustees, members of the old board met here today to close their books, audit accounts, and clear away any accumulated business.

J. A. Cranston, city school superintendent, was absent due to the fact that he was attending the California Council of Education conference at Oakland.

John Knox, of Knox and Stout, has been appointed a member of the board of directors of the Lincoln Mortgage Company of California, it was announced today. He will represent Orange county on the board.

At the same time it was announced that he would be loan agent for the company in the south half of the county.

Robert Brown, formerly of the Studebaker agency here, is manager of stock sales for the Lincoln in Orange county, and recently returned to Santa Ana to remain.

Freeman H. Bloodgood was elected chairman of the Chautauqua executive committee at a meeting of the committee held today at the office of Guy Gilbert. The Chautauqua will be held here in May.

Maxwell Jayne, who has been assistant manager of the California Crater company here for the past three years, has gone to Westwood, Lassen county, Calif., where he has accepted a position in the executive department of the Redwood Lumber company, one of the largest producers of lumber on the coast.

Sycamore Grove park, Los Angeles, will be the scene of one of the big state societies' picnic reunions a week from today, it was learned here. The Texas State society invites all former residents of the Lone Star state to assemble there that day, and the Washington State society extends an equally cordial invitation to former residents of the Evergreen state.

Many Orange county veterans will be in attendance when the Southern California Veterans' association holds its thirty-sixth annual reunion at Santa Monica, June 12 to 23, according to W. J. Lieser, senior vice commander, here today. F. S. Candee is adjutant and T. O. Andrews, commander.

The barber shop at 317 East Fourth street has been sold by Thomas H. Watts to Nathan Fainbarg.

Wanna be a soldier? If so, call around at the post office here any Friday between 12 p. m. and 2 p. m., and look up Corporal H. M. Moran, of the army recruiting service. He will give you full information as to what steps you should take to enlist, where you may be stationed, and other particulars. He will be here every Friday.

Two Santa Anans, the Misses Alice Mulley and Clara Klatt, recently underwent minor operations at an Anaheim hospital, it was learned today. They have recovered sufficiently to return to their homes.

John B. Stephens, resident geologist at Fullerton for the Associated Oil company, will give a talk on the practical value of fossils in oil geology, illustrated with typical specimens of the oil bearing horizons, in the commerce building at the Fullerton union high school, Monday at 10 a. m., to which the public is invited.

W. I. Adison, Huntington Beach oil worker, today had on file in federal court, Los Angeles, a voluntary petition in bankruptcy, in which he gave his liabilities as \$2500, and his assets as \$2170.

**SANTEL, GENARO TO WRESTLE AT BEACH**

(Special to The Register)  
HUNTINGTON BEACH, April 14.—Frank Genaro, said to be the light heavyweight champion wrestler of Greece, will meet Ad Santel, claimant of the world's championship in that division, here Tuesday night, according to an announcement today by Promoter Peter Bunkos.

Santel has won five matches here and as long as he continues to win will be matched, according to Bunkos, who is something of a manman himself.

Walter Lewis, better known in local billiard circles as the "Gypsy Kid," will meet all comers in a thirty-day billiard tournament to be held at the Ayalon academy. Prizes to be awarded total \$500.

The grammar school track athletes are training for their first track meet Saturday, April 21, at the high school grounds. Coach DeLaube will be in charge.

## BROADCASTS REASONS WHY CHARTER SHOULD BE O. K.'D

Attorney S. B. Kaufman of this city Thursday night delivered the following address, advocating adoption of the proposed charter, to be voted on Tuesday, over KFAW, The Register's broadcasting station:

I do not care to trouble you with a long discourse on the subject of either laws or government, but the various Civic Club organizations of Santa Ana feel it their duty to advise the people in a way concerning the city charter election which takes place in Santa Ana next Tuesday, April 17, at which time you as voters will be called upon to determine whether the city shall remain a city of the fifth class as provided in the general law, or it shall operate under a charter prepared by men who have lived here for the last five years or more and who are property owners and taxpayers.

We believe it is as wrong for a person to go to the polls and vote either for or against a measure if he is not familiar with the particular terms and the facts connected with the law upon which he is called to determine, as it is for a person not to vote at all, because if we are not informed upon the particular subject upon which we are attempting to cast our ballot we may pass an act which would be injurious to our well being as citizens, or we may keep from passing an act which we afterwards may wish had carried.

So that my purpose is to describe in a general way the city charter as proposed by the fifteen freeholders who were nominated and elected by the citizens of Santa Ana. Also why the Civic Clubs of Santa Ana believe that you as citizens should vote yes, and why they believe the charter should carry.

Santa Ana is a city of the fifth class operating under a law which was enacted in 1893, which has had very few amendments. An amendment provides that a city shall be classified according to the population of the 1910 census.

Those cities between 8000 and 20,000 shall be cities of the fifth class, and later federal census shall not be taken into consideration. The only way a re-classification of a city may be had is by at least one-fifth of the qualified voters of a town petition the city council for a re-classification, and that thereupon an election shall be held for the re-organization, incorporation, and government of the particular city in question, and that if at that time a majority of the votes shall be in favor of re-organization it may be re-classified. I merely call your attention to this fact because those opposing the charter do not deny the fact that we need a new law under which to operate.

We all agree, I believe, that Santa Ana has outgrown this old law and that there are many, many questions confronting us today which this old law does not cover, and that it is inadequate in many respects. We all agree upon that question, but those who are opposing the charter state that they think it better to re-organize, re-classify and re-incorporate because that is what must be done in order to obtain a re-classification.

Now in the first place the procedure we are going through in this election is far more simple than would be necessary in re-classifying and re-incorporating our city. In this form of charter we have a home product not made in Sacramento nor anywhere else, but rather the fruit of labor of our own citizens. The experiences which have been obtained by not only the various cities throughout the state of California operating under the general law, but also the experience of other cities who at the present time, and for some time in the past have had their own charter are incorporated in this charter.

Now this city charter you are called upon to pass provides that the people shall elect on a non-partisan, non-sectarian ticket a city council, which council hires, supervises and controls and can discharge a city manager, which city manager hires and supervises and can remove all department heads, as the water, sewer, fire, police, street, health, parks, engineering, etc.

In addition to this council the people elect a mayor, the clerk, a police judge, a treasurer, and the board of education by direct vote.

A great deal of criticism has been expressed by many claiming that they could not take to task the various department heads of the government, or the city manager, in the event they proved to be unsatisfactory. This sounds very logical at first thought. Yet, when we begin to analyze this statement, we find it faulty in many respects.

In the event a city manager proves to be unsatisfactory he has a body of men to whom he is directly responsible and which body makes it its business to determine whether he is conducting the business of the city of Santa Ana as it should be conducted. Because he is directly responsible to the city council for any acts which he does, the manager would necessarily be compelled to constantly call into conference the city council so that he might confer and determine his same way all matters of vital importance.

Now under this new form as proposed by this charter a city manager is directly responsible to the city council for all of the employees that he either hires or discharges. In the event the city council determines that the city manager is exceeding his authority in any way, or that he is proving unsatisfactory, or that any employee he has selected is not performing his duty, the city council can advise him what is necessary, and in the event he does not comply with its wishes it may discharge him at a moment's notice.

This idea of a representative form of government, electing people who in turn appoint others, is not new in this country because our federal government is conducted along the same line. This

method has proved to be highly satisfactory in more ways than one because the president appoints that he is responsible for his acts and greater care is taken by him in selecting an individual than would be possible if the people themselves as a whole attempted to select a person for that particular position, and also it is much more expeditious and efficient.

A great deal has been said about taxes and about the difference in the taxation as set forth under the charter and the present rate of taxation. For information along that line I desire to call your attention to the fact that the present rate of taxation is \$1.18 per \$100 of assessed valuation, and that the proposed rate under the city charter will be \$1.25. Now, the difference in this seven cents per \$100 comes here. Under the charter plan we are allowed 5 cents for parks and playgrounds; under the present form nothing. For music and entertainment under the present form one cent; under the charter form two cents. For advertising and publicity under the present form one cent; under the charter, two cents. For social welfare under the present form none, under the charter, one cent. For day nursery under the present form none, under the charter form we may use one cent.

Now if you believe that our federal form of government is a success, if you believe in having parks and playgrounds for ourselves and youngsters, if you believe in music and entertainment should be encouraged, if you believe that we should tell the world that Santa Ana is a good place to live in by advertising and publicity, if you believe in social welfare of our community and if you believe that we should have a day nursery which takes care of the kiddies whose mothers are unfortunate because they have to labor, and if you believe that this town should be a greater, bigger, and better Santa Ana, then vote YES.

## SOUTH AMERICA WINS FIGHT ON FEVER

NEW YORK, April 14.—Yellow fever will have been entirely eliminated in South America within a year, after a six-year fight against the plague, was the assertion made by Dr. Lewis W. Hackett, in charge of the work at Rio de Janeiro for the international health board of the Rockefeller foundation on Hackett's return to the United States with his family after six years spent in South America.

He has been organizing rural sanitary work for the Brazilian government, specializing in the hookworm and malarial diseases and incidentally organizing public health work for that government. He is about to go to Italy shortly to take up similar work there.

"The hookworm in Brazil is being attacked," he said, "by over 8,000,000 people, who have worked at the task five years. Eighty-five per cent of the rural agricultural workers are afflicted with hookworm, which, while not necessarily fatal, had lowered the efficiency of one-third of the population."

**ALL COMPANIES TO BE LISTED IN NEW 'PHONE DIRECTORY**

FULLERTON, April 14.—Every firm in Orange county will be listed free of charge in the Orange county telephone directory, the Pacific Telephone and Telegraph company to appear next August, according to announcement here today by E. A. Beard, district manager for the company. The listing will be free and in a few days the company will inquire of companies their present firm name and address will be suitable for inclusion in the directory, he said.

In announcing the change the district manager said that the company was desirous of getting out the most modern telephone directory possible and that the corporation considered the listing of all firms well worth while and a great convenience to the public.

**KIWANISANS READY FOR COURTESY WEEK**

FULLERTON, April 14.—Preparatory to the inauguration of "Courtesy Week" local Kiwanians foregathered today and went over the little forms that mark the "true gentlemen" with the idea in mind of being able to trot them out as everyday practices, it was said today by those who had witnessed the odd performance.

But covers books on etiquette and the like have been dragged from the garrets and perused in expectation of the tests "courtesy sharks" are expected to give at the noon meeting Tuesday.

Sunday the mayor and city council of Fullerton will go to Santa Monica where a new air service landing field is to be dedicated. Major General Mason W. Patrick, chief of the air service, will make the principal speech. City managers, mayors, councils and trustees of many Southern California cities have been invited to be present.

**WILL TOUR EUROPE.**  
BEATRICE, Neb., April 5.—State Commander J. Ed O. Fisher, of the American Legion, and S. F. Nichols, both of this city, sailed from New York City Wednesday morning for Liverpool, England. Before returning home they will tour France, Belgium, Switzerland, Italy and Germany.

## JAZZ THRILLS TO BE PROVIDED FOR RADIO FANS BY ORCHESTRA

KFAW, The Register's radio-phonograph, will Monday night offer the Belvedere Terrace orchestra in a lively program, which will include all the latest and best hits of jazzland.

Beside a liberal number of ensemble offerings saxophone and piano solos will be included in the evening's entertainment.

This orchestra has appeared at K F A W on other occasions and has always registered a substantial hit with listeners in, far and wide. The program will be given from 6:30 to 7:30 o'clock.

## POLY TENNIS TEAM WINS FROM ORANGE

The Santa Ana high school tennis squad today was heading the Orange league not standings following its 11-3 victory over the Orange high school racquet wielders here yesterday.

In what coaches termed as a snappy tournament, the Poly girls took all but the third girls' singles and the second girls' doubles matches. The Santa Ana boys won all of their matches without serious difficulty.

The scores: Girls' singles—Frances Cocroft (SA) defeated Miss Johnson, (O) 6-4, 6-3; Josephine Crookshank (SA) defeated Louise Hallman (O) 6-4 6-3; Frances Hallman (O) defeated Enid Twist (SA) 1-6, 6-3, 6-4; Thelma Patton (SA) defeated Addie Settle (O) 6-2, 6-3.

Girls' doubles—Cocroft and Crookshank (SA) defeated Johnson and Hallman, 6-4, 10-8; Hallman and Woodrough (O) defeated Freburg and Patton, 6-1, 6-0.

Boys' singles—Cress (SA) defeated Murphy (O) 6-0, 6-4, 7-5; Bell (SA) d. Smith, (O) 6-4, 4-6, 7-5; Romo (SA) d. Archibald, (O) 6-0, 6-4; Smith (SA) d. Price, (O) 6-4, 6-0.

Boys' doubles—Cress and Bell (SA) d. Murphy and Smith, (O) 6-2, 1-6, 8-6; Romo and Smith (SA) d. Archibald and Price, (O) 6-1, and 6-2.

Mixed doubles: Beisel and Freburg (SA) lost to Anderson and Woodrough, (O) 6-8, 1-6, 8-6.

## PERSONALS

Completing a pleasant little visit in this city with Miss Holly Lash, 220 Cypress street, Mrs. Orie Grist, a graduate of Oberlin College and wintering in Los Angeles, was this afternoon returning to Los Angeles to rejoin her husband, Dr. Orie Grist. Mrs. Grist, an accomplished musician who has spent much time in European study, and Miss Lash will attend a party at the Cummock school tonight.

After a most interesting trip to New Zealand, Mr. and Mrs. J. B. Winter have returned to their home here, satisfied that, regardless of New Zealand's charm, there is no place like Santa Ana.

After a pleasant week spent as the guests of their parents, Mr. and Mrs. L. A. Meacham, 720 South Main street, Mr. and Mrs. C. L. Meacham have departed for their Santa Barbara home.

The hosts of friends who have had such anxiety over the serious and prolonged illness of Lyle Roberts, were rejoicing today over the fact that he was showing a slight improvement aided by much more sleep daily than has heretofore been possible to obtain.

The Misses Estelle Nisson, Jeanette Osborn, Isabel Anderson and Mrs. Cory were to leave for Hollywood this afternoon to institute a chapter of Chi Omega, the first National sorority to be instituted in the University of California, southern branch. The ceremonies were to take place tonight at the Masonic temple, Hollywood.

**FIGHT RESULTS**

FALL RIVER, Mass.—Johnny Buff, former flyweight and bantamweight champion, lost a ten round decision to George Murray, New Bedford.

FREEPORT, L. I.—Johnny Curtin, Jersey City bantamweight, won a 12 round decision from Tommy Lynch, New York.

MILWAUKEE, — Pinkey Mitchell outpointed Harvey Thorpe, Kansas City challenger for the junior welterweight championship in ten rounds here last night.

ERIE—Jimmie O'Hagen won easily from Johnny Klesch, Cleveland, 12 rounds. Jimmy Kats, Cleveland, won from Young Keny, Pittsburgh, 8 rounds. Young Moxey won from Tony Bill, Cleveland, 6 rounds.

TAMPA, Fla.—Fearless Ferns, Atlanta lightweight, and Young Wallace, New Orleans, fought ten rounds to a draw here last night.

PALM BEACH—Mike Murphy, welterweight, Macon, Ga., knocked out Eddie Briney of St. Louis in the sixth round.

OMAHA—Billy Ryan, Cincinnati, was barred for six months and the share of the purse given to charity when he fouled Morris Schallier, Omaha, three times in the third round last night.

Forty unemployed ex-officers recently volunteered for work as bus conductors and drivers in London.

Cut This Out—It is Worth Money  
Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley's Kidney Pills for pains in sides and back; rheumatism, flatulence, indigestion and bladder ailments; and Foley's Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headaches, and sluggish bowels—Sold everywhere—Act.

## VOTE YES On the Charter

As business men, we favor the adoption of the city charter as a business proposition. It was carefully considered and drafted by conservative men, all long residents of Santa Ana and acquainted with its needs. We believe it will save taxes and add efficiency to our city government and it has our support.

Lloyd Stephens in charge. Morning sermon 11 o'clock will be by the pastor, subject, "Other Gods." Relligio Department 6:15 p. m. Mrs. Metta L. Anderson in charge, good program. Come. The evening sermon at 7:30 will be by the pastor, subject, "The Church and the Metallic Image." Dan S. Midweek prayer service Wednesday evening, 7:30. Woman's Department Thursday 2:00 p. m.

**International Bible Students Association**—402 W. Fourth near Birch street. "The Atonement," topic of Bible study at 9:45. Juvenile Bible study at the same hour. "The Divine Plan," topic of Bible study at 11 o'clock. Scott Anderson will deliver the evening lecture on the topic, "Satan's Empire Falling." Song service begins at 7:15. All are cordially invited.

**First Christian Church**—Corner Sixth and Broadway. F. T. Porter, minister. Bible school, 9:30 a. m. at the church. Men's Class Temple Theater, 9:45 a. m. Worship and sermon, 10:45 a. m. at the Big Church states. Birch De Valera, fugitive leader of the Irish irregulars apparently has escaped the dragnet, a reliable dispatch from Slonmel stated.

Thousands of troops, assisted by airplanes, are said to have combed the regions of the Waterford mountains since early Friday attempting to capture the former president. A torrential rain, however, hindered their work, and it is believed that De Valera has escaped in safety.

**The Theosophical Society, Santa Ana Lodge**, holds public meetings every Wednesday evening at 8 o'clock at 1174 East Fourth street. Next Wednesday evening Miss Annie G. Peake of Laguna Beach will talk on the subject "The Bhagavad Gita—A World Scripture." These lectures are

would consume all that was grown in the years of plenty. But Joseph's wisdom went beyond the interpretation of the dream. He ventured to advise Pharaoh; he told him how to protect his land from the famine by the conservation of the food in the years of plenty through the employment of men discreet and wise. "It is not strange that Pharaoh chose as the 'man discreet and wise,' suggested by Joseph, the man 'in whom the spirit of God is.'"

Thus God led Joseph into a great opportunity after He had prepared him to meet the responsibilities of such a position. In a multitude of cases the hand of God has been as clearly manifested.

If this is true in the writing of great pages of history, what reason have we to doubt that God's hand leads in writing pages less conspicuous?

Our text gives us the sequel, Joseph, in power over all Egypt, revealed himself to his brethren, seeking to buy food from Pharaoh because the famine was sore in Canaan also; and they, conscience stricken, felt that judgment was about to be rendered against them for their sins. But Joseph relieved their fears and calmed their agitation.

Man is free to choose his course; he must be free if he is to be held accountable for his doings. But God is Free to use the wicked as well as the good to execute His plans.

If man will sin, let him do so—it is his privilege. But he must not complain at the punishment that God fixes and he should not be surprised at the ways of escape which God provides.

God's Extended Hand We draw from this a lesson that is daily needed and wonderfully helpful. God keeps watch above His own; those who trust Him cannot fail.

The way may be dark and the perils great, but the God who sent Joseph on before "to preserve a remnant in the earth" and to save his brethren "by a great deliverance" is equal to any task.

He is bigger than the world that He has made and is all-powerful. Our lives are precious in His sight; His hand is extended—He will lead us if we will trust Him.

(Copyright, 1923, by the Republic Syndicate.)

**49ER FORMERLY OF SANTA ANA CALLED**

R. P. Mitchell, county superintendent of schools, and Mrs. Mitchell, were in Los Angeles today attending the funeral of J. C. Bedford, 90, father of Mrs. Mitchell, who died at his residence, 1132 Ezra street, Los Angeles, yesterday morning.

Mr. Bedford was a 49er, coming to California during the gold excitement. He was but 16 years old when he arrived here.

Prior to two years ago he had resided near here for eighteen years. Services were conducted at the Church of Latter Day Saints, Eleventh and Wall streets.

Bedford at one time rode pony express between Sacramento and San Francisco.

He is survived by his widow, Mrs. Laura L. Bedford, two sons, William A. and Ray C. Bedford, and four daughters, Mrs. W. R. Jasper, Mrs. O. V. Blackburn, Mrs. J. L. Williams, all of Los Angeles, and Mrs. Mitchell, of this city.

**AIDE TO DE VALERA TAKEN IN DRAGNET**

DUBLIN, April 14.—Austin Stack follower of De Valera was captured by Free State forces in the Tipperary Hills today, a dispatch from Glouster states.

De Valera, fugitive leader of the Irish irregulars apparently has escaped the dragnet, a reliable dispatch from Slonmel stated.

Thousands of troops, assisted by airplanes, are said to have combed the regions of the Waterford mountains since early Friday attempting to capture the former president.

A torrential rain, however, hindered their work, and it is believed that De Valera has escaped in safety.

Our text gives us the sequel, Joseph, in power over all Egypt, revealed himself to his brethren, seeking to buy food from Pharaoh because the famine was sore in Canaan also; and they, conscience stricken, felt that judgment was about to be rendered against them for their sins. But Joseph relieved their fears and calmed their agitation.

Man is free to choose his course; he must be free if he is to be held accountable for his doings. But God is Free to use the wicked as well as the good to execute His plans.

If man will sin, let him do so—it is his privilege. But he must not complain at the punishment that God fixes and he should not be surprised at the ways of escape which God provides.

God's Extended Hand We draw from this a lesson that is daily needed and wonderfully helpful. God keeps watch above His own; those who trust Him cannot fail.

The way may be dark and the perils great, but the God who sent Joseph on before "to preserve a remnant in the earth" and to save his brethren "by a great deliverance" is equal to any task.

He is bigger than the world that He has made and is all-powerful. Our lives are precious in His sight; His hand is extended—He will lead us if we will trust Him.

**The St. Peter Lutheran Church**

Sixth St. and Van Ness Ave. 9:30 A. M. Sunday school. Classes for All Ages 10:45 A. M. Worship and sermon.

7:30 P. M. By special request all the pictures and scenes of the life of Luther and the Reformation, which have been used in the illustrated lectures the last six weeks will be shown at one time. This will give a connected story of the whole reformation period. Pictures of Rome, Vatican, Pope, Wittenberg, Luther, Black Cloister, Castle Church, and 100 others will be shown. Come early and get a seat.

**DEMURRER FILED IN DUST NUISANCE CASE**

Answering the suit of the People of the State of California against Steele Finley, contractor, for an injunction to prevent him from causing dust and odors from a screen in a gravel pit at Fullerton to annoy residents of that section, Finley today filed general demurrer.

In his demurrer Finley, through Attorney L. A. West, stated that the complaint did not state sufficient cause of action, that it was ambiguous, and that it did not mention any particular area that was affected by the asserted nuisance.

**WOMAN SENTENCED TO JAIL AS RUM MAKER**

Pleading guilty to charges of manufacturing intoxicating liquor at her home at Newport Beach, Mrs. Margaret Cagood, known as Madame La Rue, was today sentenced by Superior Judge R. Y. Williams to serve five months in the county jail.

The original sentence was six months, but due to the fact that the defendant had been confined in jail for 30 days awaiting arraignment, a month was deducted.

**MEAT PLANT WORKERS GET BIG WAGE BOOST**

CHICAGO, April 14.—Improved business conditions in the packing industry was given today as the reason for the 10 per cent increase in wages of 200,000 workers to go into effect Monday.

Unlike advances during war-time peak, the wage increases, agreed upon by the management and representatives of company unions here, was not based on higher living costs, but on the proposition that the industry could better sustain the larger pay envelopes.

The advance agreed upon by the "big four" packing companies will affect 81,500 employees in Chicago.

# SATAN'S EMPIRE FALLING

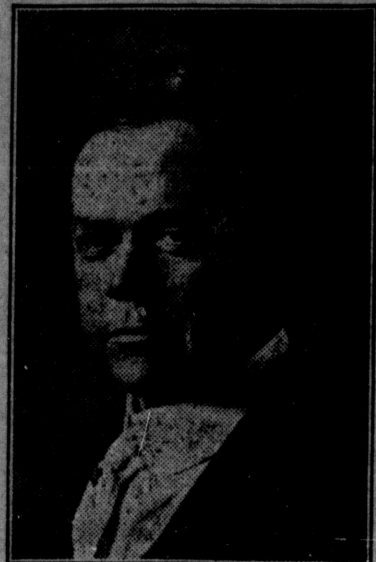

"millions now living will never die"—Judge Rutherford

SATAN'S wicked influence has long been felt in every part of the world. Together with his associate devils he incites people to hatred, strife, murder, and induces war and anarchy, wrecking homes and driving millions to insanity and suicide. Satan caused the fall of man, and established his

EMPIRE. His wicked influence has over-reached the denominational churches, causing many clergy-men to forsake God and unite with profiteers and politicians to control mankind. But the end is here and his empire is

FALLING; and Christ, the rightful King, though invisible, is beginning to reign. Hence the distress of nations, of which Jesus spoke. These troubles will soon reach a climax and disappear, followed by enduring peace and prosperity, as Jesus assumes control.

IF YOU are interested in Bible study and the fulfillment of prophecy, you should hear the lecture by

## Wm. Jennings Bryan's Weekly Bible Talk

By WILLIAM JENNINGS BRYAN

(Gen. 45:3-15)

The story of Joseph is one of the most fascinating ever written. Even from the standpoint of literary excellence it is unsurpassed and its value is infinitely increased because it is a matter of history and also because of the many moral lessons which it teaches.

Its truthfulness is so apparent that it carries conviction with it.

Jacob had two wives, Leah and Rachel, besides his slave wives. Leah was imposed upon him; after he had worked seven years for Rachel, his father-in-law insisted that he take Leah first because she was the older; so he worked seven years more to get the woman whom he loved.

## Boston Guest Honored By Bridge Luncheon At St. Ann's Inn

Mrs. Samuel W. Nau was hostess yesterday to a small group of her closer friends, when she presided over a luncheon, followed by an afternoon at bridge, honoring her aunt, Mrs. Adelaide Page Marston of Boston. Mrs. Marston has been a charming house guest at the Tustin home of Mrs. Nau for some weeks, and is leaving next week for her Eastern home.

St. Ann's Inn was the setting for yesterday's happy party, and the luncheon table was a lovely springtime picture in lilac and rose. Crystal baskets overflowing with their fragrant burden of lilacs and pink cochet roses from the lovely country garden of the hostess provided the color note, further emphasized in the nut cups, candles, bon-bons and airy bows of tulle of the blended shades.

Mrs. Nau herself, in a lovely crystal beaded gown of lavender chiffon, was a particularly charming part of the picture. After the luncheon, bridge claimed the attention of the guests for a pleasant hour and the joyous word that it is lilac time and rose time in California was still further emphasized when the gifts for lucky scores were awarded, for they were all in the chosen program.

To Mrs. W. L. Tubbs went honors for high score, to Mrs. Alice Harris for second, and the consolation went to Miss Katherine Edwards. A "lucky prize" went to Mrs. Carrie Burton Honnold of Long Beach.

Mrs. Nau was delightfully assisted in her duties as hostess by Mrs. Charles P. Boyer and Mrs. Adam Zeiser. Out of town guests bidden to meet Mrs. Page included Mrs. Honnold of Long Beach, Mrs. Ella Ballard Hanna and Misses Jean Humphreys and Orabel Chilton of Los Angeles.

## Ladies' Aid Society

Two sections, the South-East and the South-West, of the First Presbyterian Ladies' Aid society, held most interesting meetings yesterday afternoon, the former with Mrs. E. D. Caskey of East First street and the latter with Miss Edith Ward, 424 West Second street.

At the Caskey home, special guests were greeted in the persons of Mrs. William Everett Roberts and her house-guest, Mrs. Roberts, of San Francisco. Mrs. G. B. Darnell, president of the general aid society was also an honored guest together with her daughter, Miss Zeila Darnell and one of the latter's friends.

Needle-work in various forms including quilting, occupied the attention of the members, present, and at the tea hour, dainty refreshments were served on trays made attractive with French bouquets, by a hostess committee composed of Mesdames Randall, Fuller, Higgins and D. A. Bear.

Comfort tiling and miscellaneous sewing also served to while away the afternoon for the guests of Miss Ward, approximately thirty in number. The social hour following the busy sewing bee, was marked by the serving of a delectable tea menu by the hostess and her mother, Mrs. Lenore Ward.

Ere the guests departed, committees for future meetings were named by Miss Ward, leader of the section.

## Chapter A B—P. E. O.

Entertaining the members of the P. E. O. executive board of the Orange County Reciprocity club, Mrs. Theodore Kelly and Mrs. W. L. Grubb, of Chapter A B, P. E. O., were delightful hostesses at a luncheon yesterday at the home of the latter on Edgewood road.

Guests were seated at a table adorned with Spanish lilies massed in the center while smaller bouquets at each corner held tiny roses and blue forget-me-nots, in an unusually charming decorative effect.

Honor guests were two past state presidents, Mrs. A. Bennett of Orange and Mrs. Charles Wagner of Fullerton. Covers were placed for eighteen including the two hostesses.

The afternoon was devoted to business when plans for welfare work during the coming club year were outlined for the various chapters of the county.

Election of officers was an important event and resulted in the choice of Mrs. C. C. Smith, Anaheim, president. Mrs. Smith's official family will consist of Mrs. Mary Skillman, Fullerton, vice president; Theodore Kelly, Santa Ana, recording secretary; Mrs. Mae Jackson, Huntington Beach, treasurer.

## Social Activities

Demand careful grooming, particularly of the HAIR, for therein lies woman's greatest beauty. An additional hair piece will assure a charming and becoming coiffure at all times.

## Thirty-Six Years Of Wedded Happiness Fittingly Celebrated

Answering the door-bell with the expectation of greeting her neighbors, Mr. and Mrs. Harry Reed, Mrs. Martin H. Shields, 1416 North Main street, was taken completely by surprise Thursday evening to find her front porch filled with friends and relatives gathered to aid her and Mr. Martin in the celebration of their thirty-sixth wedding anniversary.

The pleasant affair had been secretly planned by one of the daughters of the home, Miss Lela Shields. In aiding her in carrying out her plans, Mrs. Reed had announced that she and Mr. Reed would be over that evening to discuss politics, thus making certain that the honorees would be home for their own party.

To make assurance double sure, a second daughter, Mrs. J. Robert Leonard, had sent word that she and her husband would be home that evening and in their honor, the house was decked with quantities of beautiful roses for the home-coming of a bride.

Thus in every way, the surprise was made possible and Mr. and Mrs. Shields were showered with loving wishes by their assembled children and friends, in honor of that April day in 1887 when in Mono county, they were made man and wife.

But one member of the family was absent, a granddaughter, Miss Marian Shields of Compton, whose plans for her own birthday party were too far along to be recalled. However Mr. and Mrs. Raymond C. Shields forsook their daughter's party in favor of their parents' and were present together with Mr. and Mrs. J. Robert Leonard, Los Angeles; Mr. and Mrs. Cecil Shields, Mr. and Mrs. Fred Sabar (formerly Miss Sylvia Shields) and their small sons Frederick Jr. and Eugene Martin of El Modena; Misses Lela and Gladys Shields, Ivory, Dallas and Martin Shields Jr., all of the home.

Other guests were Mr. and Mrs. Alex Brownridge and two daughters, Florence and Marian, Mr. and Mrs. Harry Reed, winter residents from Walla Walla, Washington; Mrs. Victor Montgomery, Miss Gertrude Montgomery, Miss Louise Montgomery, Mr. and Mrs. W. D. King, and Mr. and Mrs. Tarver Montgomery.

A little group of the guests presented the honorees with a dozen handsome crystal sherbet glasses while beautiful red carnations were added to the gift by Mrs. Tarver Montgomery. The presentation was made by Mrs. Victor Montgomery in a gracious little speech.

Refreshments of chicken sandwiches, coffee, home-made ice cream and cake, were prepared by the daughters of the happy couple. Service was accomplished by Miss Lela Shields and Mrs. Sabar with the competent aid of little Miss Florence Brownridge.

One of the pleasant events of the evening was the discovery that one of the daughters-in-law of the home, Mrs. Cecil Shields, and the new son-in-law, J. Robert Leonard, had been childhood playmates back in Pennsylvania.

## Household Economics

Like the interior of a charmingly appointed home, was the Townsend and Medberry salesroom yesterday for the reception of guests of Ebells fifth section, Household Economics, entertaining with a delightfully planned whist party.

Spread over the immaculate white tiled floor were myriads of blossoms from Santa Ana gardens, made the air sweet with their perfume. As a harmonious accompaniment to the gay conversation around the seventeen card tables, was a musical program of Edison records furnished with the Edison machine, by Carl G. Strook.

The handsome prize awards were all handwork, the first, a beautifully embroidered luncheon set, donated by Mrs. Otto Haan, was won by Mrs. F. M. Davis while a dainty buffet set given by Mrs. Archie Herr fell to the lot of Mrs. Masters. Low score held by Mrs. J. S. Warner, yielded her a set of clever card table markers painted by Mrs. Ray Townsend.

Following the gift bestowal, beautiful linens were substituted for card table covers and a menu of Neapolitan ice cream, home-made cake, coffee and mints served at the tables made gay with bud vases filled with woe Cecil Brunner buds.

So successful was the affair that the social committee (Mesdames Cood Adams, chairman, A. V. Herr, section leader; Otto Haan, Cora Davis, Jesse Goodman, C. V. Chamberlain and W. W. Cleveland) plans to repeat the card party again in May and perhaps in June.

The proceeds, like yesterday's, will all be added to the Ebells building fund. The section members, like their guests, were loud in their praises of the courtesies extended by Messrs. Townsend and Medberry who showed their interest in the club's efforts to build up by donating the use of the great salesroom.

## To Attend Dance

Many Santa Anans were planning to motor to the old Newport clubhouse tonight for the first of a series of "bunch dances" which Roy Dysart of this city, is planning to present each Saturday night.

## S. A. Women's Club

Mrs. C. T. Wells will entertain the Santa Ana Women's club Tuesday afternoon, April 17 at 2:30 at her home, 706 South Sycamore street.

## Merry Housewarming Brings Together a Friendly Group

Partaking of the nature of a house-warming was the delightful affair given Thursday evening by Mr. and Mrs. Thomas Tournant when they threw open their charming new home on North Bush street, to a group of congenial friends.

Renunculus and carnations were used as decorations in the pretty home, and against the floral background the guests were assembled at small tables to play 500.

Mrs. John Canfield, fortunate holder of high score, received a handsome floor pillow of cherry velvet and cloth-of-gold while Mr. John Canfield, won him a fine pocket-knife.

Miss Lela Vian holding low score was consoled by a daintily embellished pouf-pouffe while a box of handkerchiefs was bestowed upon Mr. John Robinson as consolation.

Late in the evening, cards were disregarded and card tables, spread with dainty linens and decked with posies, were utilized for serving refreshments of sandwiches, coffee, nut ice and wafers.

Mr. and Mrs. Tournant's guests were Mr. and Mrs. Frank Dane, Mr. and Mrs. Ralph Best, Mr. and Mrs. Ralph Best, Mr. and Mrs. John Canfield, Mr. and Mrs. N. E. Watson, Mr. and Mrs. Clyde Dear-dorff, Mr. and Mrs. Julian D. Matheson, Mr. and Mrs. Clyde Hinckley of Orange, Mr. and Mrs. Wesley Elliott, the Misses Grace Tournant, Gertrude Humphrey, Lela Vian, Gladys Thomas, Connie Woodside, Dortha Clem, Eleanor Gentry of Long Beach, Mrs. Waldo Tournant of Berkeley, Messrs John Rosemeyer, Frank Dean, John Robinson of Imperial, Clifford Hill, Harold Johnson of Long Beach, Earl McGeer, Stanley Tummond, Leigh Tournant and Harold Smith.

## Gay Event Celebrates Wedding Anniversary

Arrayed in wedding gown and veil worn at the ceremony on April 13, 1910, Mrs. Ora Jennings with Mr. Jennings last night greeted the guests gathering to celebrate with them their thirteenth wedding anniversary.

Evidently a thirteenth anniversary on Friday, the 13, was a most auspicious occasion for the evening was a complete and delightful success marked by music, songs, chat and a radio concert, enjoyed through the courtesy of Mr. J. H. Roling whose home adjoins that of the hosts.

Red roses and sweet peas in lavish profusion, made the home gay for the event, and ice cream was available throughout the evening. Refreshments served at 11 o'clock, centered around the beautifully decorated wedding cake, cut by the hostess with a pretty ceremony.

An unusual feature was the presence of four generations in the feminine line of descent beginning with Mrs. Louise Smith, great-grandmother; Mrs. Welch, grandmother; Mrs. Clarence Clark of San Bernardino, and her small daughter Henrietta. The four generations were further represented on the same line, branching off with Mr. Ray Jennings and his daughter Dorothy.

Friends gathering to celebrate the affair with Mr. and Mrs. Jennings were all at one time residents of St. Joseph, Mo., and included Messrs. and Mesdames Charles Freund, T. D. Laird and daughter Josephine, C. M. Clark and daughter Henrietta of San Bernardino; E. J. Hopkins, daughter Leva May and son Roger of Los Angeles; Mrs. C. F. Brill, Mr. and Mrs. Elmer Smith, Mr. and Mrs. E. C. Jennings and daughter Dorothy, Mr. and Mrs. J. H. Roling, Mr. and Mrs. J. T. Carter, Mr. and Mrs. J. Harper and son Neal, Miss Eva Spohn, Mrs. Joseph Foy, recently from E. Joseph and guest of the Jennings and Clark families; Miss Eva Swinney, Mr. and Mrs. Welch and Mrs. Louise Smith, visiting here from St. Joseph.

## Board Meeting

Mrs. Alvin E. Block, president of the Orange County Federation of Women's clubs, has announced a board meeting to be held Monday, April 16 at 2 p. m. at the home of Mrs. H. E. Wahlberg, 619 South Broadway.

Some pictures, are artistically and correctly framed. Others are just framed. There is a difference. Some folks try to put the same moulding on every picture. It can not be done. The truth is we take as much care with every picture brought up to be framed as we do in framing our own. We have hundreds of latest patterns of mouldings to select from. We pay particular attention to cleaning the glass, backing the pictures and wiring them. But best of all the frame is carefully made. Our prices are very low. Goff Gift & Art Shop, 317 W. 4th.

Perfecting the atmosphere of soft restfulness and dominating the entire main room of the Y. W. C. A. hut on the high school campus, is a magnificent landscape depicting Laguna canyon, which fills the space above the great fireplace and which was hung yesterday by an excited group including Mrs. Robert Northcross, Miss Jennie Lasby, Miss Isabel Anderson and members of the Y. W. organization.

The excitement was general for the picture was presented to the hut by its author, W. A. Griffith, prominent California painter of whom Santa Ana is boastfully proud. Mr. Griffith promised one of his canvases to the Y. W. C. A. when the hut plan was first broached. Yesterday the gift arrived and today it hangs in a place seemingly created for it.

Had Mr. Griffith been apprised of the complete color scheme of the room, or had the decorators of the room known the harmoniously beautiful tints of the picture, no better results could have been attained, for the entire canvas seems to melt into its surroundings, and the joy of the young women in their possession, is unbounded.

The picture will be one of the main objects of interest tomorrow afternoon at 4 o'clock when formal dedication of the hut will take place. Again at 8 o'clock Tuesday night, it will dominate the scene when a general reception will be held. Elaborate plans were being completed today for both affairs which mark such an important step in school life of the girls of Santa Ana high school and junior college, when at last they will have their own fitting quarters.

The public is cordially invited to both functions and at Monday night's affair, the receiving line will be composed of members of the hut building committee, Y. W. C. A. and Girls' League cabinets and school heads.

## First of Series Of Pleasant Events In Afternoon Bridge

Instituting a pleasant series of bridge teas, Mrs. Earl Morrow and Mrs. H. T. Duckett on Thursday afternoon entertained in a delightful manner at the Morrow home, 1424 Spurgeon street.

There, lilacs and all the winter-flowers of the springtime were used in forming a vernal background for the group of interested bridge players who were assembled at five card tables.

Mrs. Charles Mitchell scored high during the afternoon's playing and was awarded a pretty gift as was Miss Marjorie Ellis, holding second high score. Mrs. Jack Hayden received the consolation gift.

At the conclusion of the series of games, the tables were decked with dainty linens, centered with French bouquets and arranged with attractive nutcups in French coloring for the serving of a delectable salad course.

Mrs. Morrow and Mrs. Duckett will continue their social activities with similar functions to be given Wednesday and Thursday of next week.

## Creative Arts Club

Informally, Terry E. Stephenson speaking at the meeting of the Creative Arts club at the Stephenson home last evening, discussed various phases of the magazine story and magazine writing.

That magazine writing as a business is precarious was brought out by the speaker. He said that often a writer makes good with a magazine, then by a change in the editorship of the magazine loses his market. During the war, writers of western fiction were unable to sell their stories; the magazines wanted war stories.

The speaker read notes taken from letters written by Owen Wister in the early '90s to "Pony Bill" Davis, a cowboy newspaperman at that time. Davis and Wister had known Wyoming in the days before the fences. Wister at that time was writing his first western stories, and was corresponding with Davis, who was trying to write stories. The letters to Davis contained some pertinent advice on story writing. Davis died a county clerk in this county several years ago.

In these letters the two men exchanged regrets over the passing of the old West. Wister said that he found out the year, 1892, in Johnson county, Wyoming, must have been a combination of a Christian funeral and an Irish wake.

Many pleasant events are promised Creative Arts members in the near future. The next meeting will offer one of these, when, at the home of Mr. and Mrs. Edward M. Nealley, Ernest Crozier Phillips of the dramatic section will present a one-act play to which each member will be privileged to ask a guest.

The delightful Peterson cottage at Laguna Beach will also be the scene of one of the festivities within a few weeks, as Mrs. Peterson has planned to have the members down ere the departure of Clarence A. Gustlin for Europe.

A pleasant acquisition to the club was made last night in the election to membership of Madame Manuela Budrow, vocalist and composer.

## Y. W. C. A.

Perfecting the atmosphere of soft restfulness and dominating the entire main room of the Y. W. C. A. hut on the high school campus, is a magnificent landscape depicting Laguna canyon, which fills the space above the great fireplace and which was hung yesterday by an excited group including Mrs. Robert Northcross, Miss Jennie Lasby, Miss Isabel Anderson and members of the Y. W. organization.

The excitement was general for the picture was presented to the hut by its author, W. A. Griffith, prominent California painter of whom Santa Ana is boastfully proud. Mr. Griffith promised one of his canvases to the Y. W. C. A. when the hut plan was first broached. Yesterday the gift arrived and today it hangs in a place seemingly created for it.

Had Mr. Griffith been apprised of the complete color scheme of the room, or had the decorators of the room known the harmoniously beautiful tints of the picture, no better results could have been attained, for the entire canvas seems to melt into its surroundings, and the joy of the young women in their possession, is unbounded.

The picture will be one of the main objects of interest tomorrow afternoon at 4 o'clock when formal dedication of the hut will take place. Again at 8 o'clock Tuesday night, it will dominate the scene when a general reception will be held. Elaborate plans were being completed today for both affairs which mark such an important step in school life of the girls of Santa Ana high school and junior college, when at last they will have their own fitting quarters.

The public is cordially invited to both functions and at Monday night's affair, the receiving line will be composed of members of the hut building committee, Y. W. C. A. and Girls' League cabinets and school heads.

## W. C. T. U.

Fullerton Methodist church will be the scene of the annual Orange county W. C. T. U. convention, meeting Tuesday and Wednesday, April 17 and 18. Sessions will open at 9:45 a. m. Tuesday and many local members are planning an attendance.

## Wedding Announcement Of Los Angeles Man And Santa Ana Maid

The brief visit in this city of Mr. and Mrs. J. Robert Leonard of Los Angeles, offered their friends a first opportunity to extend congratulations and good wishes for their future happiness, since the quiet wedding in Los Angeles Saturday, April 7.

Mrs. Leonard, as Miss Hazel Shields, daughter of Mr. and Mrs. Martin H. Shields, 1416 North Main street, was long a popular member of "the courtesies crew" where she was in the county recorder's office. More recently she has been in Los Angeles with the Southern California Edison company.

Mr. Leonard, a prosperous young business man of the City of the Angels, had a pretty bungalow at Thirty-eighth and Vermont streets, all in residences for his bride and they are now ready to welcome their friends at that address.

Among the charming courtesies extended Mrs. Leonard prior to her marriage was a miscellaneous shower at James' gold room when Miss Justine Whitney, Miss Ruby Cameron and Miss Vera Trumble entertained with invitations for over a score of guests.

Five hundred was played and attractive prizes of an iridescent flower bowl on a standard and a quaint little tea-pot, were given Miss Dora Woods, holding high score and Miss Hattie Powers, consolation.

It was at the refreshment hour when salad, sandwiches, ices, cake and coffee were served at the small tables, that the guests presented their gifts to the bride-elect. Many beautiful articles were given, all of which will find place in the attractive new home.

## Young People Tell Of Quiet Wedding

Eliciting much interested comment and many wishes for future happiness was the announcement made today of the marriage of Miss Grace Martin, daughter of Mr. and Mrs. E. C. Martin, 1176 East Chestnut street, and Henry William Jones, son of Mr. and Mrs. J. C. Jones of Palmer, Texas.

The vows of the young couple were taken before the Rev. Mr. Chapman of the First Baptist church, Los Angeles, Monday, April 2 and they succeeded in keeping the affair a secret even from their closest friends and relatives.

Following the disclosure of the happy secret, Mr. and Mrs. Jones plan a little honeymoon trip to extend until after April 18 when they will be at home to their friends at the Palmer apartments, 121 South Birch street.

As Miss Grace Martin, the bride was a popular graduate of Santa Ana high school. Mr. Jones has been in this city approximately a year and is a son of an employe of the James Confectionery.

## Star Social Club

Mrs. L. A. Meacham and Mrs. Jack Willey will be hostesses to the members of the whist club recently organized by Santa Ana chapter, O. E. S. and will entertain Tuesday afternoon, April 17 from 2 to 4 at the parlors of the Masonic temple.

All members planning to attend are expected to aid in meeting the expenses of the pleasant little club and are asked a small cover charge for tables for the afternoon.

## Dress the Boy Now!

Roller skating, baseball, marbles—there's a hundred-and-one ways that a hustling boy is hard on his clothes in Spring.

These WOOLWEAR Suits are just the thing for school; they'll stand a lot of hard wear.

For the boy who springs his first "longs" this spring—suits specially styled for young, young men.

## THE SANTA ANA REGISTER'S Bible Distribution COUPON

Two distinct styles of this wonderful Book of Books have been adopted for this great newspaper Bible distribution. One is the far-famed Red Letter Bible (Christ's sayings printed in red for immediate identification), and the Plain Print Bible for those who can spare but a nominal sum.

### Only Three Coupons

Clip this coupon and two others and present or mail them to this paper with the sum set opposite either style, and come into possession of your Book of Books at once.

Style A—Red Letter Bible, overlapping limp black leather covers, red edges, round corners, gold lettering, large, clear print, three coupons and only \$1.98

Style B—Plain Print Bible, limp black seal grain textile leather cover, red edges, medium large type, strong and durable, three coupons and only 98c

## Mr. Suit Buyer!

You have probably noticed in our ads this week that we've been offering a man's extra value, gray worsted suit. It has been a big seller, but we still have the following sizes left:

Regulars 1-36; 1-37; 1-38; 3-39; 1-40; 1-42; 1-44.

Shorts 1-36, 1-37, 1-38, 1-40.

Stouts 1-40, 2-42, 1-46.

Come in tonight and try on your size.

W. A. Huff Co.

### ASSERTED MAD CAT SOUGHT BY POLICE

Police today were hunting a mad cat in the vicinity of 824 Townes street, following a report from Miss Platt, 625 North Parton street.

Several persons have been bitten by the cat, according to the report, which stated that the animal was undoubtedly suffering from rabies.

### LIQUOR SALE LAID TO 'POLISH MAKER'

Arrested last night when a squad of sheriff's deputies raided his home on West First street, outside the city limits, and seized a still, 100 gallons of mash, and a pint of liquor, Fred Caspersen, former fruit store proprietor, was today arraigned before Justice J. B. Cox on charges of selling liquor.

His examination was set for April 30 at 2 p. m. and he was subsequently released under \$250 surety.

Caspersen claimed that he was making "fruitful polish" and "vinegar" with the mash that was found, and announced his intention of pleading not guilty when he is arraigned in superior court.

Mrs. Caspersen collapsed as the officers prepared to take her husband to jail, and she was taken to the Orange county hospital, where she spent the night.

### PLANS ARRESTS TO BAR ROAD RUINATION

Because the superior courts are too busy, due to the illness of one judge, to attend to contempt proceedings which Deputy District Attorney C. N. Mozely plans to bring against oil companies who are said to have disobeyed injunctions prohibiting them from allowing oil and water to run on pavement near Huntington Beach, County Engineer J. L. McBride today began a campaign of criminal prosecution against the employees.

George Meyers and John Doe Riggle, arrested yesterday, and arraigned today before Justice J. B. Cox on charges of allowing water to seep into the highway, pleaded not guilty, and their trial was set for June 12 at 9 a. m.

Through their attorney, John A. Harvey, the men requested a jury trial.

A temporary injunction, forbidding the company from allowing the road to be flooded, was granted following a civil suit brought recently, but the affair has never been remedied, McBride and Mozely said.

Because of the fact that Superior Judge Williams is attending to court affairs in his own department and in department 1, he could not find time to attend to contempt of court proceedings immediately, he said, and the criminal actions were taken as emergency measures.

Motorcycle Officer H. S. Warner was stationed at the rigging at Huntington Beach today, with orders to arrest every man on the rigging who allowed the water and oil to escape from the dikes.

### RECORD DANCE GIRL'S DIET IS VEGETABLES

NEW YORK, April 12.9 p. m.—Dancing to a world's record, Miss Alma Cummings tonight ascribed her great success on the waxed floor to a vegetarian diet and 40 early training chasing cows on a Texas ranch. She revealed this as she reeled off the final ten minutes of her fifty-hour whirl, which made her the undisputed long distance dancer of the world.

It was just about time for her to swing into the home stretch when a nimble journalist plunged into the rhythm of the jazz and, floating up beside her informed Miss Cummings that she was about to be interviewed.

"To what do you credit your phenomenal endurance?" he asked. There was a tense moment during which a difficult curve in a corner of the dance floor was successfully negotiated and the orchestra—speeding up—switched from a "blues" to a "Carry Me Back" motif.

"Well, vegetables, for one thing," replied the champion. "I'm a vegetarian. Then, again, miles of chasing cows. I worked on a ranch in Texas, where the cows had plenty of room and I used to chase them miles every day."

"What are you going to do after you hang up the record?" "Dance some more. I'm challenging all persons who think they can beat the record to meet me here May 5."

The orchestra increased the time again and the interview drew to a close for lack of breath.

"How—do—you—feel—after—all—this—dancing?"

Miss Cummings did not answer immediately as she was saving her strength. Then, "I feel fine," she said. "I could dance much longer, but they won't let me."

"When I finish, I'll sleep twenty-four hours—until Tuesday evening."

Again the orchestra sprinted and its jazz was all filled with sharp, stabbing notes like shooting pains in the legs.

Miss Cummings, who is a pretty brunette of medium height, wore out seven partners, from the time she started dancing at 7:10 p. m. Saturday night, until 9:10 Monday night. She took out a total of six minutes, permitted by the rules.

Several bands and numerous phonographs took turns supplying the music.

The best previous record was thirty-six hours, also established here.

### TENNESSEE TRIO IN RUM CASE ARRAIGNED

The three Tennesseans, said to have been operating near Smelter, the largest still in Southern California, were held in the county jail here today in default of a total of \$2,000 bond each, following their arraignment before Justice J. B. Cox last yesterday on charges of manufacturing, intoxicating liquor.

The second arraignment followed a first in which they were charged with possession. At that time, Whitson Smith pleaded guilty and was sentenced to serve 180 days in the county jail or pay a fine of \$300. The other two pleaded not guilty and their trial was set for May 22.

Hearing on the manufacturing charges, which constitute high misdemeanors, was set for May 24, and bail was set at \$1,000.

## Why Do You Live in Santa Ana?

It seems a foolish question to ask "Why do you live in Santa Ana?" Answer to your own satisfaction, "Why did I come to Southern California," or "Why is life worth living" and you will have answered "Why do I live in Santa Ana."

You probably closed the deal with Santa Ana long ago and are well pleased with your bargain. But Santa Ana is growing—its a greater city than it was when you came here, even if that was only six months ago—AND THE NEXT FIVE YEARS ARE GOING TO BRING STILL GREATER DEVELOPMENT.

### Why do you live in Santa Ana?

Because there are so many nice, smooth, slick and greasy ruts in which a fellow can slide, "making enough money to do me," without any great effort?

That's the man we are after—the man who is "satisfied." He's the man who is going to wake up some sunny morning and find that folks from "back East" with Eastern pep and progressiveness have crowded him off to one side and cornered the opportunity market.

They're coming! Coming in great hordes, by the tens of thousands! Today, Dame Op-

portunity is stalking the streets of Santa Ana, flirting with you on every corner, shadowing your footsteps 24 hours a day, begging you to pause a moment and listen to the voice of the future!

"You're on the ground floor, now," she says, "identify yourself with Santa Ana, start in to CREATING wealth instead of taking what someone else has created, drive the wedge of your energy into Santa Ana with smacking blows that echo and re-echo, get the spirit of Santa Ana as she is today, not what she was six months or a year ago, WAKE UP, and look around you!"

## Buy in Santa Ana!

Buy a home, buy a lot, buy anything and everything you can in Santa Ana. Bestow your patronage one hundred per cent. upon Santa Ana merchants and force them to build larger buildings and increase their service to take care of you.

BUY IT IN SANTA ANA—if you never did anything more than that, you would become a power in the city. You would own a brick in one of the world's greatest community structures of a few years hence.

It's YOUR Santa Ana today—how much of it will be yours tomorrow?

Santa Ana Register

(AUTHORIZED PUBLICITY)

## Vote Against The Charter

1. Its adoption would add greatly to the overhead expense of city government.

2. It would abandon election of trustees from wards, so that all might reside in one part of the city.

3. It nullifies the recall and initiative.

4. It is not progressive, but is an untried, poorly constructed, mongrel document which would result in uncertainty, conflict and useless expense.

5. Do not experiment; our present charter gives ample power to do anything desirable that could be done under the proposed charter.

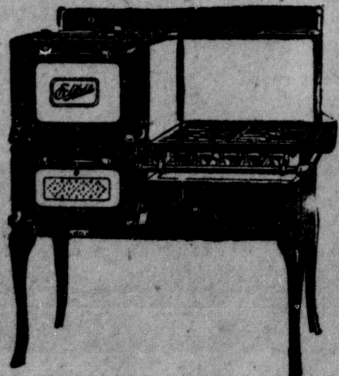

VOTE NO.

## BARGE CARGOES FROM NEWPORT EXPECTED

NEWPORT BEACH, April 14.—That barge shipments, as the initial movement toward more extensive shipping, will be made out of Newport harbor in the very near future, was the belief of a delegation of prominent citrus and other business men today on a tour of inspection of the bay and wharfage facilities.

S. E. Merchant, manager of the Fullerton Mutual Orange exchange; F. C. Fitzgibbon, traffic manager of the Mutual Orange Distributors of Redlands; Frank W. Moore, secretary and manager of the Elephant Orchards of Redlands; and J. E. Bliss of Anaheim, composed the party making the tour, together with Major Leeds and G. T. Peabody.

They investigated the possibilities of barge shipments from here to San Pedro, to be there loaded on steamers for northern ports. They stated that an average of twenty car loads per week are used by Seattle alone and not less than forty-eight cars per week for other points—such as Tacoma, Portland, Victoria and Vancouver, B. C. These are all reached by water at present and shipment from this port would greatly expedite loading.

**Suggest Local Company**  
It has been suggested that a local company be organized to provide dockage and barges large enough to carry at least five cars of fruit and so built as to be immune from water damage. The return trip could bring back fertilizers, which in turn could furnish the back haul for the trucks. The citrus delegation expressed their willingness to aid in securing government help.

## OPERATION FATAL TO GROVE YOUNG MAN

GARDEN GROVE, April 14.—George Hill, a well known boy here, passed away at the county hospital Wednesday evening, following an operation Tuesday afternoon where he was taken following an attack of ptomaine poisoning.

George Hill was well known in this community having made his home here for the past ten years. He was employed in the Garden Grove feed store until a few weeks ago when he accepted a position to work with an Anaheim firm. He was an exceptionally robust young man and his sudden and untimely death came as a shock to his many friends. He was twenty-five years of age. He is survived by four brothers and six sisters. The funeral services were held Thursday from the Episcopal church in Anaheim. Rev. Bode conducted the service and interment was made in the Anaheim cemetery.

**CAPISTRANO PARTY.**  
SAN JUAN CAPISTRANO, April 14.—Miss Gladys Landell entertained a number of her friends at a birthday party Thursday evening. A jolly evening was spent in playing games and dancing, after which there were served refreshments of ice cream and cake. The honoree was the recipient of many gifts. Those who enjoyed the evening were: Misses Marie Errecarte, Lina and Lella Rosenbaum, Viola Spencer, Marjorie James, Marjorie Callis, Ruth Williams, Florence Cook, Frances Peterson, Marie Kirker, Norma Chamberlin and Jessie Emma Files, and Messrs. Hugo Forster, David Ross, Edward McHenry, Elwood Kirkpatrick, Steven Errecarte and Johnnie Landell.

**DRESS BILL FLAYED.**  
LONDON, April 3.—In one of the most remarkable decisions in British legal history, Judge McCarty, England's "bachelor judge," gave judgment for Capt. J. H. Nash in a suit brought against him for his wife's dress bills, totaling \$3200, by Callot Soeurs, costumers.

## NEWPORT TRUSTEES CALL ELECTION ON ISLAND BOND ISSUE

NEWPORT BEACH, April 14.—An election was called today by the city board of trustees to be held May 10 for the purpose of voting on 203,000 bonds for the improvement of Balboa Island. With this in mind the board established a new improvement district to be known as improvement District No. 3.

The bonds entail three propositions, as follows: For the construction of a sewage and disposal plant to cost \$145,000; for the construction of an ornamental street lighting system to cost \$23,000, and to build a bridge from the north end of the island to the main land, \$15,000, in addition to constructing a water pipe line for \$13,000. With the finish of this work an era of building will be started on the island, which is regarded as one of the finest residential sections on the coast.

## LAGUNA REALTORS CHANGE OFFICES

LAGUNA BEACH, April 14.—William B. Atwood returned to Riverside Thursday, after spending several days with P. E. Kingman at his Riverside Drive cottage. Mr. Atwood leaves Sunday for his home in Brockton, Mass.

Mrs. Yagle, accompanied by Mrs. Hattie Vanderlip and Miss Lillian Craig, spent Wednesday in Laguna.

Thursday Mrs. Cranston, whose husband is Orange county's superintendent of schools, with her daughter and a party of friends, lunched at the Tea and Tiffin.

Another Santa Ana party was made up of Mrs. W. L. H. Benton, Miss Rosa Boyde and Mrs. Cole. Mr. Keller, manager for Smart and Final, was in Laguna Thursday.

J. B. Handy had a party for a number of his friends Wednesday evening at his cottage, "Echo Lodge."

Among the guests were two musicians who played the violin and guitar and very pleasantly entertained not only the assembled company, but the neighbors as well.

Mr. Handy once more proved himself a past master at the art of cooking, acting himself in the capacity of chef and dispensing viands with a lavish hand.

Messrs. Petties and Marshall have opened their new real estate office in what was once the "Green Dragon" and more recently the Tanberg Galleries.

Van B. Altman is painting the house which the Sisters of St. Joseph have erected next to Conway Griffith's studio.

Mr. Altman has been commissioned to paint both the exterior and interior of the building.

Mrs. Caroline G. Perry, Miss Anna C. Murry of Pasadena, and Mrs. F. B. Martin from Denver, and Miss Malone, who has recently come over from the Hawaiian islands, where she taught many years in the schools, spent Thursday in Laguna.

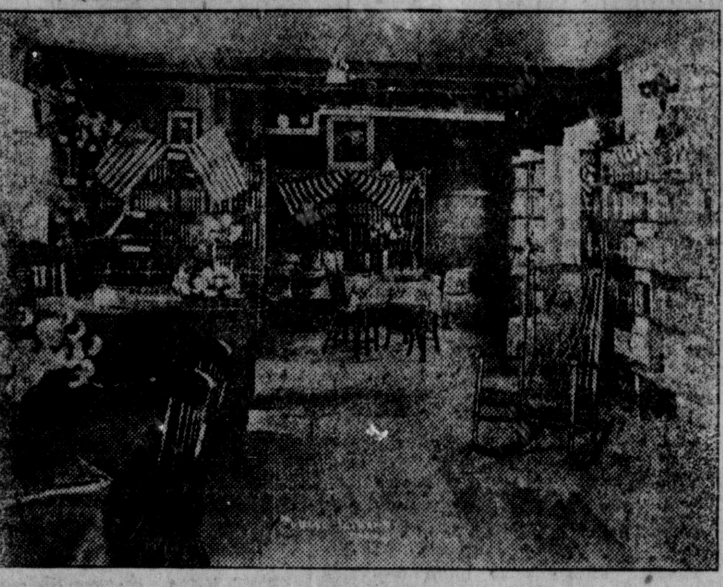

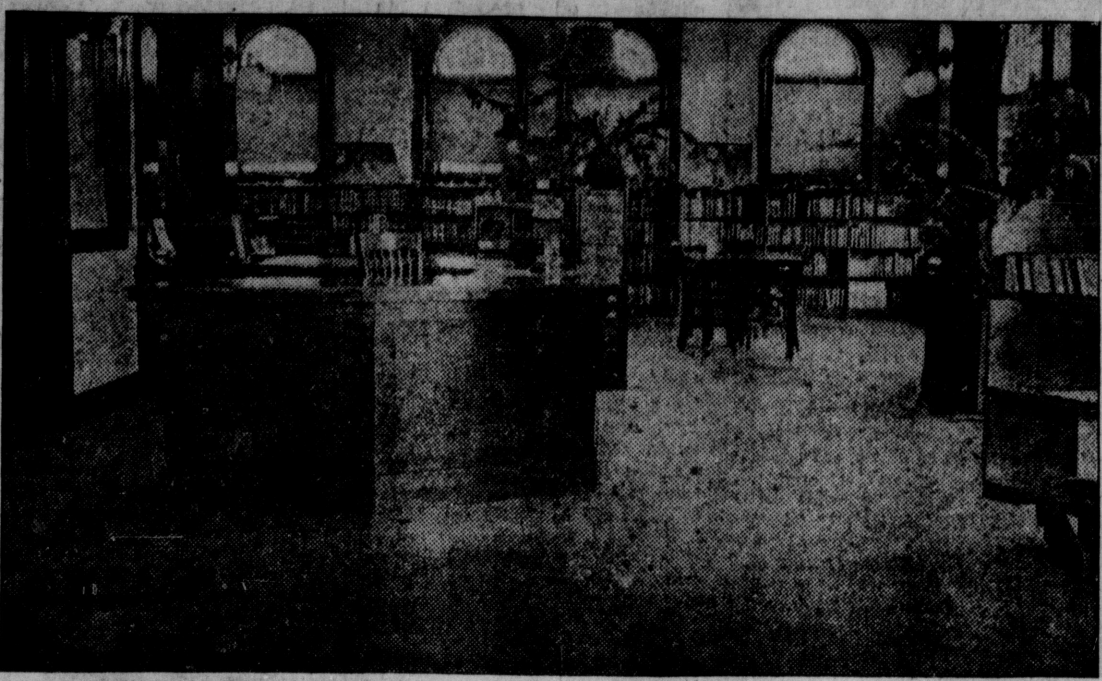

Miss Mary Watrous is returning to her Laguna cottage next week, after an absence of nearly two years.

She has been visiting her sister in Cedar Rapids, Iowa, the greater part of the time.

**WOMEN DISCUSS INDIA.**  
SAN JUAN CAPISTRANO, April 14.—The regular meeting of the Missionary society of the Community Presbyterian church was held Wednesday afternoon. Devotions were led by Mrs. F. K. Stroschein.

After a short business meeting reports were given on India. India's Self Government system was reported by Mrs. Shannon. Mrs. L. Madden had for her topic, India's Heritage. Interesting reports of the meeting of the Federated Missionary societies in Santa Ana were given by Mrs. Guy Williams and Mrs. Robert Scott.

## GROWTH OF LIBRARY AT BEACH IS ILLUSTRATED BY PICTURES

In a recent article printed in The Register the phenomenal growth of the Carnegie library at Huntington Beach was described together with a tribute to the librarian, Miss Bertha Proctor, who left a teaching position with an Indian school to take charge of the beach library.

Today the library, housed in a building donated by Andrew Carnegie, has become one of the civic centers of the fast growing oil city.

Miss Proctor has enhanced the lure of good books by the skillful use of flowers and seasonal decorations in the building. The conventional signs, such as "The latest in Fiction," have been relegated to a place of lesser importance as compared to the bright note lent by the flowers.

At the top is a view of the interior of the present library. To the left is the only picture of the cramped quarters of the old library interior.

## Y. M. C. A. REPORT AT ORANGE FILED

ORANGE, April 14.—Showing the remarkable growth of the Orange Y. M. C. A. C. E. Morrow, secretary, has presented his detailed report for the month just closed to the board of directors.

In brief the report shows that forty-six club meetings were staged during the month of March with an attendance of 400; that the newly organized "Prep" class met eight times for organized play, with an attendance of 101; that the men's gym classes held nine sessions with 87 participating, and that 36 basketball games have been played in the Y league.

The report won the instant commendation of the various directors, fifteen in all, one of whom, Principal F. A. Henderson of the high school, paid high tribute to the "wonders" being worked through the Y. M. C. A. upon the flowering citizenry of this city and district.

According to Principal Henderson the work is accomplishing great results among the youths of this district who are taking keen interest in the Y program.

"Such a report," declared Secretary Morrow in submitting it to the board, "says nothing about the discouragements and disappointments that so frequently arise. So many of our friends feel that having paid their subscription toward maintenance of the work their responsibility ends. They apparently do not realize how much a bit of encouragement helps."

## McGROARTY SPEAKS TO EBELL MEMBERS AT NEWPORT BEACH

NEWPORT BEACH, April 14.—John Steven McGroarty, author of the historical Mission play, will come to Newport Beach next Thursday, April 19, to deliver an address before the Ebells club in the ballroom of the Yacht club.

Mr. McGroarty, who is making his home in the San Gabriel valley, where the Mission play is being produced this year, was glad of the opportunity to visit Newport harbor, as his fondness for salt water has been undiminished since boyhood. He will talk on old California history, a topic with which he is quite familiar and which should draw a large crowd.

This is but another event in the series of entertainments Ebells is furnishing and a cordial invitation is extended friends of the organization.

## NATIONAL BANK IS OPENED AT BEACH TODAY

HUNTINGTON BEACH, April 14.—A profusion of flowers from Southern California banks and friends of the local institution greeted the first depositors this morning at the formal opening of the First National Bank in Huntington Beach and the National Building and Loan association.

Mrs. W. E. Wenderlich, who resides on the Huntington Beach highway, and W. R. Whittaker, local oil station man, were the first two depositors and won special silver pencils. Silver pencils are being given to each depositor today.

All of the nine officers of the bank were on hand this morning to greet the new depositors. They are C. C. Tannehill, president; John I. Hinkle, vice president; cashier; H. T. Dunning, vice president; J. E. Huston, vice president; Clark Dilley, director; Joseph Vavra, director; Ed Manning, director; H. K. Stewart, director; L. B. Tannehill, director. N. A. Beal of Santa Ana, D. C. McConnell, former cashier of a Corona bank, and H. W. Pearson, Los Angeles, were also on hand at the opening.

**WILL RESUME HEARING.**  
Preliminary hearing of Nora Hubbard and Earl Porter, asserted former Long Beach policeman, charged with contributing to the delinquency of a child, which began in Justice J. B. Cox's court yesterday, will be taken up again June 13, it was learned today.

The case was continued at the request of attorneys who sought time to obtain documentary evidence said to pertain to the marriage of one of the principals.

The couple were arrested in a North Main street rooming house here several weeks ago, after Mrs. Porter had followed the pair to this city, it was declared. Porter's small child was with them at the time, it was said, and upon this fact the charges were based.

## FULLERTON MAY SEE THEATER PLAN END

FULLERTON, April 14.—Because a used car company has erected a \$2,000 tin shed in front of the property on which Stanley Chapman began excavation work for a \$100,000 theater building on the corner of Spadra road and Whiting avenue, Chapman has ordered his men to stop work and may abandon the project, it was declared here today.

**Citizens Protest.**  
Aroused at the prospect of losing a \$100,000 theater building because of the erection of the tin shed, citizens here today were preparing to go before the city council at the next regular meeting with a request that the construction of the tin shed be held up until the new Fullerton zoning law can go into effect and prohibit the erection of the cheap building.

**Another Theater Planned.**  
Simultaneous with the above came the announcement that N. Boasberg, member of a local realty firm, has purchased property 166 feet wide and 550 feet deep on West Commonwealth avenue, between the Catholic church and the city park, for \$30,000, and that he proposes to erect there either a large apartment hotel, a large theater building or a building combining the two.

Boasberg is said to be of the opinion that with the acquisition of the industrial site by the city from the Bastanchury Ranch company that the city will move in that direction and consequently the best location for his building would be in that neighborhood.

## STORM DRAIN WILL BE VOTED UPON AT ORANGE WEDNESDAY

ORANGE, April 14.—Voters of Orange will go to the polls Wednesday to vote upon the proposed \$12,000 bond issue for the building of a storm drain to take care of the waste irrigation water and the waters from the rains.

In the opinion of the city council the storm drain, which is to run south along Cambridge street, is made necessary at this time by reason of the fact that pavement will be laid along the street at once.

It is estimated that approximately one-fourth of the city taxes are paid by the owners of ranch property lying within the city limits on the east and inasmuch as these taxes are necessarily expended more largely in the central portions of the city it is considered as giving these ranchers no more than their rights for the entire city to aid in the building of the storm drain, advocates of the bond issue say.

Orange County Choral Union. Rehearsals for Mikado will be held at Junior High School Monday evening at usual hour.

## SPANISH DESIGN IS PICKED FOR NEW BUILDING

HUNTINGTON BEACH, April 14.—Any size road show will be able to include Huntington Beach on its schedule, it is believed, with the construction here of a stage in the new \$80,000 Oarr building sixty feet long and twenty-five feet wide. Fifteen musicians can be accommodated in the orchestra pit and accommodations made for more, if needed.

The building, which the architect, Eugene Durfee, estimates will cost \$50,000, is to be of general Spanish design, the exterior to be of brick trimmed with terra cotta. In the main auditorium 900 people can be seated while on the mezzanine floor retiring facilities will be afforded for men and women.

The organ has been estimated to cost \$5,000.

Facing the street on the main floor will be nine shops, the hotel lobby and the theater entrance. In the basement will be dressing rooms, musicians' quarters, and property room. On the second floor there will be twenty-seven hotel rooms.

## ZONING ORDINANCE URGED IN ORANGE

ORANGE, April 14.—The residential movement of business, regardless of the nature, is looked upon with utmost disfavor by the city council.

Likewise, such establishments, located among the homes, is frowned upon, and perhaps, may be boycotted, by residents, if numerous petitions which have been coming to the council chambers prove any criterion.

Taking cognizance of these protests, the city board at present is accelerating the work of drawing an ordinance designed to prevent business encroachments on residential property, it was announced today.

This ordinance, when completed and adopted, will indicate the boundaries of the business section, providing for ample expansion, it is believed, at the same time preserving the residential sections for their primary purpose.

Any kind of business structure, especially should it be of unpretentious architecture, is out of place in residential sections, the protesters aver.

Furthermore, they assert, such structures will slowly kill the value of the particular block or section where they are located as far as preferred residential property is concerned.

These residents who have been watching with apprehension and disfavor the spasmodic location of stores in various sections of the residential districts want protection from such inroads.

They have appealed to the board in numerous petitions for preservation of their property for strictly residential purposes.

They have even gone as far as to voice threats of probably boycott of such establishments, it was hinted today.

The city board, it was officially learned, concurs in their views.

It contends, as do the protesters, that business for the general good of the city should be confined to some certain section, designated as the business district.

With this point in view, the board has set its legal machinery in motion to draw an ordinance prescribing the boundaries of the business section, outside which business houses will be banned.

This ordinance, it is said, will provide sufficient territory for future expansion.

In brief, it will link business with business, and not business with residences.

But meantime, while the board expedites drafting of the ordinance, the war goes on, silently perhaps, but nevertheless determinedly.

## BANK DIRECTORS AT BALBOA QUIT

BALBOA, April 14.—Owing to friction between the officers and directors with the president, George P. Edwards, of the Bank of Balboa, which also has a branch at Costa Mesa to be opened within several weeks, the cashier, H. C. Hookstra, the assistant cashier, Mrs. Vern Hookstra, and five directors, F. R. Aldrich, vice president, Donald Dodge, Dr. J. W. Wherry, George Waterman and Victor Peterson, have resigned, it became known today.

A few weeks ago the state bank examiner found the bank to be in good condition and the business will continue as it has in the past, it was said.

**"SHERMAN WAS WRONG"**  
PHILADELPHIA, April 14.—"Sherman was wrong," Charles R. Speechley, Philadelphia World War veteran, told American Legion comrades, when he received word from France that he is heir to a fortune of \$250,000 there. Speechley, accounted for his good fortune by saying that while in Paris during the war he rescued a young woman who had fallen off a bridge into the Seine.

## CLAIM INVENTION TO DO AWAY WITH SMUDGE POT'S USE

LAGUNA BEACH, April 14.—Thaddeus Lowe, who's palatial summer home overlooks the bay at Nigger canyon, has announced the invention of a new orchard-heating device, which is said to do away with the old system of "smudge pots," and other air-warming apparatus.

Mr. Lowe's invention is for a central heating plant, connected with a blower system, and will be more economical to operate than smudge pots, he says, as it will use much cheaper fuel.

Its most attractive feature is that it will be possible to turn on the heat from the orchardist's bedside and thereby making it unnecessary to wander through the orchard in the cold, dark hours of a frosty night to attend to smudge pots.

Mr. Lowe is a son of the late Prof. T. S. C. Lowe, who built the Mt. Lowe railway, and lives in South Pasadena.

## NEW WELLS ADD 9500 BARRELS THIS WEEK

HUNTINGTON BEACH, April 14.—Nine thousand five hundred barrels of oil was added to the production of the Huntington Beach oil field by the completion of four new wells but even with the new wells the field showed a loss of 4147 barrels over last week's total, 131,884. The gross reduction in yield is 13,647 barrels.

**Book Well Comes in.**  
Encyclopedia No. 3, of the Globe Petroleum corporation, is flowing at the rate of 4000 barrels a day and is the biggest producer of the week.

The well is 552 feet deep and is northwest of the Shell company's Ashton. The lease is composed of about 300 lots which a number of years ago were given away to purchasers of encyclopedia sets and up until the time of discovery of oil here were a drug on the market. At the present time the lots are selling around \$2000 each.

**Beach Has Deepest Well.**  
Curtiss No. 1 has been completed by Selby and Root and is flowing about 1000 barrels of oil a day. The well was brought in Thursday and it is expected to increase production. The hole is 5120 feet deep and is said to be the deepest producing well in the world at the present time, lacking only 160 feet of being a mile deep. Curtiss No. 1 is a red drill being first brought in October 15, 1922 when the hole yielded but 800 barrels a day. Production dropped off and the owners decided to deepen it.

Mills No. 1 has been completed by the Invader Oil company and is flowing 1500 barrels. The well is located near the corner of Westminster road and Garfield avenue and is 4400 feet deep.

Columbia 2-1 of the Petroleum Midway company is flowing 3000 barrels a day since it was brought in this week. The well is 5015 feet deep and is located on the west side of Crystal street at the base of the east slope of Reservoir hill.

## TUSTIN OPERETTA IS WELL ATTENDED

TUSTIN, April 14.—A full house greeted the presentation of the operetta "The Gypsy Rover" which was given in the high school auditorium last night by the boys and girls glee club of the Tustin union high school under the direction of Miss Madge Stephens.

The high school orchestra rendered excellent music, accompanying the club throughout the operetta and playing during the intermissions.

## INDUSTRY SHOWING IMMENSE INCREASE

WASHINGTON, April 14.—Enormous expansion in American industries since the prewar period is indicated by the value of the products in 1921, as compared with the value in 1914. The total value for some was quadrupled, for others tripled and for many doubled in the seven year period, according to preliminary statistics of the 1921 census of manufactures now being made public by the census bureau.

Figures for more than half of the country's 350 classified manufactures completed to date place their total value in 1921 at \$62,418,078,773, an increase of \$38,171,644,049 over 1914. Compared with the high price period of 1919, many industries show a decrease in the value of their 1921 output from that year, due largely to the decline in prices.

Among industries whose output more than quadrupled in value in the seven year period from 1914 to 1921 were the manufacture of rubber tires, tubes and other rubber goods; petroleum refining, and manufacture of asbestos products. Those whose production values more than tripled included manufactured fuel, ice cream, pocketbooks, automobiles, automobile bodies and parts, baking powders and yeast, and chemical fire extinguishers.

## DEDICATION OF CLUBHOUSE TO BE TUESDAY

COSTA MESA, April 14.—Mrs. Lucy Woodford of Villa Park will speak on "The Fine Art of Living in a Community" as the principal address at the opening Tuesday night of the \$6000 clubhouse of the Friday Afternoon club which has just been completed here. The program is to commence at 8:30 o'clock.

Robert Brown, vocalist of Santa Ana and Allen Revell, pianist, will be heard as well as violinists of the Santa Ana Junior high school orchestra, and the orchestra itself.

The Thompsons of Santa Ana will offer a one act comedy sketch. Other speakers will be Mrs. E. M. Bradley, chairman of the building committee, Mrs. Fanny Birby Spencer, who donated the lot on which the clubhouse was built, and Mrs. Alvin E. Brock, president of the Orange County Federation of Women's clubs. Representatives from all the county women's clubs have been asked to be present.

## DIAMONDS ARE NEW LURE TO COUNTRY

NEW YORK, April 14.—Treasure seekers are turning their eyes toward the old Gold Coast again. This time they are not thinking of the sunken hulks of overloaded ships three centuries under the sea that might by some mad miracle of luck be salvaged.

It's the repeated news of new diamond fields that have been opened recently between the mouth of the Magdalena river and the headwaters of the Rio Grande of Brazil that is filling the veins of those who seek sudden wealth with a fever to find a fortune in blue clay beds that rise somewhere inland in mountain ranges that border jungles.

Footloose adventurers everywhere are looking up ways and means of reaching a likely port along the old Coast somewhere between Caracas and Cayenne, or arriving in Brazil somewhere between Bahia and Sao Paulo.

To find authoritative figures on the comparative recent production of the diamond fields of America and those of Africa, the latest edition of Dr. George F. Kunz's annual report on the production of previous stones was consulted and his figures quoted.

He reports the opening, some two years ago, of a new and rich diamond field in the Kurupung river in British Guiana. Largely as a result of the rich deposits in this new field the diamond output for 1920 rose to 39,362 carats. This was a great increase in production. The average yield of the fields of this small country had for more than a decade been little more than a fourth of this amount.

For Venezuela, at the top of the roll of the Gold Coast states, Dr. Kunz gives no production figures, but reports that diamonds have recently been found in the gravel of the Caroni river. But the entire supply of diamonds mined at present in the string of little states that border the northern shore of South America is small when compared to the quantity found in recent years in Brazil.

Brazilian mines made the best showing in 1921. To the United States and to England in that year the states of Bahia and Minas Gerais exported stones worth \$43,280 in the rough. These were stones for jewels. Amorphous black diamonds, used for drills and other industrial purposes, were also found in quantity. Exports were valued at \$355,776.

But all the stones mined in the greatest field of the New World would make a very small pile if laid opposite the diamonds of South Africa.

Exports from Brazil in 1921 amounted in value to about one-fifth of the price estimated for the stones produced in the South African fields. To give the New World this rating it is necessary to add the value of the carbonados to the value of the gem stones. This is not at all customary, but since Brazil is the largest single source of supply for diamonds used in the making of tools there may be a certain fairness in so doing.

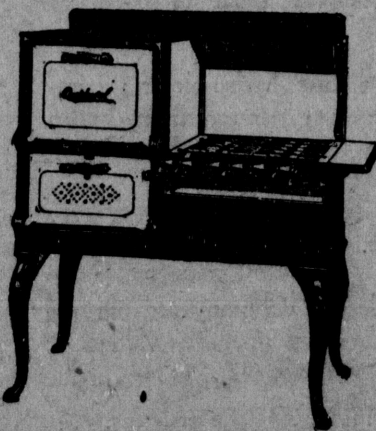

## FOR SALE

3 houses on one lot, 2 of them new. 1 5-room; 1 6-room; and 1 7-room. This is a fine location, paved street, rented for \$135 per month. It will pay to investigate this wonderful opportunity. Price \$10,500, \$4000 cash, balance like rent.

# Stocks, Markets and Financial News

## WALL ST. JOURNAL FINANCIAL REVIEW

### Shipping Shares Break To New Low Level Under Hard Drive

NEW YORK, April 14.—Price movements in today's short stock market session gave further evidence that faults in the technical structure of the market had been pretty well eliminated through the drastic shakeup in oils earlier in the week.

Another vulnerable point was found among shipping shares when marine preferred broke to a new low for the year. But, taking the list as a whole, its action suggested that a healthy situation had been restored and that extensive preparations were under way for the resumption of the forward movement.

Publication of the government cotton consumption figures for March placed this commodity in the class enjoying unparalleled activity.

With this additional evidence of prosperity, stocks like Crucible Steel, American Locomotive and Baldwin reflected important actions. Based on the thought that current selling levels could not be said to have discounted a business revival surpassing the most optimistic predictions of a few months ago. The market closed higher.

LOS ANGELES, Calif., April 14. (Office of the Fruit World)—More life has been displayed in the market for California oranges this week than for some time. Both the private sale markets and the auction centers have responded now that favorable weather is at hand and the sale of oranges can be accelerated.

Copious rains the early part of the week throughout the Southern California citrus belt slowed down shipments again. Shipments of the past seven days were reduced by 300 carloads as a result.

Orchards benefited to augment the season's supply. Coming as late in the season as it has some citrus growers fear that could may develop in the blossom. Others say that there is nothing to fear from that source under existing conditions this season. At any rate, the orchards have been benefited by the rain and the supply of irrigation water for the summer has been increased.

Sizes 176s to 250s inclusive in Navel oranges are most desired. These sizes are commanding a premium. It will be well into May before the Navel crop is entirely disposed of.

What effect the rains will have on the crop of Valencia's now maturing is problematical.

The 1923 crop of Valencia oranges is running heavy to small sizes. Growers and shippers are anxious to see the fruit size up. A repetition of last season's Valencia sizes would be a difficult problem to wrestle with again this season.

F. o. b. California quotations on Navel oranges have been raised 25c per box over those of last week. The range on Fancy grades is as follows: size 80s, \$2.15 per box; 100s, \$2.65; 120s, \$3.15; 150s, \$3.40; smaller sizes \$3.65. Choice grades, 50c per box less.

Seedlings and Sweeties are quoted from \$2.50 to \$3.00 per box.

There has been little activity among the cash buyers and prices remain substantially the same as last week.

There has been a little more demand for California lemons during the past week.

F. o. b. California quotations are on a basis of \$4.00 to \$4.50 per grades 50c per box less.

There are on hand available for sale with the next thirty days at all points in the United States 61,600 boxes of foreign lemons. Available supplies on the same day of last year and the year before were 138,900 and 200,000 respectively.

## GRAIN PRICES JUMP ON CHICAGO BOARD

### Reports of Curtailed Yield Bring About Activity Among Buyers

(By United Press Leased Wire)  
CHICAGO, April 14.—Grain prices moved to new high levels on the Chicago board of trade, for the 1923 crop today.

Heavy buying followed, statements of serious crop conditions and forecasts of curtailed yields of wheat throughout the country.

"Conditions in both the southwest and in the northwest warrant a feeling of alarm," said B. W. Snow, foremost of private experts, as well as one of the most conservative.

"Seedlings which should have been under way in the northwest on April 10, cannot start for another week on account of snow and cold weather."

July wheat sold for \$1.24 1/2 and wheat for September delivery at \$1.33 1/2.

## FINANCIAL COMMENT

Short Talks on Current Events of Interest to Investors  
By James Wilbur

During the past five years dishonest oil promoters in Texas have swindled the American people out of more than \$100,000,000, according to John W. Edwards, solicitor for the postoffice department, who has undertaken to round up the crooked operators.

This immense clean-up has been made despite the so-called blue-sky laws of Texas, passed to protect the unwary investor. The evasion of the law was made possible by the formation of common law trusts which placed the organizers outside the letter of the law and allowed them to operate at will. With no check on the manner in which the money raised should be expended and no limit to the capitalization of the companies, the dishonest operator was in a position to do practically as he pleased.

It is an interesting problem to determine just why some investors will persist in favoring a company which is operating without the jurisdiction of the state authorities as against one around which the government has thrown all possible protection to the interests of the stockholder.

The Texas law as it now stands evidently has failed miserably in its purpose. The mere fact that a man may sell "units" without interference by state authorities, yet in the sale of "stock" must submit to rigorous regulation, when the only practical difference is one in name only, is proof of failure.

In California the corporation commissioner has asserted that the unit company is under his jurisdiction and is prepared to support his contention in court. The result is that California has been spared the scandals which have marked the development of the Texas oil fields. There have been dishonest promotions here, it is true, but their proportion has been so small that they are negligible.

Had the bars been let down in California as they were in Texas, this state today would be vying with the latter for first place in the amount of money of which its operators had robbed investors. That our development has been relatively clean is due to the activities of the state authorities.

## STRAWBERRY PRICES ARE HIGHER IN S. F.

(By United Press Leased Wire)

SAN FRANCISCO, April 14.—There was at least a temporary advance in strawberry prices, due largely to special Saturday buying. Berries in drawers brought \$1.50 to \$2.25 per drawer, while crates sold at \$3 to \$4 each. Southern crates of fifteen baskets sold from \$3.75 to \$4.25.

Fancy lettuce was very scarce on the local market and prices advanced sharply. A few crates of fancy Sacramento river lettuce sold from \$2.25 to \$3 per crate and Los Angeles stock which was very limited brought \$2.25 to \$2.50 per crate.

Tatoes also were in good demand and sold up to \$3 per crate.

Sixteen sacks of new crop string beans were received from San Pedro and sold from 20 to 23 cents per pound. Asparagus receipts were heavier and the market barely steady at yesterday's prices.

There was a reasonable demand for poultry but no changes in prices were reported.

Receipts of live poultry was 38 coops and 715 pounds dressed.

### SET CASE OF I. W. W. SUSPECT FOR MAY 8

Ralph Colecott, asserted national committeeman of the I. W. W., arrested at Huntington Beach Thursday by City Marshal Jack Tinsley and Officer Roy Ballard, will come before Justice J. B. Cox May 8 at 10 a. m. for preliminary hearing on charges of violating the state criminal syndicalism act.

Colecott was arrested in the war of county authorities against the activities of asserted radical organizations. Three other men, said to be organizers, were in the jail pending their hearing.

Colecott was held pending the depositing of \$1,000 bail.

After being kept for thirty years without once being used, a horse fire-engine has been superseded in Weymouth by a motor-engine.

### Citrus Market

St. Michael oranges from the Northern Orange County fruit exchange and one shipment of lemons from the Orange County Fruit exchange were the only Orange county citrus fruits sold yesterday on eastern markets.

Cleveland reported the sale of St. Michaels as follows: Delicia, full boxes, \$3.25; Fawprita, half boxes, \$1.85.  
Cincinnati sold St. Michaels as follows: Carmencita, \$3.90; half boxes, \$2.15.

Philadelphia sold Plant brand lemons at \$3.55. St. Michaels were sold as follows: Carmencita, \$4.45; Shamrock, \$4.70; Caledonia, \$4.00. Half boxes—Shamrock, \$1.90; Caledonia, \$1.65.

## Baker's Cocoa

is the ideal drink  
for growing children

Not only does its delicious flavor and aroma appeal to the palate but it supplies the body with a considerable amount of pure, wholesome and nutritious food.

Children, owing to their almost ceaseless activity, frequently require as large an amount of nourishment as adults, and good cocoa is a valuable aid in the carefully arranged diet. But its quality must be good and no cocoa can quite so well meet the requirements of dietitians, physicians, nurses or housekeepers as "BAKER'S."

## REHEARSAL FOR 'MIKADO' IS ANNOUNCED

Rehearsals for "The Mikado," popular Gilbert and Sullivan opera, to be given under the auspices of the Orange County Choral Union at the high school auditorium here May 23 and 24, will begin at the junior high school Monday night, A. H. T. Taylor, president, announced today.

"This opera," said Taylor, "is one of the most popular musical affairs ever given in Orange county and we found that there was a strong preference for its repetition. The choral union gave "The Mikado" two years ago with excellent artistry, and was rewarded by large and appreciative audiences.

"It is probable that the chorus for the coming production will consist of about forty voices. There will be a dozen or more principal roles, with some of the best singers in the Southland carrying leading parts.

"For the rehearsals, starting Monday night at 7:30 o'clock, we are anxious to procure the best talent available. We will appreciate it if the newcomers of the union will appear at the junior high school at that time for preliminary trials by the director.

"In advance inquiries are to be accepted as proof of the keen interest in the choral union's offerings. "The Mikado" will score a decided success May 23 and 24. This play offers exceptional opportunities to those possessing talent and we hope to be able to present the opera on a scale comparable with the best organizations in the country."

## PLANNING TO OPEN NEW FIELD OF ORE

MIAMI, Okla., April 14.—The Devil's Hollow section is the next field that is to be developed in connection with the Oklahoma-Kansas zinc and lead mining, according to W. C. Miller and T. C. Young of Miami, who with W. F. Angel, Frank Wray, and J. L. Stroup of the Devil's Hollow country, are acting as scouts for the Chanute Smelter company, a company subsidiary to the American Metals company, in obtaining leases in that section totalling 5000 acres.

The new Devil's Hollow country lies east of the Spring river, east of Quapaw, where the Charles M. Schwab interests have taken an option on 2700 acres and about a dozen miles. It has always been known that there were beds of ore over there, but the very fact that the water in that section was strong enough to make mining out of the question except with companies with unlimited capital, has kept the prospectors from making any special headway. The water is of the artesian type, in some cases spouting from the ground from wells not more than 150 feet in depth. Ore is found in some places from the grass roots on down as far as anyone has gone with their tests.

In the early days Devil's Hollow was also called Lead Hollow and it is still referred to by many of the old timers as Lead Hollow. It is said that long before the white man began to mine in this section the red men of the forest dug lead nuggets from the rock ground in and about Lead Hollow and picked them up from the surface. It is said that the Indians had some kind of a system of smelting the lead ore by roasting it in a crude furnace and that they were able to run them into bullets for their old-fashioned rifles or to shoot them as buckshot from their shot-guns.

Devil's Hollow is a typical mining country. A great deal of the country over there would make one wonder what it was made for anyway as there is little soil on the ground and the country is terribly broken.

In the Devil's Hollow country there are many enormous beds of tripoli which lie on the surface or just below it. It is near the famous Seneca tripoli mine, one of the greatest if not the greatest known in the world. At Seneca the greatest tripoli mill in the United States is grinding out great quantities of tripoli flour which is shipped all over the world to be used in the manufacture of filters, scouring powders, soaps and other such products. Miller and Young said Friday that the Chanute people did not care to mine tripoli so they had not reserved the tripoli rights. They said, however, that an Oklahoma City firm had expressed a desire to contract for a mill on the ground somewhere in the vicinity or at one of the towns on this side of the river, handling the tripoli from the great beds of the Devil's Hollow.

## WHITE PLAGUE CURE GIVEN SOME CREDIT

BERLIN, April 11.—Dr. Friedmann, he of "turtle serum" fame, has been partially vindicated by a special expert committee of the Prussian landtag. This committee, founded as a result of a landtag decision of three years ago, has reached the conclusion that while Friedmann's so-called tuberculosis cure is not a full cure, it nevertheless has meritorious qualities in the treatment of tuberculosis.

**WHEN TUMBLERS OTICK.**  
When two glass tumblers stick together so that there is danger of breakage in separating them, put cold water in the inner one and place the outer one in warm water. They will come apart at once.

**FARM FOR VETS.**  
QUELPH, Ontario, April 11.—Government has purchased big farm near here to put returned soldiers on the land.

**BULL KILLS FARMER**  
RICE LAKE, Wis., April 14.—Frank Montgomery, aged 45, is dead after being gored by a bull on the farm of a neighbor, Julius Wohlt. Wohlt and his wife were away when the bull got out of the barn. Wohlt's small son went after Montgomery and asked him to get the animal back into the barn. Montgomery got the bull into the barn and went in its pen to put it in a stallion, when it

knocked him down and jumped on him with its fore feet. The boy prodded the bull in the eyes with a stick until Montgomery could drag himself out. Montgomery was a powerful man, weighing more than 200 pounds.

## LAYS LARGE EGG.

MAYNARD, Minn., April 5.—A hen's egg measuring 8½ inches by 7 inches was exhibited here by Ole

Gievre, who said it was laid by one of his Leghorns. When broken, it was found to contain an ordinary white and yolk and also a small perfect egg with a hard shell.

## MERCHANTS SELL DRUGS

LONDON, April 11.—Scores of well known merchants in London, hiding behind the mask of respectable business are in reality agents for an international narcotic ring, it was revealed here. Disclosures

made in connection with the arrest of a Chinese has brought to light the fact that British merchants are exporting tons of morphine and heroin yearly. Some of the drugs are smuggled into the United States.

## LEAVES CONFESSION NOTE

PLAINFIELD, N. J., April 12.—John Reim, aged 49, for 25 years an employee of the Borden Milk company, committed suicide at his

home, No. 154 Kline boulevard, Dunellen, N. J., by shooting himself in the heart with a revolver, after leaving a signed letter to the company's manager, Leonard S. Pickal, in which he confessed that he faked the story of a reported holdup by three colored men in Farwood, March 12, when \$150 was said to have been taken from him. Reim explained in the letter that the work had been too much for him and that he got in trouble

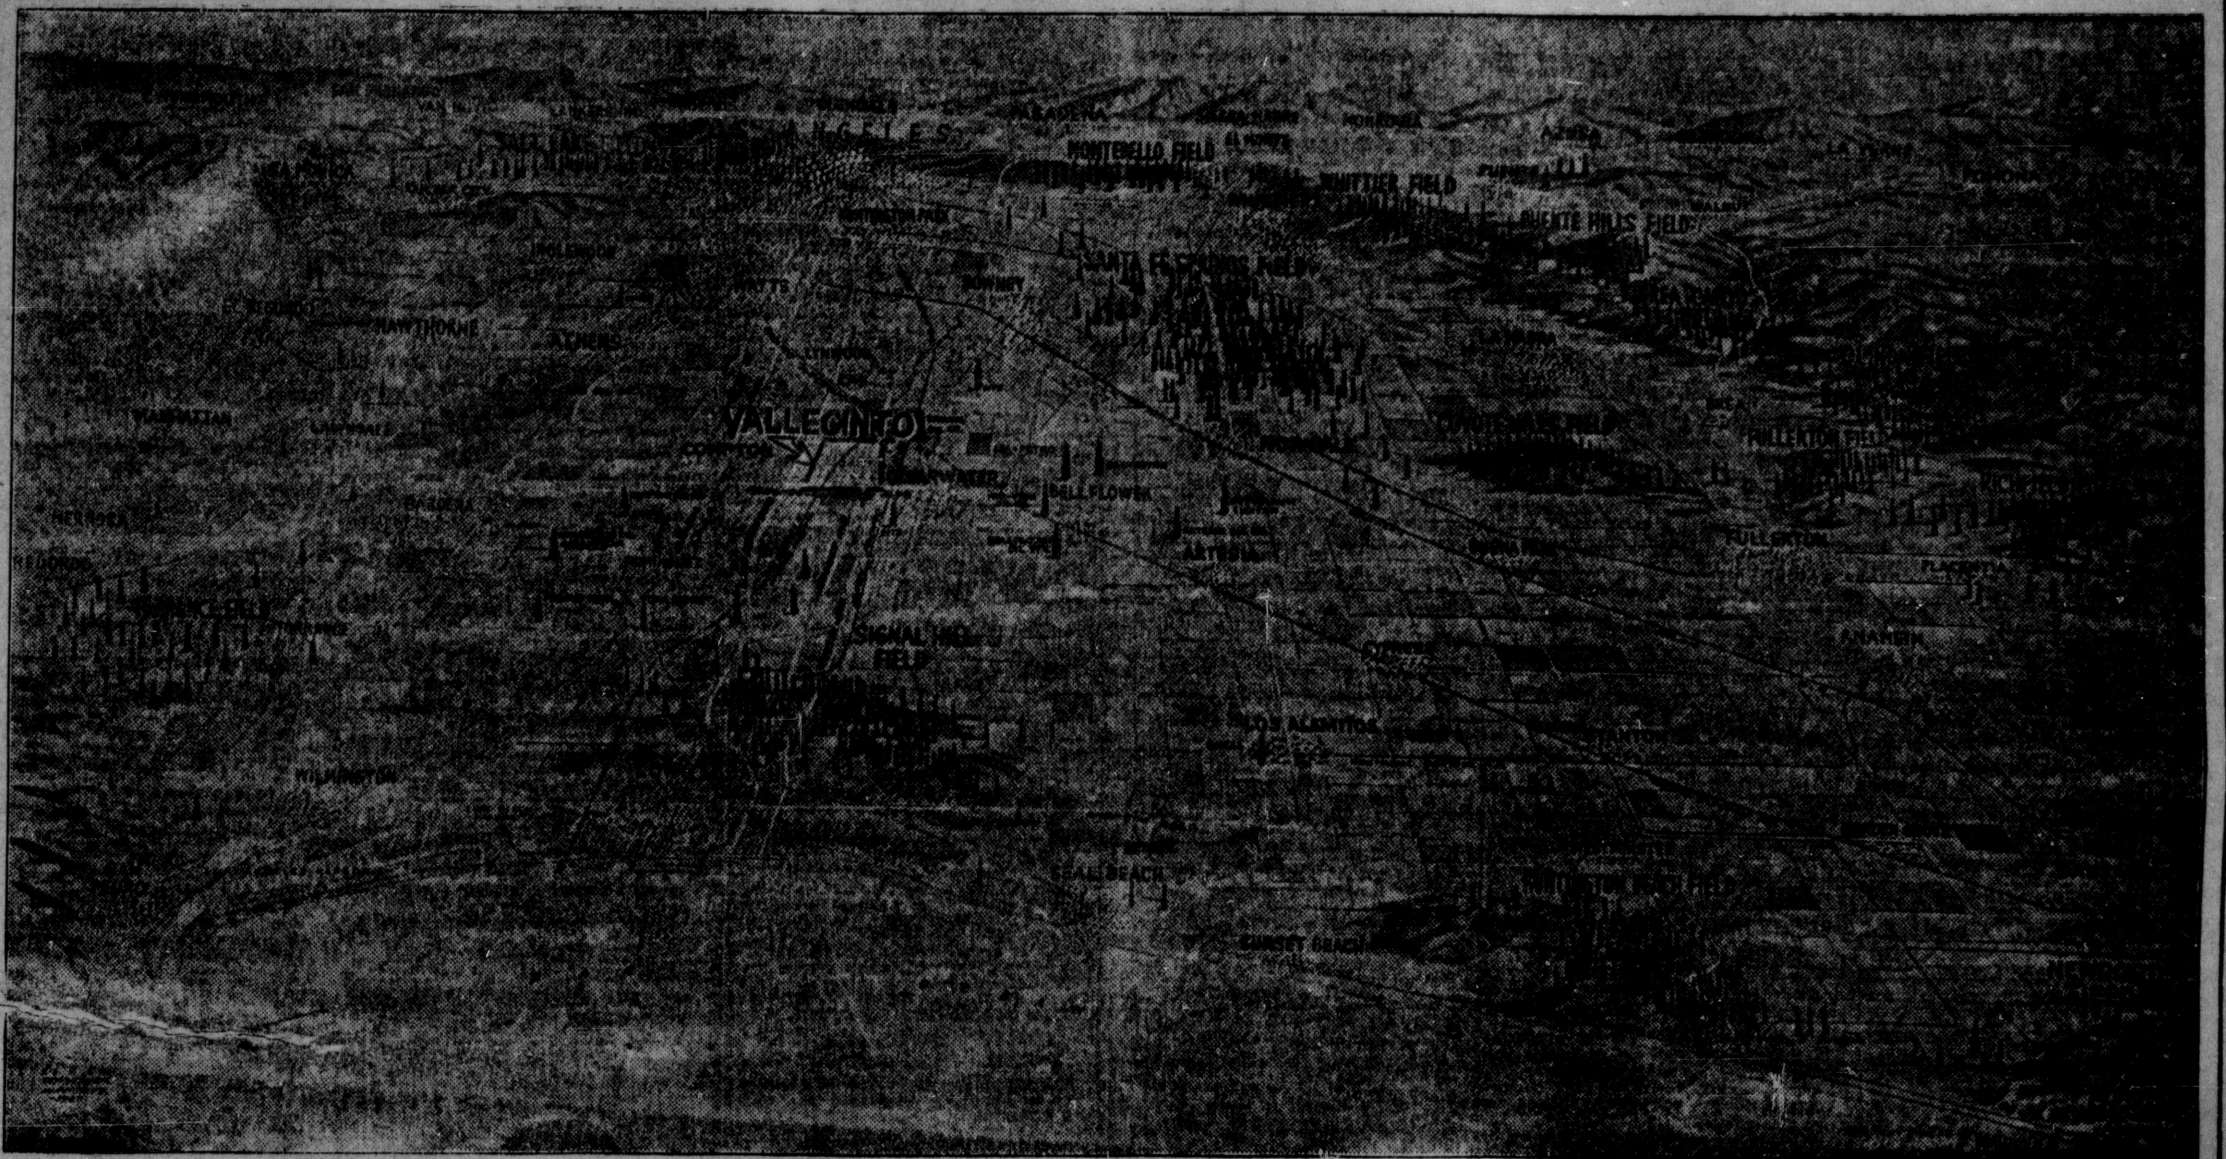

**DIPLOMATS INTERESTED**  
SANTIAGO, Chile, April 11.—International diplomats were looking with keen interest today upon the proposal of Costa Rica to curtail the power of the United States in the Pan-American Union. Under the present plan the union is composed of delegates of nations who are accredited by the United States. Costa Rica's proposal is to make the membership of the governing board independent of recognition by the United States.

HEALTH TALK NO. 81  
By J. G. Kelly, D. C.

Convincing YOU of the very reasonableness of Chiropractic Adjustments for the correction of the CAUSE of sickness should not be difficult. My patients became convinced through earnest investigation. Investigation should convince YOU.

Once you are convinced of the reasonable explanation of the simple philosophy upon which Chiropractic is based, you may still entertain a streak of doubt as to whether spinal adjustments will be applicable in your particular kind of sickness.

This doubt will surely vanish as you experience improvement from the first few adjustments for the correction of the CAUSE of your suffering.

Actual results will convert you from the time worn fallacy of taking drugs and dope for symptoms, to the modern way of eliminating the CAUSE of those symptoms. Removal of the CAUSE invariably results in restoration of HEALTH.

You may not realize that the CAUSE of your sickness is in your spine, but to get back your health is to be convinced. Consultation with spinal analysis is free.

## A PUZZLE A DAY

There's a word of four letters.  
Take two away and leave four.  
Take away one more, and leave  
five; replace the three letters, and  
you will still have five.

Yesterday's answer:  
1: O  
2: OR  
3: OUR  
4: HOUR  
5: ROUGH  
6: THROUGH  
7: THROUGH  
8: THOROUGH

Above are shown the eight steps  
by which the word "Thorough" may  
be built up from the word "O," add-  
ing one letter in each step.

## For Sale—City Property

## Orange Groves For Sale

FOR SALE—Large size solid oak roll top, office desk and chair. Price reasonable, 405 So. Flower or phone 1248-W.

## FOR SALE

The finest 6-year-old Valencia orange grove in Orange Co. together with a half Valencia, half navel, sixteen 1-2 tons to the acre, these are 5 acres each, 10 acres in all, good buildings and surroundings, located close in on north side of city limits on first class soil. This property is the cream of its kind and nothing better can be found on the market at any price, if interested see

## C. B. MOASE

Phone 768 312 No. Main

## 40 Acres On Highway

Near Riverside, 15 acres planted to large navel oranges, 5 acres in large Valencia, 10 acres in young navel and grapefruit, balance in splendid olive groves.

The oranges have trees all carefully pruned and just fertilized. There is a good water supply for irrigation. The soil is easy working sandy loam and a 6-room house, barn, tractor and tools, and valencias are included in the ridiculously small price of \$24,000.

The reason for owner selling is that he is leaving the state and nothing better can be found on the market at any price. Will trade for income property in Orange county or Los Angeles.

## Patterson &amp; Flaherty

667 8th St., Riverside, Cal.

## NON-RESIDENT must sell ten acres

ten year old oranges, Yorba Linda. Price sixteen thousand dollars, and the oranges on the trees will bring the price down. L. E. Jones, Santa Barbara, Calif.

## New Classified Ads Today

## A Chance to

## Make a Killing

23 1/2 ACRES, beautiful location, on half Valencia, half navel, sixteen years old, fumigated and well fertilized; ready to set a bumper crop. Price, including light crop of Valencias on trees, \$28,250.

This grove is owned by a non-resident and the price is far below its value. In fact it is far below anything else in its class here or elsewhere in Southern California.

It adjoins the golf course of the Redlands Country Club and would subdivide into a number of fine building sites, having a commanding view over the lovely valley around Redlands.

PATTERSON & RIGBY, No. 7 East Citrus Avenue, Redlands, Calif.

## Plumbing Fixtures and Supplies at Money-Saving

Prices We have on hand a surplus stock for quick disposal. The supply is limited. In fact it is far below anything else in its class here or elsewhere in Southern California.

# THEATERS

Perrin and Rucker, two of the all-colored musical comedy which comes to the Yost next Thursday night.

## TONIGHT'S ATTRACTIONS

YOST—Vaudeville and "Brass Commandments," with William Farnum.  
 TEMPLE—"One Exciting Night," with Carrol Dempster and Morgan Wallace.  
 WEST END—"Boss of Camp Four," with Charles Jones.  
 PRINCESS—"The Frontier of the Stars," with Thomas Meighan.

## TOMORROW'S ATTRACTIONS

WEST END—"A Daughter of Luxury," with Agnes Ayres.  
 YOST—Vaudeville and "The Inner Man," with Wyndham Standing.  
 TEMPLE—"One Exciting Night," with Carrol Dempster.  
 PRINCESS—"Single Handed," with Edward ("Hoot") Gibson.

## "STRUTTIN' ALONG"

All-Colored Musical Show Due At Yost Theater Next Thursday Night

Syncopeation as played by the funky entertainers of the south where jazz was created, will feature "Struttin' Along," the all-colored musical comedy coming to the Yost theater April 19. Theatersgoers with jazz hungry hearts will be treated to music rendered by Miss Mamie Smith and her "Jazz Hounds," by other instrumentalists and vocalists in the company, and by the chorus of thirty Creole beauties.  
 Mamie Smith has been appearing in New York for some, and is a big favorite throughout the country by virtue of her number of jazz records made for phonographs. There are eight men in Miss Smith's organization of exceptional musicians. Among their featured numbers will be "The Dark Town Movie Ball," the lyric of which deals with movie struck persons in a colored village, "Don't Mess With Me," "You Gotta See Mama Every Night" and others.  
 The Creole girls in the chorus have been declared by those who witnessed the show to be beautiful, light-colored and helpful.

A staging of "Struttin' Along" will be the first piece of its kind ever noted in local theatrical history. At present all-colored reviews are the rage in New York. "Shuffle Along" and "Strut Miss Lizzie" being big box office magnets of the first order in the east.  
 Among the prominent colored stars will be, John Rucker, Sid Perrin, Richard Courtney, William Piersen, Fricco Nick, Zoe Rameaux, Carolyn Snowdon, Susie Hurst, William Mitchell, Lawrence Ford, Earl West, Norman Stewart, Eddie Anderson, Billy Moore, Corrie Anderson and Mlle. Augusta Pett.

"A DAUGHTER OF LUXURY" COMES TO WEST END  
 A beautiful girl with her hair hanging down her back, her shoes off—in a hotel room alone with a married man!

This is the startling situation in which Agnes Ayres finds herself in her role of Mary Fenton in her new picture, "A Daughter of Luxury," which will be a feature at the West End theater for five days beginning tomorrow.

The situation, however, which immediately conveys the idea of scandal proves to be the most innocent imaginable.  
 Mary Fenton, the character played by Miss Ayres, hungry, penniless and homeless, sees a man whom she thinks to be an old friend from her former home town. She accuses him, then discovers she has made a mistake. The man, seeing she is faint with hunger, invites her to dine. She accepts.

They find the only tea room in that section has just closed. He suggests that they go to his room and he will order tea and cake sent up. She wavers between propriety and hunger and finally yields to hunger. After the tea, during which she removes her shoes to rest her aching feet, she stands in front of the mirror to redress her hair so she may once more start out in search of a job.

It is at this point that she is discovered by a gossip.

Out of this complication grows the big climax of the story, when Mary, to save the honor of the man who has befriended her, allows him to introduce her to the gossip as his sister-in-law, an heiress, and thus is forced to play the impostor during a good part of the remainder of the story, and suffer the humiliation of final exposure. A jewel robbery is one of the big incidents.

## SPECTACULAR FIRE SCENES IN MEIGHAN PICTURE

One of the most spectacular fire scenes ever filmed in a motion picture studio was staged in New York when "The Frontier of the Stars" was made. This picture will be the attraction at the Princess theater tonight, with Thomas Meighan, the star, in the role of a gangster of the Bowery.  
 For the fire scenes sets, which exactly duplicated a street in lower Manhattan, near the Brooklyn Bridge were built, and then three days were spent burning them up. A large crowd of extras were used; and the spectacle of some twenty or more policemen battling with the unruly mob which surged back and forth in the fire-swept area, in which hoses were playing and black smoke billowing forth from upper story windows, was so startlingly realistic that more than one bystander began to think that the entire studio would be destroyed.  
 Fricco Binney will be seen as leading woman. Others in the cast include Alphonse Ethier, Edward Ellis, Gus Weinberg and Florence Johns. It is an Albert Payson Terhune story. Charles Maigne adapted the story and directed the picture.

## "THE INNER MAN" AT YOST TOMORROW

Wyndham Standing comes to the Yost theater tomorrow only in his second playgoers release, "The Inner Man," adapted from a novel by Charles Mackay. In it Standing further bears out his reputation for versatility, appearing in a role entirely new to him.  
 "The Inner Man" is the story of an absent-minded professor of mathematics who is the despair of his father, who cannot understand why his son cannot be of assistance to him in his business troubles. The elder Barclay has just been acquainted with the unpleasant fact that his best silver mine has petered out. At the same time, the patience of young Barclay has petered out—he has been called jellyfish and mollycoddle too often.

So he gives up mathematics to seek seclusion in the neighborhood of his father's mine in the Kentucky hills. Instead of seclusion he finds a man's job all cut out for him, and by the time he gets through with it he has proved himself a man any father could be proud of.

Morgan Wallace in cast of "ONE EXCITING NIGHT"  
 Morgan Wallace, who has the role of the designing villain in "One Exciting Night," D. W. Griffith's mystery photoplay, now showing at the Temple theater, is a Californian.

He went on the San Francisco stage while still a school boy, next made a success of playing leads and running "stock" and became one of the most prosperous producers in this mode, with Sioux City, Ia., as his headquarters.  
 During the war he did a great deal of cantonment theater building and soldier entertainment to which he devoted nearly \$100,000 of his private fortune.

Prior to his remarkable work as Wilson Rockmaine in "One Exciting Night," Wallace made a hit as the Marquis de Praille in "Orphans of the Storm," and on the legitimate stage in the lead of "Lawful Larceny."

FARNUM SUPPORTED BY STAR CAST AT YOST  
 A cast to remember—William Farnum, Fox star, plays the leading role in "Brass Commandments," which will be shown at the Yost theater for the last time

tonight. Wanda Hawley plays opposite Farnum, Tom Santschi is the lurking villain, Claire Adams does an interesting bit of acting, while Charles Le Moyne, Lon Poff and Al Fremont are included among the players.  
 Screen enthusiasts will recall the unforgettable struggle between William Farnum and Tom Santschi in "The Spoilers." The tussle in the new production makes even a stronger bid for indelible fame in film annals.  
 "Brass Commandments" is a dramatic effort with a story that keeps its interest. There is a romantic trend that promises highly satisfactory entertainment.

## MEIGHAN AS "DADDY" IN NEW TEMPLE PHOTOPLAY

Alfred Green, who directed Thomas Meighan in the picture, "The Bachelor Daddy," had his troubles, due to the presence of five children in the cast, Meighan being supposedly the proxy daddy of five children in this new story, which will be screened at the Temple theater next Friday, Saturday and Sunday.

One of the children had to be a mere baby and for the scenes it was necessary for the child to recognize Meighan as his daddy. Green tried little Bobby Jackson, brother of Charlotte Jackson, the principal child actress in the cast, but Bobby was teething and wouldn't recognize anybody but his mother.

So Bruce Guerin, a bright youngster, was found and told that Meighan was his daddy. This suited him fine, but Bruce was no respecter of persons. No sooner had he left the scene than he began to pick up daddies all over the studio. He met Waldemar Young, scenarist and shouter;  
 "There's my daddy."

Next he chose Walter Hiers, the heavyweight comedian. T. Roy Barnes was then picked out by the youngster. After looking over sev-

eral others, he pointed to Oscar, the colored bootblack at the studio and in all seriousness said:  
 "No, that's my daddy."

"We'd better get the boy back near Meighan before he gets too many daddies around here," said Green, and forthwith an order was issued for little Bruce to be kept near the star.

## CATHERINE CALVERT FILM AT YOST MONDAY

Plot is of great importance in "That Woman," the new dramatic picture which shows at the Yost theater, Monday only, with Catherine Calvert as the star. Plot is Paramount because there is much of it. There is plot in every scene, and the climax is a big one.

"That Woman" tells the story of a proud old-fashioned father's attempts to break up a family. The family is really his own, for it is his son's wife to whom he objects. He would separate her from the husband who loves her. It is an old state of affairs.

The father's animosity is not based on personal dislike for he has never seen the young wife. Because she is an actress is the reason he gives her his unnatural prejudice. He does not take into account that she is an exceptional actress and a woman above reproach. He only determines to get rid of her.

His first resource is money. He tempts her with a large sum. She refuses it. But when the father declares she is spoiling his son's life the girl's resolution weakens. She promises to invent an excuse for leaving her husband. Yet she cannot stand the test. She has not the heart to lie. So the father is more furious than ever.

Total cost of the League of Nations last year was more than \$5,000,000.

### FORD AUTO FOR EVERY WORKER UNIQUE PLAN MAPPED OUT

Manufacturer Evolves New Weekly Purchase Program To Aid Wage-Earners

#### BANKS CO-OPERATE

'Universal Car' Will Be Placed Within Reach of Everyone

A Ford car for every wage-earner who desires one—this is the big program of Henry Ford.

In co-operation with the big manufacturer, George Dunton local agent, and the Farmers and Merchants' Savings bank have developed a plan whereby men and women ambitious to own one of the "universal" cars, may do so by starting a savings account in contemplation of the purchase of a machine.

As announced by Dunton and Alex Brownridge, cashier of the bank, deposits of \$5 a week will be accepted at the bank, and when \$175 has been accumulated a new car will be delivered by Dunton to the person who has saved that amount. While the money is being saved the bank will pay 4 per cent interest.

Interests Millions  
"This plan is being placed in operation by Ford everywhere, and it is safe to say that it will interest more millions of people throughout the world than any other announcement made in recent years by any manufacturer," said Dunton.

"It has been Henry Ford's lifelong ambition to build the universal family car, and to put it within the reach of everyone. Realizing that there are more than 20,000,000 wage-earners in this country, the large majority of whom do not own automobiles because of the large down payment required, Ford has worked out the 'Weekly Purchase Plan' for their benefit. During the past fifteen years, more than 7,500,000 Ford cars have been placed in the hands of buyers.

Banks Co-Operate  
"Briefly, under the Ford Weekly Purchase Plan, the banks are co-operating with the Ford dealers in their vicinity in making it easier for the prospective Ford buyer to complete the purchase. You simply make an initial deposit, of at least \$5, then select the type of Ford you want—touring car, runabout, coupe or sedan—and arrange to make weekly deposits, on which interest will be paid by the bank at the regular savings rate. Within a few months the car is delivered, and the balance can be

(Continued on Page 14.)

### Oklahoma Asks for Details Regarding Notorious 'Clara' Car

The fame of "Clara Phillips" has spread to Oklahoma. "To make it more definite—Tip, Oklahoma.

It is through the columns of The Register that the folk back in Tip have learned of the notorious car to be driven in the Auto Resurrection Day races.

A few days ago Lewis Trujillo of the Orange County Auto Parts and Supply company, 207 North Sycamore street, owners of the ancient speed marvel, received a letter from a man in the Oklahoma town, asking for full information regarding the mystery car. The writer said he had read of the event in The Register and asked for full particulars regarding the 1909 Cadillac that "hammers a little."

The author of the letter said he expected to be in Santa Ana in time for the event with a view of probably claiming the car.

### ARRAIGN SUSPECT ON BAD CHECK CHARGES

Charged with passing bad checks to service station proprietors, Jose Moreno was arraigned before Justice J. B. Cox.

His preliminary examination was set for May 11 at 10 a. m. and he was held in jail in default of \$1,000 bail.

### 4,762 JEWETT, PAIGES SOLD IN MONTH

March sales of 4,762 motor cars set a new month's record for the Paige-Detroit Motor Car company. This was a 20 per cent increase over the largest previous month, August of 1922, three times as large as March, 1922. These figures include Paiges and Jewetts.

"This volume was secured despite the railroad tie-up because of a large number of driveaways," says D. Z. Smith, sales manager for Edgar and Hays, local agents. "So urgent was the demand that dealers drove cars to many distant points. During the month approximately 40 per cent of the total production was delivered over the highways.

Over 75 per cent of the March production was on the Jewett. This is not because of lack of demand for Paige cars in proportion to Jewetts, but because the standards of workmanship set for the new Paige in the new Paige plant made it impossible to get under way rapidly."

### SCORES PETTY RAJO CYLINDER VIOLATIONS OF RULES

Attention to Little Matters Would Cut Crashes, Says Auto Club

Petty violations of common-sense road rules are making auto travel hazardous in Pacific coast territory, according to notices issued by the Automobile Club of Southern California.

Does your tail-light burn so that people can see it, or does it just glow about like a glow worm?

It is sometimes necessary more than just to comply with the law, says the auto club. A little common-sense used in motoring can often avert many serious accidents.

Glaring headlights constitute one of the most serious factors and possible causes of accidents with which California has to contend.

Big Toll Told

According to motorcycle officers, the proper adjustment of headlights would mean a reduction of fifty per cent in the number of night accidents. During the year 1922 more than \$22,000 was assessed by Los Angeles courts for fines for faulty headlights.

Auto club officials state that if the auto owner would use a little consideration in regulating his headlights so that it will show clearly, and adjust his headlights in conformity to the law at least, the reduction of accidents in the southern part of the state would be remarkable.

Examine Lights Frequently

It is a good plan to examine your lights frequently and see if they are burning correctly. In Massachusetts strenuous measures are being taken to force motorists properly to illuminate their license plates in the rear, and also to have their tailights burning brightly. It is probable that some similar action will be taken in the west.

Don't just be a 'law-abiding' motorist—be a thoughtful and considerate driver as well, and go a step further in making the roads safe by your consideration for other motorists.

### TUSTIN STUDENTS RUSHING ANNUAL

TUSTIN, April 14.—Plan for increasing the fund for the annual publication of the Tustin union high school were discussed by the members of the staff this week at a meeting held at the home of Miss Elizabeth McDougall, editor-in-chief. At the meeting the entire outline for the book was completed. Most of the material has been handed in and the book will go to press the last of April. It is the first publication to be presented by the students of the Tustin school. Miss Stella Youm is the faculty advisor.

Local Store Manager Says Attachment Is Great Ford Improvement

The new Rajo cylinder head for Ford automobiles was on display today at the store of the Western Auto Supply company, 416 West Fourth street.

According to J. W. Campbell, manager of the local store, the new head has been developed by Joe Jagersberger. It is a valve-in-head attachment for Fords.

"Aside from its heightened power and resultant quick pick-up, the Rajo is declared to increase gasoline mileage considerably," said Campbell.

"Double capacity intake valves, placed in the center of combustion chamber, assures free, unrestricted flow of fresh air into the cylinder. This design is largely responsible for the marvelous performance of the new Rajo head.

Quicker Starting Assured

"Quicker and easier starting is assured by means of a hot spot that circulates hot air from the exhaust manifold through a jacket around the lower end of the intake pipe, assuring thorough vaporization of gasoline and preventing condensation.

"The spark plugs are located on the opposite side of head from valves, making them more accessible and out of the path of the carbon laden exhaust gases.

"The new Rajo head converts a Ford into the most powerful and efficient car in the world for its weight. It puts any Ford in the same class as Noel Bullock's Rajo equipped Ford that won the world's hill climb championship on Labor day, 1922, by 'zooming' to the top of Pikes Peak in 19 minutes 50 and 45 seconds.

New Headlight

"This new head weighs but 15 pounds more than the stock Ford head, and is about 34 degrees cooler running as the cooling system gives complete water circulation around each overhead valve.

"With his Ford thus equipped the owner can experience the joy of shooting up the steepest hills in high gear without pounding or heating; of pulling through deep sand or mud with ease; of passing bigger, far more expensive cars on the open road; of having at his command all the power that he will ever need and having under control a wonderful flexibility that will enable him to accelerate from 3 to 40 miles an hour within the distance of a city block."

### DENIES HE CHARGED FOR PARKING SPACE

Indignantly denying a report that indicated that he was responsible for charging motorists for parking space at the hill climb at San Juan Capistrano last Sunday, Aaron Buchheim let a little light into the situation.

"It is true that a charge of fifty cents was made for parking on part of the flat," said Buchheim, "but it was on a part that was rented by the motorcycle club."

"For several years the Forster brothers and I have let the motorcyclists have the use of the ground free of charge," said he. "The ground is tramped down and it has cost me \$100 or \$150 a year to work it up after the climb is over."

"This year a charge of \$200 was made for the use of the ground. I didn't have anything to do with that."

"Sunday morning came, and I saw that nobody had cut the weeds over on the land that the club had rented. So, voluntarily, I had my mowing machine cut the weeds so that the automobiles could get on."

"The charge of fifty cents was made by the motorcycle club, not by me, and on land that I didn't have anything to do with renting to them."

"When machines began to crowd up, I had my men fill a couple of places across a ditch, and let the machines come in free on my land. A motorcycle man told me I ought to charge, and I refused, saying I had provided no accommodations for the public."

### MANY NAMES FOR ORDINARY PICKLES

NEW YORK, April 14.—Lovers of the pickle will rejoice to learn that that succulent, if a bit tart delicacy, is at last to be standardized. In their recent convention in Atlantic City, the canners adopted fourteen points which hereafter will regulate all pickles. The convention nearly split because one faction wanted fifty-seven points, but the fourteeners won.

From now on Americans will know gherkin from a snake cucumber and a Dutch pickle from an English pickle. The action taken by the Atlantic City convention was largely the result of pleas by C. J. Sutphen, Chicago specialist.

### BEVY OF SANTA ANA BEAUTIES COVER 'CLARA'S' MANY FAULTS

Here is "Clara Phillips," valiant old 1909 Cadillac, the car that "hammers a little but has a good getaway." This delectable wreck, resurrected by Miss Corinne Crawford from the scrap pile, can still wiggle a wicked "shimmy" and has been known to run a full block without falling apart. "Clara" will be one of the contenders for first division honors in the Auto Resurrection Day races to be staged in Santa Ana by the American Legion committee, Saturday, May 5. Left to right—Miss Ina Crawford, Miss Corinne Crawford, ("Clara's" pilot), Miss Addie Hawkins; Miss Gloria Carlyle; Miss Odessa Crawford, and Miss Ruth Graves. Miss Graves, the Farm Bureau entrant, will steer the famous rock crusher, "Old King Tut."

### VALENCIA SHOW AUTO EXHIBIT IS PLANNED

The automobile show to be a feature of the California Valencia show at Anaheim will be one of the best ever held in the county, according to Herbert O. Davis, executive secretary of the Orange County Motor Car Dealers' association, which has assumed full responsibility for development of the automobile display.

Twenty-eight of the seventy spaces in the auto tent have already been reserved, according to Davis. Dealers throughout the county are co-operating in the enterprise and all are making efforts to obtain special machines for exhibiting.

### OFFERS REFUND TO STOCK SUBSCRIBERS

Original subscribers to stock in the Santa Ana Building and Loan association, who do not wish to continue membership under the re-organized plan, may have their money returned to them or receive a passbook if they care to continue their stock, according to an announcement made today by Cotton Mather, secretary. The office of the company is at 111 West Third street.

Mather pointed out that several months have elapsed since the original subscriptions were taken and that some of the subscribers may have since changed their minds about continuing membership.

"The original object has now been fulfilled, even in a large and stronger way than was anticipated when the movement for a new organization was begun several months ago," Mather said.

Mather said those subscribers who desired their money returned to them would receive it by check if they would notify him.

### BUSINESS DOOMS OLD FRENCH CAFE

PARIS, April 13.—Things may come, but many go. The celebrated Restaurant Paillard, long familiar to boulevardiers, with its heavy red curtains hiding its cozy salons from the eyes of the passersby, is to go the way of the Maison Dorée, the Cafe Anglais and the famous Tortois.

A large foreign banking house is soon to take possession of this animated corner where, in the eighteenth century, stood the barracks of the French Guards, a training school for cadets, Emperor Joseph II of Germany inspected the place in 1777 and many famous leaders had their military training there. In 1790 the barracks were torn down and the celebrated Cafe de Foy was going up when Louis XVI passed by one morning on his way to the trial before the national convention. That was the day after Christmas in 1792. This was then one of the most fashionable quarters of Paris. Mme. Recamier lived in the house of Mme. de Staël and had many newly rich citizens as neighbors.

SOUTH AFRICAN HEAD  
LONDON, April 11.—The Duke of York, King George's younger son, is spoken of as the next governor-general of the Union of South Africa. He may succeed Prince Arthur of Connaught in that capacity.

### DEATH CRASH DRIVER IS ARRAIGNED HERE

L. L. Meek, arrested on charges of operating an automobile while under the influence of intoxicating liquor, following an accident near Huntington Beach in which Otis Miller was killed, was arraigned before Superior Judge R. Y. Williams.

He pleaded not guilty and his trial was set for May 23. Meek and Miller were returning from Huntington Beach in Meek's car, when the latter hit a truck, and fatally injured Miller.

### BARUCH OFFERS HIS PLAN TO GERMANY

(Bernard M. Baruch, financier, former head of the War Industries Board and advisor of Woodrow Wilson, today advances a new plan for settlement of the German reparations crisis, which continues to menace world peace. In the following interview, Mr. Baruch asserts that the United States is in honor bound to see that the question is settled justly and humanely.)

(Copyright, 1923, by United Press)

NEW YORK, April 12.—German reparations should be fixed at about \$12,500,000,000. Cash payment should begin after two years, at first, consisting only of interest at two and one-half per cent, and moving up, on a sliding scale, to 5 or 6 per cent, with one per cent amortization.

American and Great Britain should have the keenest interest in seeing that the reparations figure is not placed either too low or too high. The depreciation of the mark, having wiped out all internal debts or practically every kind, an easily paid reparations total would mean that Germany could soon and without difficulty conquer the foreign markets of the world, due to the low fixed charges on her industry.

While the action of France in occupying the Ruhr was illegal and an act of war, she had no alternative, under existing conditions. Her act had forced Germany to realize that she can no longer evade her responsibility and the way has thus been cleared on both sides for a real settlement.

The foregoing are some of the outstanding points in a discussion on the reparations question by Bernard M. Baruch, former head of the war industries, member of the American commission to negotiate peace and the supreme economic council, and author of "The Making of the Economic and Reparations Section of the Peace Treaty."

U. S. Honor Bound

Mr. Baruch believes the United States is in honor bound to see that the reparations question is justly and humanely settled.

"We are under unfilled pledges, both to the Allies and to Germany, to aid in securing a fair settlement," he declares. "We promised Germany that if she would overthrow her military autocracy, we would aid her in securing the place among the nations to which the genuine German republic is entitled. We promised the Allies that we would help to establish the rule of right over might on the continent of Europe. Both these pledges we have failed to keep. For the deplorable conditions, which continue to exist, we are as much responsible as any one."

League in Medium  
"Above all, France must get her security and the fullest reparation within the limits of Germany's ability to pay, in order that she may restore her devastated area. This security, as I have said, can best be obtained under a world organization, such as the League of Nations was intended to be, and can still be, if the great powers would sincerely put their strength behind it."

### JORDAN MOTOR STOCK PRICE IS HIGHEST

The highest priced motor stock in the country today is the Jordan, according to Otto Kolberg, of the Orange County Garage company, Jordan distributors here. It is selling at \$300.

"Six years ago," Kolberg declared, "this common stock was given as bonus with the preferred which now sells at 90%."

"Jordan will sell in the first half of 1923 as many cars as the factory built in the whole year of 1922."

"Twice as many dealers are now selling the Jordan as handled the line a year ago."

"The April production schedule calls for 75 cars a day."

"The most important fact about the Jordan situation is the fact that all Jordan dealers make money due to the constantly growing demand for second hand Jordans at a higher price than can be obtained for any other car in its class."

### PRIZE LIST IN RESURRECTION DAY PROGRAM IS TOLD BY PROMOTERS

\$575 In Cash, Nine Cups and Merchandise to Make Up Awards

#### \$25 MUSIC PRIZE

Kiddies, Tall and Ugly Men, Fat Women and Beauties Remembered

Cash prizes totalling \$575, approximately twenty prizes of merchandise and ten prize cups are to be awarded by the promoters of Auto Resurrection Day to be staged in Santa Ana Saturday, May 5, a county-wide event, in which the American Legion posts of the county are co-operating. Prizes for the entrants in the various races will total \$550 while one cash prize of \$25 will go to the organization presenting the best musical program during the parade to be staged at 11 a. m.

The sum of \$375 is to be distributed among the drivers of the first seven cars to finish in the twenty-five mile race for the used car speed championship of Orange county. This will be distributed as follows: Winner, \$100; second, \$75; third, \$50, and \$25 each to the next four cars.

The sum of \$75 is to be distributed among the first three cars finishing in the race in reverse gear. Of this sum \$25 will go to the winner; \$25 to the car finishing second and \$25 to the car coming in third.

Obstacle Race Prizes.  
Prize money in the obstacle race amounting to \$60 will be split two ways, \$30 to the winner and \$30 to the car winning second place.

Realizing the possibility of injury to women drivers, the promoters have decided to bar all members of the fair sex from the 25-mile race and instead will stage a "petticoat Special" race for women drivers. The prize money in this event will total \$100 and will be split three ways, \$50 to the winner; \$35 to the car finishing second and \$15 for third place.

Following is the list of features for which merchandise prizes will be offered in the parade:  
Oldest used car in line.  
Oldest male driver.  
Oldest woman driver.  
Youngest boy driver.  
Youngest girl driver.  
Most novel and original feature.  
Car of model not later than 1913

**15,000 Miles!**  
Oakland's special steel alloy (non-burning) valves function perfectly for at least 15,000 miles without grinding! Average valves need grinding every 5,000 miles!

**15,000 Miles!**  
For 15 months, Oakland's engine has carried a written 15,000 mile guarantee against excess oil in the combustion chamber—proof of superior construction!

**40,000 Miles!**  
Oakland's costly, patented, bronze-backed crankshaft bearings, accurately fitted, require no attention short of 40,000 miles. Connecting rod bearings give similar service.

**The Inside Reason for Oakland's Success—Known Mileage**

After all, the success of a car depends upon the success of its engine. If ever a manufacturer set about deliberately to build the finest light-six engine that could be built—Oakland did! It built an engine so good that it can give you a definite gauge for estimating the minimum number of miles the essential parts will deliver—free from trouble or expense!

Come in and see for yourself that Oakland gives more for the dollar

## PRIZE LIST IN RESURRECTION IS TOLD

(Continued from Page 7.)

with most complete equipment of accessories.

Most beautifully decorated car ten years old or older.

Most beautifully decorated car not less than five nor more than ten years old.

Most beautifully decorated car less than five years old but of a model earlier than 1923.

Most beautifully decorated 1923 model.

Most beautiful woman in line.

Woman driving oldest car.

The ugliest man.

The fattest man.

The fattest woman.

The largest family in one car.

Tallest man.

Tallest woman.

Most dilapidated car running on own power.

Car coming the greatest distance to participate in the parade.

Car making greatest artificial noise.

Car containing the greatest number of children between the ages of 5 and 8 years.

Other Features

Cups will be offered as prizes for the following features:

For the chamber of commerce entering a car containing the largest number of Orange county bathing beauties in bathing costumes.

For the most beautifully decorated car entered by an owner residing outside of Santa Ana.

For the most beautifully decorated car entered by a luncheon club of Santa Ana (including the recently organized women's club).

For the most beautifully decorated car entered by a luncheon club other than from Santa Ana.

For the most beautifully decorated car entered by a lodge or organization (other than luncheon clubs) outside of Santa Ana.

For the most beautifully decorated car entered by a lodge or organization (other than luncheon clubs) out side of Santa Ana.

For the most beautifully decorated high school float.

For the most beautifully decorated Santa Ana grammar school automobile.

For the most beautifully decorated grammar school automobile from outside Santa Ana.

In the parade the winners will appear in divisions according to make. Dealers of Santa Ana are cooperating with the promoters of the parade in making the parade a success. Persons entering the parade are requested to communicate with the dealer handling their type of car in order to give the directors of each division some idea as to the number of cars he will have to provide for and to assist him in arranging his division to the best possible advantage. By next Saturday the promoters expect to be able to announce the streets upon which each division of the parade will form.

### WOMAN BANKRUPT.

SAN FRANCISCO, April 9.—Mrs. Daisy Bell Thomas, who says she has no occupation, filed a voluntary petition in bankruptcy in federal district court. She gave her assets as \$190 and liabilities at \$34,213. The assets are five pairs of shoes, five hats, six dresses, two overcoats, underwear and other clothing. She owes more than \$6000 to Tiffany & Co.

## TREE IS DAMAGED AS COUPE ENTERS GROVE

A small coupe registered in the name of F. Smith, 846 Riverline avenue, today was pulled out of the orange grove of J. A. Smiley at West Orange.

According to reports, the machine plunged into the orchard during the night, running 100 feet off the road, ruining an orange tree and stopping in mud and water several feet deep. Smiley had just irrigated the orchard.

The machine was not damaged and none of its occupants were hurt.

## FORD AUTO FOR EVERY WORKER UNIQUE PLAN

(Continued from Page 7)

taken care of on a similar basis of weekly or monthly payments. The same plan also applies to Ford trucks and Fordson tractors.

"There is no question about the practicability of a systematic savings idea. During the past year, for example, \$190,000,000 were deposited in banks by people throughout the country in 'Christmas Savings Funds,' to purchase gifts for others. Is it not reasonable to believe that a plan whereby the individual accumulates funds that will purchase a Ford car, thus bringing pleasure and profit not only to his family but to himself, will result in real satisfaction to the buyer?"

## \$200,000 ALIEN WORKS OF ART HELD IN S. F.

WASHINGTON, April 14.—The alien property custodian holds a treasure in rare art works without knowing how to dispose of them.

They were brought to the United States for exhibition at the Panama-Pacific exposition and seized as enemy property when war was declared.

The collection comprises paintings, works of sculpture and embroideries and is said to be one of the most valuable assortments of central European art ever brought to this country. The art objects were loaned at the solicitation of representatives of the United States, and Custodian Thomas W. Miller is anxious that they be returned to their former owners, or be sold in American markets and the money realized transmitted.

In the exhibit is the wonderful collection of the great Finnish artist, Axel Gallen-Kallela, which was brought here from an exhibition in Rome; the collection of Count Giula Andrassy, consisting of paintings, graphics, miniatures, sculptures and embroideries valued at \$40,000; two portraits by Horatio Gaigher, the Austrian artist, one of Pope Benedict XV, and one of Pope Plus X; landscapes and portraits by Karlowski; the paintings and embroideries of Robert Beremy; two portraits of John Quincy Adams; the Karoly Lotz and the Adolf Loos of Vienna. The whole collection has a pre-war valuation of \$200,000.

Instructions Needed  
The pictures were discovered among alien property on a recent visit of Custodian Miller to San Francisco. They were in a non-fireproof warehouse in danger of being destroyed. Arrangements were made to have them installed in the fireproof Palace of Fine Arts. They were adequately insured and the government has again assumed the responsibility of getting them returned. No action can be taken, it was said, until some one in authority issues the necessary instructions to the alien property custodian, Colonel Miller said.

"There can be no doubt as to the obligation of the United States to return these pictures. The Panama-Pacific exposition management gave specific assurances and entered into an agreement with the collectors and artists who were solicited to loan works of art to pay all the expenses of transportation and insurance of the exhibit against all risks to and from America, and assumes full responsibility for its safe return to Budapest."

Brought by Collier  
"Evidence that the United States government gave its sanction to this agreement is disclosed through the fact that the naval collier Jason was placed at the disposition of the exposition managers and it was on this vessel that the collection was transported to this country. These circumstances would appear to exempt the articles in this exhibit from being included in enemy-owned property within the meaning of the trading with the enemy act."

Colonel Miller suggests that on account of the financial situation in Budapest and Vienna it may prove advisable to hold a sale of the art works in the United States. Before this can be done, however, consent must be obtained from the owners. Efforts are now being made to do this.

### START LONG CRUISE.

LONDON, April 9.—Seeking trade for England the liner Cronos will start soon on a world trip of 40,000 miles. She will be renamed British Trade. Four decks will be transformed into showrooms, where stalls and booths will exhibit to possible buyers all kinds of British manufactures, from motor cars to engineering tools.

## 'SHEBA' BANDIT PROMISES TO REFORM

CHICAGO, April 14.—When "Honey" Sullivan, winsome Evanston miss, walks forth from the state prison, her offenses against society atoned for, she's "going straight."

"Honey" led a band of youthful bandits who for a time terrorized Evanston with a series of daring holdups. Then followed the arrest of several members of the gang. The more youthful members—one of them was only 15—soon broke down under the fire of questioning by experienced detectives and told all.

"Sheba" Led "Shells"  
"Honey"—Elizabeth is her name—was named as the "Sheba" leader of the band of "Shell" robbers. The girl, according to the story told police, was the general who planned the holdups. She also acted as a "lure"—luring some of the holdup victims.

She pleaded guilty to the charges and was sentenced to serve an indeterminate term of from 1 to 10 years. Along with her several of her "guilt" were found guilty and sentenced to jail.

One of them, Burton Bone, son of a Peoria minister, was sentenced to serve from 3 to 20 years in prison.

This is the story of 18-year-old bandit queen told police:

"One day I met a gunman. Through him I met Burton Bone. I went with him to Peoria. We were there 10 days, during which we 'kicked in' a house. Then we went back to Evanston."

Nabbed in Stolen Car

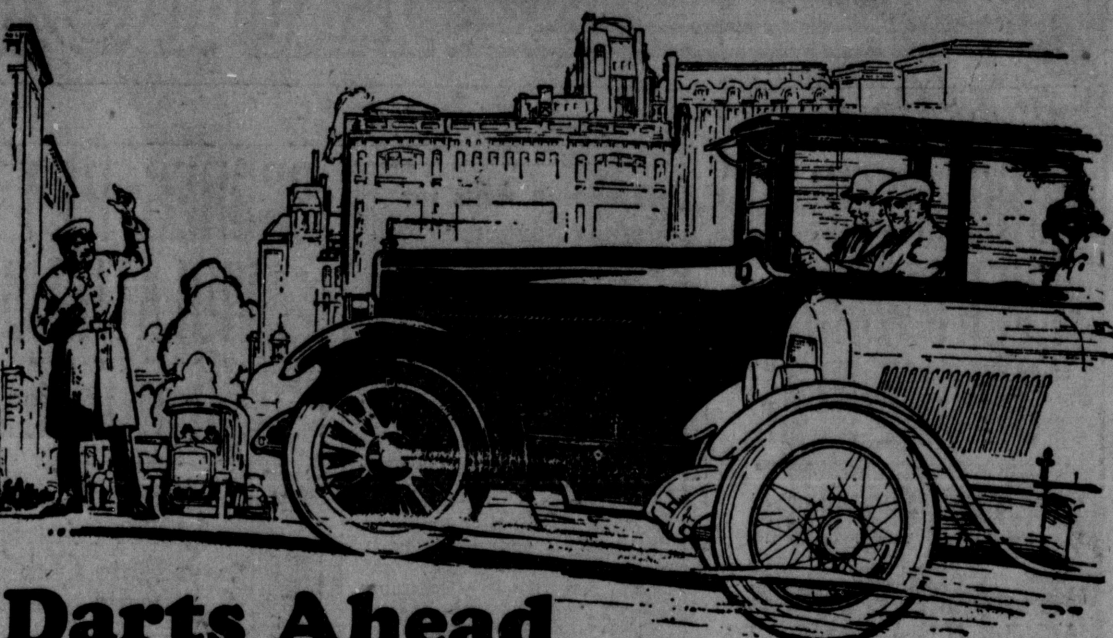

"The night they nabbed us we started out in a stolen car. We met one of the gang in Evanston. He suggested we rob Reinhold Hook, because his store was in a lonely place. Two of the fellows were to hold Hook, while another got the money. But they got 'cold feet.'"

"I decided to help them. They pushed me out when I went in the store, telling me to 'get to hell out of here!' After the 'job' was done we drove away and split the money."

### PARENT-TEACHERS MEET.

SAN JUAN CAPISTRANO, April 14.—The Parent-Teachers' association held their regular business meeting Wednesday evening at the high school auditorium. The members were entertained with a number of songs and a few instrumental pieces and a few instrumental pieces. After the meeting the members adjourned to the library where they were served with refreshments of individual pumpkin pies and coffee.

# NEW CHANDLER SIX

## Darts Ahead—in High Gear!

THAT sudden burst of speed which every driver wants and needs for pleasant traffic driving—you get it in a new Chandler.

Yet swift, silent acceleration for city driving is only one phase of the Chandler's performance superiority.

In its masterful attack of grades, the famous Pikes Peak Motor stands alone. Nearly all of the nation's most feared hills have yielded to its spectacular high-gear performance.

Powered far beyond the need of any driving situation, economical, quiet, long-wearing, and undeniably beautiful—the new Chandler is an exhilarating car to drive and a satisfying one to own.

The new low prices are an important reason.

Upper—1906 Buick, at the time considered as the last word in automobile building, and now in possession of the C. S. Howard company, California distributor. Lower—The millionth car manufactured by the Buick company, a 55 sport model. Standing beside the six cylinder model are three veteran managers of the Buick company.

**AUTOS NEARLY EQUAL PHONES IN NUMBER**

"The most accurate conception as to the number of automobiles there are in operation in the United States is obtained by the fact that there are almost as many automobiles in use as there are telephones," says A. F. Foerster, manager of the Orange County Haynes company, this city.

"According to figures supplied by John G. Truesdell, manager of the Radio Broadcasting station of the American Telephone and Telegraph company, New York city, there are 14,050,569 Bell telephones in the United States.

"While there are no official figures available, it is estimated that in addition there are 450,000 independent telephones, making a total of approximately 14,500,569. There are 12,500,000 automobiles in operation in the United States, according to the latest census. It has been authoritatively estimated that this number will be added 2,500,000 more cars this year as a result of the 1923 production.

"Unless the telephone makes the same proportionate gain, the automobile will equal, if not exceed, the number of telephones in America by the end of this year. "The fact that the automobile almost equals the telephone in numbers is a startling one and makes the automobile rank in importance with that of the telephone whose economic value to America's industrial and social life has been established for years."

**CHEVROLET ENJOYS MARCH PROSPERITY**

Reports from various factories continue to disclose that March was one of the best months in the history of automobile manufacture.

According to D. D. Andrews, manager of the Pashley Motor company, local distributor for the Chevrolet, the Chevrolet Motor company shipped 37,885 cars from its United States plants alone.

"This record for the month of March is by far the greatest in Chevrolet history," said Andrews. "Virtually the entire number mentioned have been sold. The company now is second in production and sales of all automobile companies. It is expected the March production will be exceeded during each of the spring and summer months."

**HEARING IN WHL ROW IS DEFERRED**

Hearing on a petition to admit to probate the will of Alma Frohling, wealthy Anaheim woman, scheduled to take place before Superior Judge R. Y. Williams yesterday, was continued to April 20, at 10 a. m.

Interest was aroused in litigation over the estate when Walter Eymann, a son of the deceased, filed three suits, in which he alleged that the other heirs, including Alma Pellegrin, had concealed \$290,000 of the estate, and had represented to the woman that he had received his share during his lifetime, whereas he had not.

After the first petition to probate had been filed, and Eymann had contested the suit, two other wills, drawn on the same day as the first, were entered for probate, with an amended petition.

When you have a photograph to frame bring it to Goff's, 317 W. 4th.

**COLORADO EDITOR BUYS TUSTIN NEWS**

TUSTIN, April 14.—Timothy Brownhill, who came here about eight months ago from Utah and began publication of the only successful newspaper in the history of Tustin, has sold his publication to John Winterbourne of Keota, Colo., it was announced today. Mr. Brownhill, who is reported to have received about \$5000 for his plant, will devote himself entirely to his new paper at Puente hereafter. The new owner will take charge of the paper May 1.

Mr. Winterbourne intends to sell his property near Denver and Greely, Colo., and make his home here. He served with the Y.M.C.A. in France and is said to be a boy leader. He has owned several newspapers before coming to Tustin.

**COLOR CHANGE PLAN AT POLY HELD DOOMED**

The question of whether the school colors at the high school should be changed, was still undecided today, but it was expected that when the matter comes up before the student body in assembly next Thursday it would be definitely settled—with the colors remaining as they have for these many years.

At a student body business meeting this week considerable discussion followed a motion from the floor that the colors be changed. It was finally decided to defer action on the question until next Thursday.

At the high school today it was stated that indications were that the colors would not be changed.

**CLASSES IN COOKERY WILL BE CONDUCTED**

Some cake-hungry Santa Ana family will enjoy a big cake, with all the trimmings, every evening next week with the compliments of the J. C. Horton Furniture company. It was announced today.

The cake will be baked by Mrs. Marchmont, well known in Santa Ana as a domestic science expert because of her previous visits here. Mrs. Marchmont will conduct a class in the finer arts of cookery each day from 10 a. m. to 12 p. m. and from 2 to 4 p. m. at the Horton store, and toothsome samples of her cooking will be given out.

The occasion is "National Gas Appliance Week," observed in a similar manner the country over. Mrs. Marchmont is at present a demonstrator for Sperry's flour and Wedgewood gas ranges. Her visit here last year attracted several hundred women.

**FULLERTON WOMAN IS BURIED TODAY**

FULLERTON, April 14.—Funeral services for Mrs. Eveline Baker, who died yesterday at the home of her son, S. D. Baker, East Maple avenue, will be held at 2 p. m. today in the Seale undertaking parlors, the services to be in charge of the Christian Scientists. Burial will be in Loma Vista cemetery. She is survived by a son, S. D. Baker, a daughter, Mrs. M. L. Stowall of Jacaranda Place, a granddaughter, Mrs. Ethel Oliver of East Maple avenue, a nephew, Joel Root, realtor of this city, and a sister, Mrs. Rachel Martin of East Amerige avenue.

Radio supplies at Hawley's.

**STEPHENS HILL ABILITY TOLD BY AGENT**

Let's go! According to T. C. Nelson, of the Nelson Motor company, local Stephens Six dealer, that is the first thing that enters the head of the average motorist when he tops a hill and sees a long straight stretch of road ahead.

"Now that spring is beckoning all to come out and play along the suburb California highways motor cars are being subjected more and more to that 'let's go' lure," Nelson said. "There are more miles of smooth, straight running to be had in California than anywhere else in the world, and naturally California cars are put over more long miles of it than elsewhere.

"As a result it takes a car of superior construction to stand the gauntlet, and Stephens cars are proving more popular every day just on that account.

"More and more motorists are learning every day that Stephens automobiles stay 'road-ready' longer, stand up under long drives better and cost less to run, in comparison with the power they have, than any other automobile anywhere near their price class."

**MAINTENANCE CASE HEARING DATE SET**

Rumblings of battle in the domestic turmoil of the Ernest family, Anaheim, were heard as Superior Judge R. Y. Williams set April 27 at 10 a. m. as the date for the hearing on an order to show cause why R. W. Ernest, Anaheim editor, should not pay separate maintenance to his wife, Ida Ernest.

The suit for separate maintenance was one of a series in which the public was apprised of the home troubles of the Ernest family. According to the suit, Mrs. Ernest remarried Ernest, after divorcing an intermediate husband, because he promised a financial settlement. She also alleged that he refused to allow her to meet his friends, and mentioned a trip which she says he took to a lake with two young women.

**CHANDLER CONQUERS BIG GRADE IN HIGH**

Another of the famous long climbs in California has been conquered by the Chandler with the Pikes Peak motor, according to L. E. Carpenter, Santa Ana distributor for Chandler and Cleveland cars.

"The well-known toll road over Mt. St. Helena, from Calistoga to the summit, is the latest grade to fall before the advance in automotive engineering," said Carpenter. "This road rises from an altitude of 365 feet at Calistoga to 2300 feet at the toll house on Mt. St. Helena, seven miles away.

"The seven miles of highway winds through the foothills along the side of the mountain. There are some smooth places—many rough places—and numerous deep pitches.

"The car to score this victory was a touring car. It carried four passengers, including the driver. Previously the car had been driven only 203 miles. It made the climb in high gear, without a pause."

**HUPMOBILE IN NEW 3-MONTH SALES MARK**

Sales of Hupmobiles the country over for the first three months of 1923 were nearly double those for the best previous first quarter: materially exceeded those for the record three months' business of April, May and June, 1922; and March sales were the greatest of any single month in the fifteen years of the Hupp Motor Car corporation's history.

This announcement, made today by Otto Haan, of the Cadillac Garage company, local Hupmobile dealer, is indicative of the tremendous demand over the entire United States for motor cars manufactured by the older and more firmly established motor car companies.

"Hupmobile sales for the first quarter of 1923 totaled 12,034 cars of the 40,000 scheduled to be produced in 1923, compared with 6,389 for the first three months of 1922, and 11,290 for April, May and June, 1922." Haan said. "March sales were 5,024, eclipsing the former record of June, 1922, by more than 1,000 cars. Export sales for the first quarter were the greatest since the latter part of 1920, the best export period in Hupp's history."

**The millionth BUICK**

**It's Meaning**

**BUICK** has reached and passed the One-Million mark in the production of Valve-in-Head motor cars. This means that over One Million buyers have been convinced of the superiority of Buick construction. It also means that during two decades Buick engineers have developed and improved the Buick Valve-in-Head motor to such an extent that the 1923 Buick is without an equal.

Buick is the unquestioned champion of the Valve-in-Head principle, the type of engine used in all automobiles, airplanes and motor boats, where speed, power and dependability are absolutely essential.

The world's fastest racing cars—the world's fastest motor boats—the world's best and safest airplanes—are equipped with Valve-in-Head motors. Surely a tribute to Buick principle.

For twenty years Buick engineers have endeavored to cater to the wants of the buying public in the development of the chassis as well as in the equipment and refinement of the body. All of which accounts for the popularity of the 1923 line of fifteen Buick models—complete in every respect.

Convince yourself of Buick superiority by a critical inspection of the chassis and by a demonstration.

### LODGE HERE ACCEPTS EIGHT NEW MEMBERS

Eight new members were accepted for enrollment by Santa Ana lodge Fraternal Brotherhood, when fifty-two members met Thursday night at the Modern Woodman hall. It was announced today. P. A. Trickey, president, presided. These new members were accepted: Harry L. Briggs, Alberta M. Briggs,

William Branch, Gordon Branch, Ralph Coultrap, Leona Kiser, James A. Randel and Zera C. Hagman.

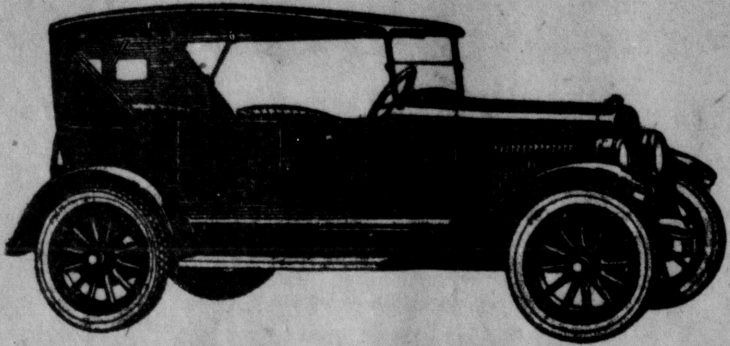

District Manager Francis Bartle announced that the present membership drive would close May 31. He was instructed by the lodge to invite the drill team of Long Beach lodge to help in the initiation of fifty new members that night, as that is the goal set by the lodge for that occasion.

The juvenile department will hold its session Thursday night at 7:30 o'clock. The senior lodge will begin at 8:15 o'clock.

After the meeting last night ice cream and wafers were served. Mrs. J. H. Briggs and J. D. Sanborn were the committee in charge.

## PLAYERS SPEED FINAL WORK ON COMEDY

Grease paint, lip sticks, rouge, eyebrow pencils, crape hair—all the various adjuncts of theatrical makeup—were much in demand here today as members of the Santa Ana Community Players' association were making final preparations for the first of four performances of "Good Gracious Annabelle," that they are to give at the Temple theater here, beginning Monday night.

Much interest has been aroused in this event among the playing fraternity, not alone in Santa Ana but in other communities of Orange county, it was said.

The Laguna Beach Players will attend Tuesday night's performance forty strong, according to a letter that Director Ernest Grozier Phillips received from Mme. Ann Dare, one of the leaders of the beach organization.

More than 120 tickets have been taken by the Santa Ana Lion's club, it was stated. The Lions plan to emit a vast roar in welcome of their members who are participating in the comedy. These members of the Players are Harry Brackett, Carson Smith and H. B. Van Dien.

Director Phillips today announced the cast of characters, as follows:

James Ludgate, George Wimbleton's man, Harry H. Brackett.

Wickham, house detective at the St. Swithin, Warren C. Fletcher.

Wilbur Jennings, an indigent English poet, R. Carson Smith.

Ethel Deane, an artist in distress, Juanita Wright Fletcher.

Alfred Weatherby, whose father can no longer pay his bills, Glen G. Williams.

Gwendolen Morley, a poor girl at the mercy of rich parents, Helen Kendall.

Alec, page boy at Hotel St. Swithin, Clair Hansen.

William Gosling, a lawyer, H. Milton Daley.

Titcomb, clerk at the St. Swithin, Stanley Wheelock.

George Wimbleton, who owns an estate on Long Island, A. W. Branch.

Annabelle Leigh, who has a husband somewhere, Gladys Simpson Shaffer.

John Rawson, a wealthy mine owner, H. B. Van Dien.

Harry Murchison, whose income is large but uncertain, George Gerwing.

Lottie, under-cook at Wimbleton's, Alice Makosky.

The synopsis of scenes follows: Act 1—Hotel St. Swithin, New York.

Act 2—Servants' Hall at Wimbleton's Country Place.

Act 3—Lodge Garden at Wimbleton's.

**DRILLING TO BEGIN AT VALLECINTO, NEW TRACT ON BOULEVARD**

With every indication pointing to the immediate fulfillment of their contract, the announcement that the Globe Petroleum corporation has secured the oil rights on Vallecinto, the new subdivision just east of Long Beach boulevard on the Riverside-Redondo boulevard, is the subject of much speculation. Preparations are being made for an early start on the drilling work, according to Del Forte & Ryerson, selling agents of the Vallecinto property. The Globe company already has the lumber for the first derrick on the ground, and the site for Vallecinto Well No. 1 has been chosen. Arrangements for the delivery of all necessary machinery have been completed, and actual drilling will begin as soon as possible.

Coincident with this activity, the machinery for the development of the Vallecinto tract along residential lines is being received and put in action.

Del Forte & Ryerson point out that Vallecinto will be, in reality, an entirely new community. The expectation of the subdividers is to build up a commercial area along the Riverside-Redondo boulevard frontage, in which will be stores of every description to serve the needs of the neighborhood.

During the past few days there have been many rumors that oil has been found in the nearby Compton field, and at any moment it is expected that news will come of the successful termination of one or more of the drilling operations now in progress.

**ADMINISTRATOR FOR ESTATE NAMED HERE**

Helen Griffin was appointed administrator of the estate of the late Anna Underwood, to succeed Belle Chaffee, Garden Grove woman who was killed in an automobile accident in Brea canyon about January 1.

Mrs. Chaffee was appointed administrator in the estate by Superior Judge Z. B. West, before her death.

Letters testamentary in the estate of the late Mrs. Gray were granted to Cora B. Huber by Superior Judge R. Y. Williams.

**WOMAN BOUND OVER IN RUM MAKING CASE**

Following testimony of City Marshal J. A. Porter, Newport Beach, Margaret Osgood, known as Madame La Rue, arrested in a raid at her home several weeks ago, was held to answer by Justice J. B. Cox on charges of manufacturing liquor.

A still and several gallons of liquor were exhibited in court.

Deputy District Attorney D. G. Wetlin represented the people, while Attorney William F. Menton was counsel for the defendant.

W. P. Fuller Co., paints varnishes, plate and window glass, mirrors, 400 W. 4th St., Phone 581.

Radio supplies at Hawley's.

### DATE OF SAILOR'S TRIAL HERE IS SET

A special venire will be called in selecting a jury for the trial of George Fellows, sailor, arrested at Fullerton several months ago, on serious charges, Superior Judge R. Y. Williams stated in selecting April 16 as the trial date. Fellows was arrested on a train at the Fullerton station. Arraigned, he pleaded not guilty, and the trial date was set.

### ORANGE MAN'S WILL FILED FOR PROBATE

The will of the late Sylvester W. Hutchins, who died at Orange at the age of 84 years, April 6, in which his estate of \$17,000 was divided among 19 nieces and nephews, was filed for probate in

superior court here. Sylvester Morrow and Walter Hutchins were petitioners. The estate consisted of two houses and lots, worth \$13,000, and stocks and bonds completed the total.

### SURVEY SHOWS AUTO TIRES ARE IMPROVED

A recent tire survey brought out the fact that the demand for tires in 1922 averaged 2.17 tires per car as compared with 4.85 in 1916. The decreased requirements are explained by the fact that cord tires have almost completely supplanted fabrics on all cars other than the smaller ones. Consequently, motorists today are getting a great deal more service from tires than they did five or six years ago, according to Ray Lyon, local Miller tire dealer.

### A REAL SERVICE TO THE PUBLIC

Liberal Policy is Appreciated by Automobile Owners

It is generally thought that big corporations are greedy and try to get the most out of the public. But the Western Giant Tire Co. is different. It is a company that has been in the tire business for over 20 years and has built up a reputation for honesty and fair dealing.

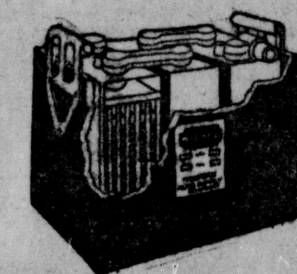

Although nearly all the companies have made two price advances recently, this company is still selling its tires at 1922 prices and is announced that it is able to do so because of having bought, before the advance, about 50 carloads of tires.

A service of this kind is something that motorists will not soon forget. It is anticipated that all the tires that are to be sold at 1922 prices will be moved quickly through the stores operated by this company in the West.

### Auto Supply Headquarters

No matter what make of car you have, the "Western Auto" Stores can supply you with everything you need. We have a complete stock of auto supplies and equipment and we are able to give you the best service. Why pay more than our price? Get one now.

### Wizard Storage Batteries

\$16.85 and Up (Guaranteed one year)

One of the most important parts of a car is the battery—and nobody when a battery is needed the motorist wants one that will give the best of service. Every Wizard Battery is thoroughly inspected and charged before it is sold, and is a dependable battery for every purpose. Why pay more than our price? Get one now.

### Radiator Ornaments

Beautiful Ornaments improve the appearance of any car. The one pictured is made of brass and heavily nickel plated, so it will not rust—besides the wings we have for your approval. Bismarck, Speed Nymphs, Elk Heads, Eagles, etc., priced from

50c to \$4.95

### Auto Tents

\$9.90 to \$37.50

We carry everything that is needed for camping equipment at prices that are very reasonable, and the following list may be very helpful to you in selecting:

Camp Chairs Folding Tables

## WESTERN GIANT and PHARIS ROADGRIPPER Cord Tires

The "Western Giant" is exactly what its name implies—it is extra thick, has a high flat tread; tapered shoulders for strength; long staple cotton, stretch-proof beads, suction cups to prevent skidding—all these are outstanding points that make what we believe to be the best tire produced by any factory at any price. Although our guarantee is for 12,000 miles, we have just stacks of letters on file at our main office telling us of "Western Giants" that have gone much farther—some to 18,000 miles.

The "Pharis Roadgripper" is a standard Quality Cord tire—it is full weight and of the highest grade construction throughout—guaranteed 10,000 miles (except 30 x 3 1/2, which is 9000 miles). The fact that we have handled "Pharis" tires since 1914 and during that time our business has grown from one store to over 65 stores, should be proof to you that our offer of high quality tires at low prices is genuine—we advise you to note the prices in the shield above, carefully—and get a set of "Western Giant" or "Pharis Roadgripper" now.

### Fabric Tires

Thousands of customers come back to us year after year for more fabric tires because they get good service. We handle three grades: The Western Giant, which is the finest material and workmanship procurable, guaranteed 9000 miles; the Pharis, which is standard quality, full size and weight and our "old standby" since 1914, guaranteed 7000 miles; also the Nebraska, a really good, serviceable tire at an extremely low price, guaranteed 6000 miles.

Nebraska Fabric

SIZE	NEBRASKA Fabric	PHARIS Fabric	GIANT Fabric
30x3	\$ 6.85	\$ 7.55	\$ 9.45
30x3 1/2	7.95	8.80	10.75

## NEW TRUSTEES PICK MAYOR IN SECRET

The mayor of Santa Ana has been named, but which one of the five members of the new council has been accorded the honor remained today looked in the minds of the five men who next Monday evening will take up the reins of government.

"Closed covenants, secretly arrived at," they adopted by the five men when they held a conference last night.

They pledged each other to secrecy, and their selection will not be disclosed until the board organizes, following final adjournment of the old board.

While none of the councilmen would today affirm or deny the report, it was rumored that tentative appointment of heads of departments was made. Whether all of the present department heads were renamed was another question that was also a secret with the five men.

### Chapman Named?

The general opinion here today was that the council members had selected Charles H. Chapman, member from the third ward, and water and sewer commissioner on the present board, to be mayor. It was pointed out that Chapman received the highest number of votes of any of the candidates for city council. This fact, together with the further fact that Chapman has been recognized as a very competent councilman, were pointed out as reasons for the conclusion that he had been chosen to serve as the next mayor.

It is understood that Chapman has repeatedly told his colleagues that he would not accept appointment as president.

Tubbs' name, by rumor, is freely connected with the mayoralty and hosts of his friends today declared their belief that the honor has fallen to him. They point out that in point of continuous service, he is the oldest member on the council, and cite this as a possible factor in determining his selection as president of the board.

The old council will meet Monday evening at 7:30 o'clock. It will dispose of such pending matters as can be definitely disposed of and adjourn.

### Three To Retire

When the board adjourns three members will step down and out. Two have served four years and one twelve years.

Mayor John G. Mitchell, first ward; H. H. Dale, fourth, and W. A. Greenleaf, fifth, are the men who will say goodbye to activities at the city hall.

J. W. Tubbs, second, and Chapman, third, are the men who will remain, Tubbs starting his third term and Chapman his second. The new members are Claude L. Killeen, first; George McPhee, fourth; and Nat H. Noff, fifth. McPhee served two terms prior to four years ago, when he was succeeded by H. H. Dale. He succeeds Dale as representative from the fourth ward.

## REVIVAL MEETINGS LURE BIG CROWDS

The LeGrand-Howe evangelistic company, working under the auspices of the First Christian church here, faced another record audience last night in the second of a series of meetings. Virtually all the fifteen hundred available seats were occupied last night. Workmen were busy at the big tent, corner of Third and Birch streets, today, making every arrangement for the comfort of the large gatherings.

The preliminary half-hour of these meetings is devoted to community and chorus singing and to musical specialty numbers by the "Musical Howes." A feature of last night's meeting was a moribund dust.

The Rev. John H. LaGrand last night spoke on "Faith." His arguments are forcefully and practically presented. The sermon tonight will be a topic from the life of Christ. Tomorrow night the Rev. LaGrand will use as his subject, "Faith and Revolution, or God and Revelation."

The "Musical Howes" and Evangelist LeGrande will participate in the program at the meeting of the Men's Bible class at the Temple theater tomorrow morning at 9:25 o'clock. The Rev. F. T. Porter, pastor of the First Christian church, will discuss the Bible.

The session also will be a booster meeting for the Highland Park Men's Bible class convention and banquet Thursday evening. A special train will be run over the Pacific Electric, leaving Orange at 4:30 p. m. and Fourth and Main streets, Santa Ana, fifteen minutes later.

### OBITUARY

#### THOMAS DEAN RUSSELL

Thomas Dean Russell was born in Derby, Sedgewick county, Kansas, November 11, 1908, and died at the home of his parents, 929 South Birch street, Santa Ana, Calif., April 10, 1923, at the age of 14 years, 4 months and 29 days. He was an active member of the Presbyterian church while in Kansas. Dean moved with his parents to California more than three years ago.

He attended the junior high school until two weeks before his death. He was an active member of Troop 10, Boy Scouts, also a member of the Y. M. C. A. of Santa Ana.

He leaves to mourn his death his father, mother, four sisters and a brother.

Funeral services were held Wednesday.

Swing and Stand Frames for photographs at Goff's.

## S. A. STUDENT FIRST PLACE WINNER IN ORATORY CLASH

Congratulations were pouring in today to the Santa Ana high school and to one of its students, John Harper, who won first place last night in the Orange county division of the Southern California Citizens' Committee oratorical contest held in the high school auditorium here.

Seven contestants, representing Orange, Anaheim, Fullerton and Huntington Beach high schools, competed for the \$50 prize offered to the county winner, and for the privilege of representing Orange county in the semi-final contest to be held at Riverside, April 24.

The final contest between the winners of the six semi-final groups will be held in Los Angeles, May 11.

Miss Alice Richards, also of Santa Ana high school, tied for third place last night and received many appreciative congratulations after the contest.

Harper's subject was, "John Marshall's Great Contribution," as was also Miss Richards'.

Other contestants were Miss Dorothy Bishop, of Anaheim, who was given second place and whose subject was, "Alexander Hamilton, the Master Builder"; Frank Nusslein, of Orange, on "The Constitution, Our Citadel of Freedom," and Frank Watson, of Orange, with the same subject, who were given third place with Miss Richards; Miss Marjorie Lucas, of Fullerton, with "The Constitution, Our Citadel of Freedom," and Raymond Vandruft, of Huntington Beach, with the same subject, who were given fourth place.

The number of tied places indicated the difficulty of judging the contest, which was close throughout. The judges were, Albert Small, Albert Fincher and Paul Miller, all from Long Beach high school.

Builder of Justice.

"The great builder of American justice," said Harper, in his oration, "was John Marshall, who forgot all thought of self in his sacrificial service to the cause for which he worked."

Harper pointed out the outstanding cases in which Marshall's decisions had contributed permanently to the development of a supreme, high principled American jurisprudence.

The strong personality of the man, his strict attention to the details as well as the big things in his work, his devotion to the Constitution, and his determination that it should be upheld, protected and strengthened by the department of justice, constituted the high lights in Harper's oration.

Ernestness, poise and strength marked Harper's oration, which was excellently delivered from a public speaking point of view.

All Show Ability.

"An increasingly high standard of public speaking obtains in the high schools," was the comment heard on all sides after last night's contest.

Each of the seven contestants displayed marked ability, and it was said that the Southern California Citizens' committee could indeed be proud of the contestants.

A greatly appreciated musical program, presented by department

of music of the Santa Ana high school, supplemented the oratorical program.

A band number, under the direction of S. J. Mustel, was "Last Night's Overture" by Kellar Bella.

The boys' Glee club gave "To Thee, Oh County," and the boys' quartette gave a double number, "Lucky Jim," and "Go Ask Papa."

Spectacular Number.

A spectacular number which brought forth quickly appreciative applause as soon as the curtain was drawn, was a mixed chorus number, "Garden of Eden."

Members of the chorus were dressed in Spanish costumes, with bright sashes and scarfs, and the color in the scene made it truly Spanish.

Geraldine Rodriguez, Santa Ana's popular little Spanish dancer, gave a brilliant Spanish dance during the singing of the chorus number.

The glee club numbers were under the direction of Miss Margaret Wickes, head of the high school music department.

WASHINGTON, April 14.—Veterans of the World War, and to a limited extent those of other wars, are entitled to many new benefits under legislation passed at the end of the last session of congress, and clarified today by the Veterans' Bureau.

Soldier relief is liberalized by the new act, which amended and modified the existing war insurance act, the bureau stated. Many of the new provisions were sponsored by veterans' organizations.

Hines, director of the Veterans' Bureau, said:

"One of the most important provisions of the new act is an amendment providing in effect:

"1. That every officer and enlisted man or any person in the active service under the War and Navy Departments, who was discharged or who resigned prior to the establishment of the Veterans' Bureau on August 9, 1921, and every such person in the active service on or before November 11, 1918, who, on or after August 9, 1921, was discharged or resigned, shall be conclusively held to have been in sound condition when entering the service, except as to such disabilities as were noted of record when or prior to the time he entered the service."

"2. That an ex-service man who is shown to have a mental disease or an active tubercular disease of 10 per cent or more, and such showing was made upon examination by a medical officer of the Veterans' Bureau or other qualified physician, within three years after separating from service, shall be considered to have acquired his disability in such service or to have suffered an aggravation of

pre-existent tubercular and mental disability. In addition to extending this period from two years to three years in mental and tubercular cases, this provision eliminates the qualification that the tubercular condition must be pulmonary to entitle one to the benefits of the presumption.

"There is also an amendment which extends the time in which a certificate of disability may be ob-

tained by providing that such certificate may be obtained prior to March 4, 1924, and in another amendment it is provided that such certificate, except in case of fraud, shall be incontestable evidence that the injury for which it is issued was suffered in or aggravated by the military service.

"Another provision of the new act which is also applicable to veterans other than the World War

veterans provides that where a veteran of any war dies after his discharge or resignation from the service and does not leave sufficient assets to meet the expense of burial and transportation of his body the United States Veterans' Bureau will pay for a flag to drape the casket and also for burial expense will pay a sum not exceeding \$100.

## STRENGTH AND SAFETY IN THE BODY OF STEEL

If you could see the main body structure of Dodge Brothers Business Coupe before the enamel is baked on, and before the interior is furnished, you would be profoundly impressed by its strength.

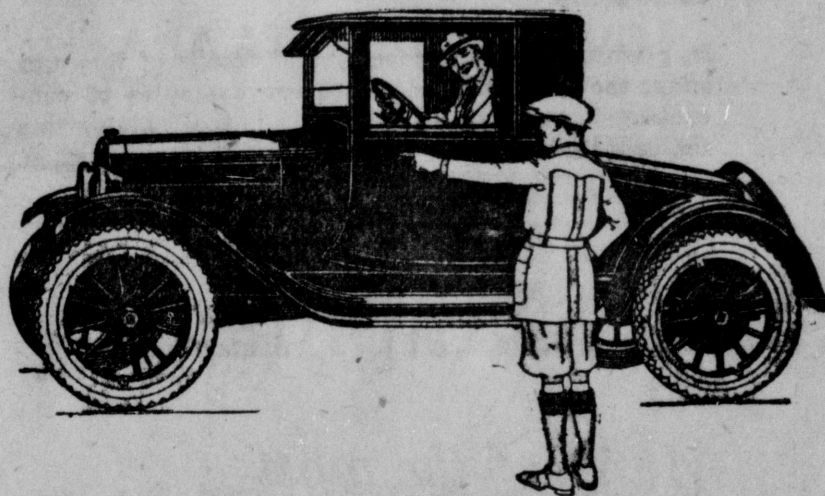

You would see that every panel, every pillar, and every rib is steel—that even the door sills and window moldings are steel.

You would see that all of these parts and sections are electrically welded together into one staunch steel body, with no bolts or rivets to work loose, nothing to rattle or squeak or warp.

And you would realize that, like the all-steel Pullman coach, this unique construction—originated by Dodge Brothers for this car—represents the last word in protection to passengers—the ultimate achievement in closed car sturdiness.

The price of the Business Coupe is \$1170 delivered

## JEWETT SIX PAIGE BURET

\$1270  
Delivered

Delivered member of church and has been in business 3 1/2 yrs.

## Why Jewett never "stalls," "jerks," nor clashes Gears

**Y**OU can change gears in a Jewett as fast as you can move your hand—or as slowly as you please. No "clash" is heard—and you never "miss." You can even drop from "high" to "second" at 30 miles an hour. Let up the clutch pedal as fast as you can move your foot, and Jewett neither jerks nor kills its motor.

Such superb handling ease comes largely from the new Paige-type Jewett clutch. Its driven member weighs less than 3 1/2 pounds, one-third the usual weight. So it stops spinning instantly—adjusts itself to speed changes quickly—helps you change gears. And the six clutch springs instead of one, and twice the friction surface of the ordinary clutch, give the smooth, gradual engagement which prevents jerking or motor stalling. Please try Jewett's ease yourself.

## Finer Cars—Lower Prices

### Touring \$1545 delivered

ONLY by seeing the new Stephens Sixes, now on display at the Nelson Motor Company showroom, can you appreciate their exceptional value.

Skillful engineering, advantageous large-scale buying of raw materials and efficient manufacturing have been combined by the Stephens builders to produce a line of exceptionally fine motor cars at greatly reduced prices.

In performance and economy and details of line and body, the new Stephens Sixes are examples of concentrated quality, embodying all the value-giving features that make for perfect low cost transportation.

**THE GREAT ELUSION**

BY E. PHILLIPS OPPENHEIM

Copyright, 1922, by E. Phillips Oppenheim  
Arrgt. NEA Service, Inc.**BEGIN HERE TODAY**

Vendetta begins between MICHAEL SAYERS, noted criminal, and SIR NORMAN GREYES, once of Scotland Yard, when Sayers' beautiful housemaid, JANET, saves him from Sir Norman by shooting dead an officer sent to arrest him. Greves falls in love with Janet and proposes marriage. Michael disguises himself and attends the wedding reception. Having stolen a pearl necklace, the gift of Sir Norman to his bride, Sayers returns them indirectly to Janet. Michael buys from the divorced wife of a politician a bundle of manuscript, evidence against the lady's former husband and his confederate, the well-known Lord Kindersley. Sayers refuses ten thousand pounds for the evidence for publication because he is in love with Beatrice Kindersley.

It was toward the close of a dinner party at Kindersley Court, in Devonshire, where Janet and I were spending a fortnight, that our host suddenly directed the conversation to me.

"One has heard a great deal of your successes, Greyes, especially during your last few years at Scotland Yard. What do you count your greatest failure?"

"My inability to bring to justice the greatest criminal in Europe," I replied after a moment's hesitation. "I had him on my book for three years, but when I retired, he was still very much at large."

"What is his name?" Lord Kindersley asked with some interest. I smiled. "A name, with him, I suspect, is an affair of the moment. I have known him under a dozen different pseudonyms; but his real name is, I believe, Michael. He did me the honor to attend my wedding reception as Colonel Escombe."

I happened to meet the glance of Beatrice Kindersley as I looked across the table. "But tell us about this man Michael?" Lord Kindersley intervened. "I remember, seven or eight years ago, hearing something about the duel between you and fellows at Scotland Yard and a wonderfully led criminal gang. Where is the fellow now?"

I shook my head. "I shouldn't have the faintest idea where to look for him. If he comes into the limelight again, my friend Rimmington at Scotland Yard will certainly send for me."

"And you would join in the hunt?" our host persisted. "You would do nothing of the sort," Janet intervened, looking across at me. "That is a promise."

I smiled back at her reassuringly. Prosperity and peace of mind had agreed with Janet. The dignity of wifehood sat well upon her. Her complexion seemed to have grown more creamy, her carriage always graceful, more assured. There was no woman in the county more admired than she, certainly no one less spoiled. I sometimes think that if she had had her way, she would never have wandered at all outside our little domain.

"There is just one possibility," I remarked, "that I might not be able to evade the challenge. If I do not go after Michael, he may come after me."

It was precisely at this moment that the amazing event happened. We were a party of twelve at dinner, seated at a round table in the center of a large banquet hall of Kindersley Court. The room was rather dimly lighted, except for the heavily shaded table lamps. The two footmen had left the room, presumably to fetch the coffee, and the butler standing behind Lord Kindersley's chair was the only servant in attendance. Suddenly every light in the place went out, and we were plunged into the most complete darkness.

"Never knew such a thing to happen before," our host declared in an annoyed tone. "Somebody must have been tinkering with the powerhouse. Fetch some candles, Searle."

The butler turned to grope his way toward the door, but he was not allowed to reach it. From various parts of the shadowy spaces on every side of us, little pin-points of fire blazed out and steadily approached, without sound or movement. One of them came to a standstill immediately behind Lord Kindersley's chair. Wielded by some unseen hand, the dazzling brilliancy of a high-powered electric torch was flashed round upon twelve amazed faces. Then a strong voice broke the spellbound silence, a voice still and cold and perfectly modulated.

"Ladies and gentlemen," the intruder said, there is no need for any particular alarm. This is, to use a slang phrase, a 'holdup.' We have automatic pistols, and I trust that you will realize the absurdity of resistance."

"God bless my soul!" Lord Kindersley exclaimed. "Where are all my servants? How the devil did you get in?"

"It is scarcely policy to let you into the secret of our methods," the same cold voice continued. "But I have no objection to telling you that we came in through the front door, that your servants are locked up and guarded in the servant's hall very much as you are, that your telephone wires are cut, your electric-light supply is in our hands, and the lodge-gates guarded. You ladies will kindly place all the jewelry you are wearing, upon the table in front of you. There must be no delay, please, or any attempt at concealment."

"What shall I do?" the woman next to me whispered hoarsely. "I am wearing my emeralds—Jack implored me not to—they are worth 20,000 pounds."

"You will have to do as the others are doing," I told her. "The first act of this little drama must be played out according to orders."

She unclasped the necklace with trembling fingers, and the unseen figure behind Lord Kindersley's chair spoke again.

"Will it be Sir Norman Greyes who struts across the stage in the second act?" he asked mockingly.

Then I knew who was there, and I remembered that Michael had sworn to take my life when and how the opportunity offered. I was an easy mark for him, sitting there, but somehow the idea of assassination never had any terrors for me.

"I may occupy the stage for a little time," I answered, feeling for my wine through the darkness. "But after all, it will be the third act that counts. Which will you choose, I wonder, Michael—the gallows at Wandsworth Gaol or the electric chair at Sing Sing?"

This, of course, was sheer bravado, a touch of melodrama of which I repented as soon I had indulged in it. I heard the click of a weapon, and in the steady glare of that small circle of light I saw the flash upon its barrel as it drew level with my head. There was a silence as poignant as it was hysterical, then a cry from Janet rang through the room.

"A familiar voice, I fancy, Michael said coldly as he lowered his weapon. "You do well to intervene dear lady. Some day or other, I think that your husband will kill me or I him; but unless he hunts me with a posse of policemen, it will be when we are both armed and the odds are even."

"May I speak, please?" Beatrice Kindersley asked.

"I have put my rings and bracelets upon the table. I am wearing around my neck a miniature set with brilliants. It is not really very valuable, but it was left me by a relative. May I keep it?"

The light flashed for a moment upon the pendant which she seemed to be holding forward for examination, flashed on the little heap of her jewelry upon the table.

"Pray keep your miniature," the voice conceded. "Do me the further honor, if you will, of replacing your jewelry upon your fingers and wrists. We are not here to rob children of their baubles."

## REGISTER SPORTING NEWS

## Hunting in Alaska

(The articles appearing in The Register were written by George Briggs, well known Santa Ana sportsman, while he was on his fifth trip, in 1920, to the far north. Mr. Briggs has just left Santa Ana for his sixth hunting trip to Alaska).

## CHAPTER 3

I was once told by a very wealthy fellow passenger, a man from Boston, who had suffered physical impairment or breakdown, that he had traveled civilized and uncivilized Europe and Asia, but for scenery and complete rest, nothing had ever appealed to him like the inside passage to Alaska.

## Where The Drummond Sank

We are only now passing in the narrow channel where the Str. Drummond went down loaded with concentrates and it stands as a monument to remind one that even in these peaceful waters "ships go down at sea." I have just met a character from Petersburg, an old sour dough from appearance and talk.

Was I going into Alaska—had I ever been there? Yes, for bear. BEAR, why they are here by the thousands—so tame they had to be kicked out of the way—hides worth nothing, but they fed the carcasses to the fox farms—BEARS, why I could kill more than I would want—there was nothing to that.

## Wants Brown Bears

But I didn't want black bear, I wanted the big brown fellows, the Kodiak, oh, that was different. And fish—everyone is talking salmon—the King—the Dog, the Hump—any old kind of salmon, and we have on board everybody and everything for the cannery, from the bright-eyed, shrewd superintendent, Mr. Brown of Wrangell, all headmen and machinists, to the steersman I before alluded to—only more of them.

They are going up to get the plants ready and they talk their wares as you bear, bear and orange men talk yours. And boats—we have passed a dozen of them today, all spick and ready, going north for the rush of the "Silver Horde."

It is splendid this morning and seemingly no colder than yesterday, although more snow is on the lower hill. I was surprised to see the number of well-fed, well-dressed, first-class Chinese passengers aboard that I had not noticed until now. They look prosperous, and I guess them to be labor contractors, or foremen. Shouldn't judge them related to my 100-year-old "Frisco chink. More fishing boats all north bound. Keels and islands everywhere—pity the boat caught here in a rough sea and a heavy night. No wonder we can write the obituary of so many Alaska boats making their maiden trips, and yet, the loss of life is small.

We are crossing Dixon entrance and due at Ketchikan, first American port in Alaska, about 4 p. m., for which place we have quite a passenger list. We arrived on time and laid there until about 10 p. m. and picked up the hour of time.

## In Show Packing House

I awoke in the morning just as our boat was being made fast to the dock at Wrangell. Took time ashore to go through a packing house which they are just now putting in shape for the season's run to begin about June 1st. I had the pleasure of coming up to the Spokane with the president of the cannery, Mr. O. A. Brown. We had lived in Albuquerque, N. M., at the same time (1883) and our acquaintances were known to each other.

Our stay in Wrangell put us wrong with the tide and we are now anchored in the narrows waiting for it to turn. Quite a few boats out trolling for salmon which are showing up in small schools. This first catch won't justify opening of the plants, but will be smoked, salt-cured or shipped in ice storage. Should arrive at St. Petersburg about 2 or 3 o'clock this afternoon and my destination.

Juneau, some time between midnight and morning. I will be glad when I clear from Juneau on the third leg of the trip and for the actual hunt.

## Typical Alaskan Weather

All day yesterday and today it has rained—typical Alaska coast weather. 2 p. m.—Still raining in Wrangell narrows and tide running strongly against us. I understand in some parts of Alaska coast reach, immense proportions—almost as much as Bay of Fundy. Left Wrangell and got into St. Petersburg, where we unloaded some freight and cleared during night, docking at Juneau the morning of the 27th, where I met my boatman. He was busy most of the day getting supplies aboard and attending to personal affairs. Had dinner with his charming family and then wrote home to say I would leave the morning of the 28th for 30 days and probably wouldn't have an opportunity to write during that time. Cleared from Juneau about 10 a. m. on the 28th, and that night tied up in a little light to leave early next morning to really begin our hunt.

## Run Through Slush

28th. Clear and bright, almost without a cloud. 29th.—Run through slush, ice and about 6 a. m. passed the bow of the Sophia, which struck a reef and went down with some two hundred aboard, most or probably all of whom could have been saved had proper caution been exercised, even after the boat struck.

At 9 a. m. we went ashore after cruising in and out of several pretty little bays and really began our hunt, fourteen days out from Santa Ana. Another perfect day, but after some three hours ashore, we are convinced no bears are out here, mountains covered with deep snow and whole country frozen—not a track can be seen with possible exception of one marlin track, so we went aboard, and hoisted anchor.

## Bear Kills Ex-Soldier

As I write, 4:30 p. m., we are headed for Peril Straits, and from there are going to make a short hunt on Chicago island for a bear that killed a young ex-soldier a few days previously. It seems this young fellow, who was working in a logging camp, laid off and went out looking for bear. He found one, wounded it, so much charged, he failed to stop it and was mauled and torn. He was found next morning where he had crawled onto the beach, but died before they could get him to Sitka. Shooting a 30-30, little too small for this kind of work.

Really, I am afraid I am a full twenty days too early for anything like a successful bear hunt. Still you can't tell, as I may be lucky enough to drop into some locality where some old grizzly fellow is out and if so, should have no trouble in making his acquaintance—hope so.

## Still Headed South

30th.—Still headed south for Peril Straits with mountains on either side. I was surprised when ashore, yesterday, to see so much ice and the ground so hard frozen. I am very anxious to find a section where bear are out and if the Peril Straits country doesn't prove the solution, we will simply have to prospect.

30th.—Put into Pattison Bay, Hoonah Sound, and hunted ashore that afternoon and next morning. Saw no sign until next morning, and while track was large, it was several days old. A heartbreaking tramp through softening snow brought no results. About noon we concluded to move the boat a few miles into little uncharted bight, but before we got well under way, Billy saw a black object on beach

## MANY BIG LEAGUE STARS COME FROM WESTERN COLLEGE

Brother Agnon, spiritual mentor and athletic counselor to young players at St. Mary's college, is credited with keen baseball eyes and hence gets a great deal of credit for the achievements of "his boys" in the big leagues. He is shown with Henry Ludlum, this season's star twirler.

## SANTA ANA RUNNERS AID SOUTHERN MEN DEFEAT CARDINALS

Two Santa Ana boys, Doug Keach and Johnny Spangler, helped the combined Southern California Conference Track team defeat the Stanford Varsity at Stanford yesterday afternoon, 74 to 66.

Keach, who is attending California Tech, won the 2 mile run in 9 min. 52 seconds, the fastest time that has been made on the Cardinal oval this year for the long grind.

Spangler, now of Occidental, finished third in the 440 yard dash and ran the first lap on the winning relay team. The relay race decided the meet, the Southerners taking the baton affair by a scant foot.

## IRVINE TO TANGLE WITH LANKERSHIMS

Re-inforced by "Tough" Tyrrell, until recently with the Angels, the Irvine baseball club will tangle with the fast Lankershim team at Irvine tomorrow afternoon. Tyrrell will don the mask and mitt and handle "Dutch" Hirsch's slants.

The Lankershim outfit is regarded as one of the strongest semi-professional aggregations in Southern California but Trickey's men are confident that they will be able to upset the visitors. The match will begin about 2:30 o'clock.

which attracted his attention and before he took his eyes away it separated and three objects took the place of one.

## 16 More Days Until Fishing Season Opens Get Your Tackle Ready Now

In preparing our equipment for the opening of the Fishing Season we have borne in mind you and all other sports enthusiasts who wish to secure the very best articles at the most reasonable prices.

All of our equipment is guaranteed to be of Livsey quality, and that means the best.

You will find that we have stocked everything that you will be needing for the trip on the first of May. Come in now and look our stock over.

## For Mountain Roads

## Reline Your Brakes

Take no chances with your car if you plan a fishing trip in the mountains. Preparedness with your brakes may mean avoidance of a nasty accident.

A complete stock of brake lining always on hand. You will find some to fit your car's brakes.

## Camping is a Pleasure

## With This Equipment

You really should see the many new things that are out this spring to make camping life more easy.

Of course we have stocked all of them, for we know that you and other patrons would be wanting new equipment before May the first.

## GIGS, HANK CLUBS

McGraw's Men Primed for League Opening; A. L. Champs Crippled

## BY HENRY L. FARRELL

(United Press Staff Correspondent)  
NEW YORK, April 14.—Both New York teams, general favorites to repeat their last season's victories in the pennant races, were back home today on the tail end of their circus activities.

"First class," John McGraw said in commenting on the condition of his world's champion Giants, but Miller Huggins, the little boss of the Yankees was not so optimistic.

## The Giants are ready and settled for the spring drive, but the Yankees are partially upset by the disability of Everett Scott, the champion marathon player of baseball.

## Scott is injured.

Scott is limping around on a sprained ankle, and although he insists that he will be able to hold down the short stop job when the season opens, Huggins is not so sure about it.

Jimmy O'Connell, the \$75,000 Giant outfielder, is ready to start but Jack Bentley, the \$65,000 pitcher, is still carrying some extra poundage, and may not get much regular work until he reduces the equator.

Babe Ruth is a strange sight to New Yorkers with his slim waist. The swat king is down to 200 pounds and he looks to be in better condition than he has ever been before. The Babe hopes to get back at his old home run stuff, but he is not boasting about it.

## Babe Confident.

"I haven't got going yet, but as soon as I get a couple of real games in my system I hope to get the range at the new stadium. I ought to hit some homers this year," the big swatter said.

The Giants will engage the White Sox at the Polo Grounds this afternoon and the Yanks will go over to Brooklyn to continue their fracas with the Robins.

## Sport Flashes

NEW YORK.—Entries for the \$50,000 Preakness, to be decided at Pimlico on May 22, have reached the total of 142 colts from 18 states. The race is at one mile and a furlong.

NEW YORK.—Harvard fencers won the inter-collegiate foil team championship here last night with a total of 17 victories out of 17 bouts. It was the first time Harvard has won the title since 1899.

## Legal Notice

## ORDINANCE NO. 210

An Ordinance Regulating the Business of Spraying Trees, Plants or Vines in the County of Orange, and Providing for the Issuance of Licenses to Engage in Such Business.

The Board of Supervisors of the County of Orange do ordain as follows:

Section 1. It shall be unlawful for any person or persons to engage in any firm, partnership or corporation, as manager, managing agent, officer, agent, or employee of the County of Orange, in the business of fumigating or the business of spraying trees, plants or vines in the County of Orange without first having procured a license as hereinafter provided.

Section 2. Any person or persons owning or, as manager, managing agent, officer, agent or employee of any firm, partnership or corporation, controlling any outfit, apparatus or implements used in the business of fumigating or the business of spraying trees, plants or vines, shall, before using or permitting to be used any fumigating or spraying outfit, in such business of fumigating or the business of spraying trees, plants or vines, procure a license as an operator as hereinafter provided. Any foreman or other person who has personal charge of or personally directs the operation of any outfit, apparatus or implements used in the business of fumigating or the business of spraying trees, plants or vines shall first procure a license as foreman as hereinafter provided. In every case both an operator's license and a foreman's license shall be taken out before any such outfit, implements or apparatus can be operated, but where the same person owns or manages two or more separate outfits only one operator's license need be obtained.

Section 3. Application for either an operator's license or a foreman's license shall be made in writing to the County Horticultural Commissioner, who shall examine the applicant and the implements and apparatus to be used by him in such business and shall specify such application to the Board of Supervisors together with his recommendations in respect to the same.

Section 4. The Board shall grant such license only if it finds that the applicant has sufficient knowledge of the proper conduct of such business to be competent to engage therein and that the said implements and apparatus are properly constructed and suitable for said business. All licenses granted hereunder shall be upon order of said Board and the County Clerk shall issue said licenses to the applicant therefor upon the payment of the proper fee.

Section 5. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 6. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 7. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 8. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 9. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 10. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 11. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 12. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 13. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 14. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

Section 15. Whenever any person or persons engaged in any spraying or fumigation in a negligent or careless manner or use improper materials or an insufficient quantity thereof or unfit or improperly constructed implements or apparatus shall be liable to the County Horticultural Commissioner to be upon written notice to such person or persons to correct such neglect or carelessness or to revoke said license giving his reasons in writing to the Board of Supervisors.

## Legal Notice

Noticetual Commissioner at said hearing. Section 7. The County Horticultural Commissioner may issue requirements regulating fumigating and spraying operation in this County. A copy of said requirements shall be furnished by the County Horticultural Commissioner to each holder of a license under this ordinance.

Section 8. Every person holding an operator's license under this ordinance shall report to the County Horticultural Commissioner at the end of each month, the number and location of trees, plants or vines sprayed or fumigated by him during said month, the name of the owner, the name of the pests for which same were treated and the amount, kind and strength of material used thereon.

A chart of each orchard treated shall be made by each licensee holding an Operator's License hereunder, in accordance with instructions issued by the County Horticultural Commissioner, and such charts shall be kept on file by such licensee for the period of one year.

The County Horticultural Commissioner shall, for the purpose of enforcing this ordinance, cause inspections to be made of the apparatus and equipment used by fumigating or spraying, and of the methods of operation of such apparatus and equipment and of the method of application of the materials used.

Section 9. It shall be unlawful for any holder of an Operator's License under this ordinance to accept any commission fee or brokerage or other remuneration from any manufacturer or dealer in fumigating or spraying materials, provided that such fee or remuneration shall be so strung so as to prevent any such manufacturer or dealer from entering into the business of fumigating or spraying and employing the necessary managers and foremen therefor.

Section 10. Every person who shall violate any of the provisions of this ordinance shall be deemed guilty of misdemeanor and shall be punished by a fine of not more than five hundred dollars (\$500.00) or by imprisonment in the County Jail for a period not exceeding six months or by both such fine or imprisonment.

Section 11. This ordinance shall take effect thirty days after its passage and prior to the expiration of fifteen days from the passage thereof shall be published for at least one week in the Santa Ana Daily Register, a newspaper published and published in the County of Orange, State of California, together with the names of the Board of Supervisors voting for and against the same.

Attest: J. M. BACKS, Clerk and Ex-Officio Clerk of the Board of Supervisors of the County of Orange, California.

J. M. BACKS, County Clerk of the County of Orange, State of California, and Ex-Officio Clerk of the Board of Supervisors of said County of Orange, hereby certify that at a regular meeting of the Board of Supervisors of said County of Orange, held on the 11th day of April, 1923, at which meeting were present: Supervisors S. H. Finley, Wm. Schumacher, Leon O. Whitsett, T. B. Talbert, and George Jeffrey.

The foregoing ordinance consisting of twelve sections was considered section by section and each section separately considered and the said ordinance was passed and adopted section by section and then as a whole by the following vote, to-wit: Ayes: Supervisors George Jeffrey, Leon O. Whitsett, T. B. Talbert, S. H. Finley and Wm. Schumacher. Noes: Supervisors—None.

Attest: J. M. BACKS, County Clerk and Ex-Officio Clerk of the Board of Supervisors of the County of Orange, State of California.

No. 14655  
Estate of James G. Robertson, Deceased.

NOTICE TO CREDITORS  
Notice is hereby given, by the undersigned, executrix of the estate of James G. Robertson, Deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit the same with the necessary vouchers, within ten months after the first publication of this notice, to the undersigned at the office of John A. Harvey, Esq., her attorney, in the County of Santa Ana, California, who office the undersigned selects as a place of business in all matters connected with said estate, or file the same with the necessary vouchers, within said time with the Clerk of the Superior Court of Orange County, California.

Dated April 7th, 1923.  
MARGARET M. ROBERTSON, Executrix of the last Will of James G. Robertson, Deceased.

NOTICE TO CREDITORS  
Estate of John F. Pritchett, Deceased.

Notice is hereby given, by the undersigned, administratrix of the estate of John F. Pritchett, deceased, to the creditors of, and all persons having claims against the said deceased to file them with the necessary vouchers in the office of the Clerk of the Superior Court of the County of Orange, State of California, or to exhibit the same with the necessary vouchers to the said administratrix at her place of business, law office of Clyde Bishop, Trust Bldg., Santa Ana, in the County of Orange, within four months after the first publication of this notice.

Dated this 17th day of March, 1923.  
FLORA E. PRITCHETT, Administratrix of the Estate of John F. Pritchett, Deceased.

NOTICE TO CONTRACTORS  
Le Habra School District will receive bids the 30th of April upon the following contracts:

No. 1—Excavating.  
No. 2—Concrete Work.  
No. 3—Brick Work.  
No. 4—Plastering.  
No. 5—Tile Roofing.  
No. 6—Composition Roofing.  
No. 7—General Contract.  
No. 8—Plumbing.  
No. 9—Sheet Metal & Ventilation.  
No. 10—Painting.  
No. 11—Finishing Hardware.  
No. 12—Hardwood Floors.  
No. 13—Electric Wiring.  
No. 14—Blackboards.  
No. 15—Marble.  
No. 16—Stair Doors and Glass.  
No. 17—Heating.

A certified or cashier's check or bond in the amount of five per cent (5%) of the bid will be required. A deposit of ten dollars (\$10.00) will be required from all contractors receiving plans and specifications. Deposit will be refunded when plans and specifications are returned.

Provision will be made so that Contractor may take off quotations from the plans at the Grammar School Bldg., Le Habra.

Please give this notice publicity as the Board is desirous of receiving bids from Orange County contractors.

Inform the Architect of your desire to participate as soon as possible.  
J. J. JEFFERY & SCHLAFER, ARCHITECTS,

## FOR YOUR INFORMATION

Without calling into question anyone's sincerity, The Register feels duty-bound to "keep the record straight" as to the provisions and effect of the proposed special city charter. Otherwise, lack of information and misinformation may mislead many voters.

The claim is made by opponents of the charter that "it would add greatly to the overhead expenses of the city."

And it is true that it would add the salary and expenses of the city manager. But in every city where a competent city manager has been employed he has saved his salary many times over in purchasing supplies, getting better service and eliminating wastes. Isn't it good business to add to your overhead every dollar that will save five or ten or even two dollars in operating expenses?

The statement is made again and again by those who oppose the charter that "it nullifies the recall and initiative."

Article IV, Sec. 1 of the charter reads as follows: Every elective officer of the City of Santa Ana, whether elected by popular vote or appointed to fill a vacancy, is subject to recall and removal from office by the qualified electors of the city.

The procedure to effect such removal from office shall be as follows:

Sec. 2. A petition signed by qualified electors equal in number to fifteen per centum of the entire number of registered electors at the last preceding general municipal election demanding the election of a successor of the officer to be removed, containing a statement of the reasons for this demand, shall be addressed to the Council, presented to and filed with the Clerk.

No petition for the recall of any officer of the City of Santa Ana shall be circulated or exposed for the signature of electors except at not exceeding three public places in the City of Santa Ana, previously designated by the Clerk in writing.

At the same time and place, there shall also be circulated and exposed for the signature of electors, and with equal opportunity for being signed, a protest against the recall of the officer or officers sought to be removed, and unless the number of signatures upon the recall petition shall exceed the number of signatures upon the protest, then no election for the recall of the officer or officers shall be had.

At least two opponents of the charter have stated in public meeting that "the real purpose of the charter is to get more money, to increase taxes," etc.

As a matter of fact, the charter limit of taxation is lower than the present limit—that is to say, the board of trustees could levy more taxes under the present law than under the charter. The charter provides a strict and absolute limit of \$1 for the general fund and 25 cents for all special funds. Under the present law the general fund limit is the same, \$1, and special fund limits (with the exception of library fund, on which there is no limit) aggregate just one cent more than the charter special fund limits. But the trustees COULD raise the library fund to 20c or 25c, and thus greatly exceed the aggregate charter limits.

## IS THE BILL MADE UP OF 'PORK'?

"It is the easiest thing in the world to make vague, general charges, but it is an entirely different proposition to name specific instances and submit proofs."

With this sentence the National Rivers and Harbors Congress, with headquarters in Washington, D. C., opens a circular letter that has been sent out to thousands of newspapers, commercial organizations and individuals throughout the country. The letter accompanies a questionnaire in which opinions are sought concerning rivers and harbors appropriations made by Congress.

"Quite a number of newspapers have declared that the appropriation recently made for rivers and harbors is a 'pork barrel', or, in plain English, a clear steal from the treasury of the United States," says the circular letter.

The Rivers and Harbors Congress wants to know if those receiving the questionnaire believe that the bill was a pork barrel measure.

We are not familiar with conditions in other states, but we are firmly convinced that so far as California is concerned, the appropriations were not of the pork barrel variety. They had government engineers' reports back of them, and an increasing Pacific trade unquestionably calls for greater facilities than are now available.

A number of these questionnaires have been received in Orange county. They contain one question concerning the sum of \$760,000 set apart for Los Angeles harbor. So far as it is possible to determine such a thing, the consensus in this county is that the Los Angeles appropriation in no sense can be called a "pork barrel" appropriation. Los Angeles harbor is crowded. It is not large enough to accommodate the demands made upon it. Numerous firms seeking dockage are on a waiting list.

The suggestion is made to the National Rivers and Harbors Congress that a congestion such as exists in Los Angeles harbor should call for governmental activity in developing nearby harbors. There is no place in California where the government can get so much for its money as it can get at Newport harbor. The place is a natural harbor, and the location, close to the activities of all Southern California, has everything to commend it.

The present "business cycle" seems to be a buycycle.

## MEET THE NEEDS OF 1923

This is the year 1923. And Santa Ana ought to be thought of as existing in the year 1923.

The men who drew up the proposed charter to be voted upon next Tuesday drew up the document with a view to meeting the conditions found in Santa Ana today, and to be found in the Santa Ana of tomorrow.

Santa Ana is not the city it used to be, and it can never again be the city it used to be. No one wants it to be. Its legal structural needs have changed,

just as its needs in sewers and water and streets have changed.

The charter is specifically designed to meet the needs of the new city.

The specifications for governing cities of the fifth class were drawn up many years ago. They have been changed but little since that time. Santa Ana has changed greatly, but the form of its government has not changed to meet its needs.

Our duty, at this time, is to give this city a legal attire fitting its growth.

It may have been a curse that killed Lord Carnarvon, and it may have been a mosquito, and again it may have been a cursed mosquito.

## The Vanderlip Plan

San Diego Union.

How can the people of a nation direct their country's relations with other countries? This question has been asked from time to time by statesmen of this and other nations. So far no answer has been found, but with the growing complexity and importance of international problems the search for an answer has been intensified since the World war.

Frank A. Vanderlip, the eastern banker and economist who recently spoke before several San Diego audiences, is the latest to suggest a plan for popular control of foreign relations, and his tentative proposal has been arousing some interest.

Mr. Vanderlip proposes a constitutional amendment to place control of foreign affairs in a commission of 25 men, elected by the country at large, and each serving for not less than 10 years. Terms would be so arranged that five members would retire, or stand for re-election, at each congressional election, and other details of the commission's functioning are suggested in the Vanderlip plan.

There is not space here to do more than sketch the problem that Mr. Vanderlip aims to meet. At the present time, our foreign affairs are handled by men elected or appointed by domestic political parties or their leaders. These men do not necessarily have any understanding whatever of foreign problems; they do not necessarily represent the actual will of the people at large in any transaction or policy; they have no opportunity for thorough study of foreign affairs, since their tenure of office is brief and insecure, and they are forced to occupy themselves with politics at home in order to retain their places. It is obvious that no permanent, consistent and wise course of dealings with other countries is possible under conditions like the present.

We mention the Vanderlip plan, not to commend it, but to call attention to the situation it is designed to meet. Sooner or later there must be a change in our method of contact with other countries. The time is coming when national politicians can no longer be allowed to control war, peace, conferences, treaties and the other phases of international relations.

## Schooling for Indians

Riverside Press.

The superior court of Lake county has handed down a mandate directing the trustees of the Middle Creek district in that county to admit the Indian children in that district to the public school or to provide a separate school for them. The parents of several Indian children who were refused admission to the district school in the neighborhood where they live brought the action.

Miss Georgiana Carden, state attendance officer, has been working on the matter of school privileges for these children for some time and in her efforts she had the support of Mrs. Stella Atwood of Riverside, chairman of the committee on Indian welfare of the National Federation of Women's clubs.

The district has ample resources to provide for the Indian children and the government stands ready to pay tuition for them. It is believed the decision of the court in this instance will have a salutary effect in other counties where the Indians are being discriminated against in the matter of school privileges.

## Oil Stock Frauds Huge

Pasadena Star-News.

Startling are the proportions of swindles in oil stocks, particularly in the state of Texas. More than \$100,000,000 represents the astounding total of frauds in the Texas field alone during the last five years. This is scandalous. Announcement by the Postoffice Department that vigorous prosecutions will be made in these frauds is timely. The public should be protected, by all means.

Meantime, the people should use their common sense to safeguard themselves. Common sense should guide them in making investments in stocks of any kind. There are honest, legitimate oil stocks and stocks of other kinds—stocks which are safe and profitable investments. The public, with a little discernment and exercise of prudence, and by seeking honest, competent advice, could shield itself against frauds. The federal authorities seem bent upon making a thorough housecleaning so far as these frauds are concerned. The media should be denied them, and they should be proceeded against by state as well as national authorities, in all flagrant cases of swindling.

## What Is the Purpose?

San Francisco Chronicle.

As the result of effort beginning in the time of President Roosevelt the Angora Nationalist Assembly has ratified a concession originally given by the Turkish government to an American company to build 1200 miles of railroad in Mesopotamia and develop oil in the province of Mosul.

There was no question of the authority of the Turkish government when the concession was granted, although European nations interested have always vigorously opposed American intrusion into their Turkish reservation.

Following the war Great Britain and France have seemed to hold that all the old concessions were invalid except such as were given to themselves. It does not appear that the Angora Assembly has ratified any other of the old concessions. It is possible that this belated action of the Angora Assembly may have some tinge of politics, as, for example, promoting discord among rival claimants for what the Angora government claims for itself. It will be interesting to watch developments.

## Editorial Shorts

Evolution continues. Time was when the world was flat only at the poles—New York Tribune.

Seems to be nothing left for Dr. Percy Grant to do except write a new Bible.—Toledo Blade.

There is far too much illiteracy in California. There are more than 95,000 persons in this state who can not write their names in any language. The majority of these are white. These figures, from the National Department of Labor, should stir Californians to redoubled efforts to wipe out illiteracy. This should not be left wholly to educational authorities. Clubs and welfare organizations, as well as patriotic bodies, well may join in efforts to banish ignorant ignorance from the state.

With earnest co-operation of all elements, it should not require long to rid California of this baneful condition of illiteracy.—Pasadena Star-News.

## When Sunday Comes

By John Andrew Holmes

Without Sunday, the soul is at the best a potato patch; with Sunday it becomes a rose garden.

## The Kill-Joy

## Why a City Manager?

By CLYDE L. SEAVEY, member of the State Railroad Commission, former member of the State Board of Control, former city manager of Sacramento.

The history of the operations in Sacramento has been quite similar to that in other cities in the United States and in Canada, where they have this particular form of government. To my mind, there has been a remarkable proof of efficiency in the growth of this form of government, proving it to be a more practicable form, and a better form for municipalities than others that have been attempted. It has been demonstrated by its growth that there is a real merit in the method.

Since 1913, nearly 300 cities, either by charter or ordinance, I think about 200 by charter and a little less than 100 by ordinance, have adopted this form of government. That is a remarkable record growth in the establishment of any new governmental method in municipal affairs.

Another remarkable thing about it is that no city of which I have knowledge that has adopted it by charter, has ever receded from it.

The reason, to my mind, that this is proving a good system of government, is because it is fundamentally sound.

## Worth While Verse

## I AM ONE WHO HAS STOOD

I am one who has stood in a town  
Under the cliffs by the sea  
When the taut sails were going  
Where I had longed to be,  
And the narrow streets led down  
As the wharves and spray was throwing  
Wild kisses over me.

I knew that I could not go  
Like sails, and I could not stay  
Like cliffs—and a wind was blowing  
Keen over the cliffs and bay  
And that's how I came to know  
Why dreams must be and, knowing  
Have less of them to say.  
—By Glenn Ward Dresbach in the New York Sun.

## Time to Smile

## HAD NEVER KIPPLED.

A friend of mine, taking a broader road of curiosity, has followed the "greatest of living novelists," as proclaimed by their publishers, in the last few years. He has found, to his amusement, that there has been a new "greatest living novelist" nearly every month and that there has been a "first novel of promise" almost every week. He has, like the "chief" of Burns' poem, been "takin' notes," and, like him, he is going to print them, and we shall all be amused.

Some of the young blades of publishing will have to look as innocent, whether they feel it or not, as a certain society girl who went into a West End bookshop the other day in search of something to read, and, being asked, "Do you like Kipling?" replied, "I don't know. I've never tried it. How do you kipple?"—Jas. Milne in the London Graphic.

## THE POINT

"Now, tell me sir," demanded counsel for the defense, "and mind what you are saying. Do you assert that you were wounded in the melee?"

The witness pursed his lips obstinately before replying. "I never said where I was wounded," he said. "It might 'ave been in the melee, or it mightn't. All I know is that 'e 'it me."

—London (Eng.) Tit-Bits.

## Tom Sims Says

They say girls' colleges don't teach much. Any graduate will tell you two and two makes a bridge game.

Twins born in Chicago were named Adam and Eve and should be kept away from the orchards.

Harding has given up fishing for golf. You don't have to wait for a golf ball to bite.

It is hard to tell if a friend is speaking Greek or radio.

A Logan (O.) hen has four legs which is very lucky if she has to scratch for a living.

One difference between us and Congress is, Congress has passed the income tax and we haven't.

## Some Odds and Ends

## KILLED

Railroads killed 5852 of us last year, Uncle Sam announces. And 2431 of these were snuffed out while trespassing. At least half of the railroad fatalities are due to carelessness.

Again we emphasize that the train rarely leaves the track to hit anyone. The danger zone is only a few feet wide, between rails. Look both ways, and stop and listen, before crossing. No use dying before your time.

## SAVED

Cut this out and mail it to your congressman or senator: London cables that the United Kingdom's government in the last 12 months spent about 500 million dollars less than it received from taxes. That's a nice surplus.

The word "budget" over there apparently means something. A good many national elections in the next 10 years are going to be decided by the lone word "economy."

## RELIGIOUS

American churches last year gained nearly a million and a quarter in membership. Post-war suffering has made us more religious. American churches now have over 47 million members—and a big part of the population—and it should stay in line. The truly religious do not desert the church when everything seems to be coming their way, nothing to worry about.

## HOME

A young lady of New York city, married and taken to President Harding's home town a few months ago, languished with homesickness. She went home on a visit. The other day, when time to return to Marion she attempted suicide by swallowing iodine. She'd rather die than leave New York.

Many other young ladies would rather die than leave Marion. When all's said and done, home and friends count most in life. Nothing else really matters. Bromide, possibly—but not to anyone who has ever been really homesick.

## TAX

In Russia everybody with an income over \$27 a month has to pay income tax. The tax is 80 per cent—four-fifths—on all incomes over \$100 a month. How'd you like to live there? We agree.

The highest salary paid to any government official in Russia is \$53 a month. Even Trotsky and Lenin get no more. Maybe it is too much, at that. Their only consolation is that \$52 equals 2600 million rubles. What do you find in today's news more interesting than this?

## KILLED

Boarding a bus in New York city, Mrs. Harry A. Cohen turns to wave goodbye to her 20-month-old son, Kenneth, in a go-cart a half block away. She shrieks and swoons as she sees the baby killed by a runaway horse.

Indignant at auto accidents, we forget that the horse is as dangerous as the auto. But people, in the old, sensible days, usually drove slowly. If autos traveled as slowly as horses, an auto accident would be rare. The real danger is in speed, not the vehicle. Eventually all autos may have to be geared so they cannot run fast.

## ANCIENT

Canadian scientists "with grappling tongs will investigate what's at the bottom of the Ottawa river. At one point in its upper stretches this river is 5000 to 7000 feet deep. As the Grand Canyon would be,

filled with water to its brim. Was the Ottawa made the deepest river in the world by earthquake or slow erosion by running water? With all our science, we know very little about this earth we are visiting. We'll learn more as we progress in the great scientific age now dawning.

## ANGER

How do you act, by comparison, when you get mad? A person in rage reverts to childhood. Trouble usually is unnecessary and due to petty, inconsequential things. The wise man's attitude is that no one is worth getting angry at.

## Health Talks

From United States Public Health Service.

## STREAM POLLUTION INDEX.

Some years ago it was freely asserted that the degree of pollution in a stream was indicated by the presence or absence of this or that species of "plankton," a name applied collectively to the minute free-floating plant and animal organisms that live in practically all natural waters. It was held that some species inhabited only grossly polluted, others only moderately polluted, and still others only clean waters
